Solo Peter McGraw, 2024-01-30 Brilliant and provocative Solo transcends the loneliness narrative surrounding single life

It's not just about being OK with being alone; it's about the incredible freedom and endless opportunities that come with it. McGraw combines science and wisdom to unlock the secrets that Solos have always known: life is richer when you are the hero of your own story.

Kristin Newman, author of *What I Was Doing While You Were Breeding*, joins the movement that celebrates single living with Peter McGraw's groundbreaking book *Solo*. Amid the complexities of modern relationships, loneliness epidemics, and online dating burnout, there's a refreshing alternative: going Solo. Solos, as coined by behavioral economist Peter McGraw, are people who choose to lead their lives authentically, purposefully, and passionately outside the confines of traditional relationship labels.

In a world built for two, Solos break the rules and hold space for every type of individual: single and not single, Meet the thriving Just Mays who welcome romance if it comes their way, the determined No Ways who prefer life unpartnered, and the bold New Ways who redefine and redesign what relationships even mean. Which one are you?

In contrast with the Someday singles who hang personal fulfillment on the success of a serious, long-term relationship, McGraw reveals the secrets of happiness that Solos have already unlocked, offering readers a roadmap to reinventing sex, dating, romance, and beyond. Backed by scientific insights and McGraw's experience as a lifelong bachelor, *Solo* offers a blueprint for cultivating fulfilling relationships and creating a rich, remarkable life. *Solo* is your invitation to pursue a life uniquely your own.

Her energy level is higher than a charged particle. People: Her manner is down to earth and reassuring. She tries to make people feel better, value themselves, trust their instincts. Ladies Home Journal

In today's world of instant gratification, people have lost the knack for keeping romance alive. But true romance never really dies; it only goes into hibernation, waiting for somebody to wake it up.
