Writing Musical Theater A. Cohen,S. Rosenhaus,2016-04-30 This guide to the modern musical covers the entire process of creating a show from finding and working out the initial idea through to the ways in which writers can market a finished show and get it produced For the interested theatregoer and writers it is written in a lively and user friendly style and illustrated with numerous examples Adult Catalog: Authors Los Angeles County Public Library,1970 Going Solo G. Stuart Smith,2011-05-30 The traditional model of video news reporting has always had two separate roles reporting and videography For years however small market news outlets have relied on one man bands individual reporters who shoot and edit their own video for stories and footage Lately as the journalism landscape has evolved this controversial practice has grown more and more popular With the use of video constantly expanding many large market TV stations networks and newspaper Web sites are relying on one person to carry out a job formerly executed by two News outlets now call these contributors VJs digital journalists backpack journalists or mobile journalists But no matter what they are called there s no denying the growing significance of solo videojournalists to the media landscape Going Solo Doing Videojournalism in the 21st Century details the controversy history and rise of this news genre but its main objective is to show aspiring videojournalists how to learn the craft While other textbooks depict the conventional reporter and videographer model Going Solo innovates by teaching readers how to successfully juggle the skills traditionally required of two different people Award

winning journalist G Stuart Smith begins by describing how and why the media's use of solo videojournalists is growing then delves into the controversy over whether one person can cover a story as well as two. He illuminates how together the downsizing of the media, downturn in the economy and growth of video on the Web have led to the rise of the solo videojournalist model. *Going Solo* profiles TV stations and newspaper Web operations across the country that are using the model and offers helpful advice from VJs in the field. The book presents useful guidelines on how to multitask as a reporter, videographer, conducting interviews, shooting cover video and writing and editing a good video story. Readers will also learn how to produce non-narrated stories and market themselves in a competitive field. Smith, who started his career as a one-man band, insightfully covers an area of journalism that despite its growing market demand has received little academic attention. *Going Solo: Doing Videojournalism in the 21st Century* is useful for students learning the basics and those already in the field who need to upgrade their skills. By presenting industry know-how and valuable tips, this unique guidebook can help any enterprising videojournalist create a niche for him or herself in the increasingly fragmented news media market.

Written with clarity and humor, this book teaches the craft of writing short screenplays by guiding the student through carefully focused writing exercises of increasing length and complexity. Eight award-winning student screenplays are included for illustration and inspiration. The text is divided into three parts. Part one focuses on preparing to write by means of exercises designed to help students think more deeply about the screenwriter's purposes, their own unique vision, material and process, and finally about what screenplays are at their simplest and most profound level: a pattern of human change created from specific moments of change, discoveries and decisions. Part two teaches students how to craft an effective

pattern of human change It guides them through the writing and re writing of Five Not So Easy Pieces five short screenplays of increasing length and complexity focusing on a specific principle of dramatic technique The Discovery The Decision The Boxing Match The Improbable Connection and The Long Short Screenplay Part Three presents the five screenplays used throughout the book to illustrate the dramatic principles that have been discussed and includes interviews with the screenwriters a look at where they are now and what they are doing and brief discussion of how each film evolved
