of tissue expanders and a hysterectomy When she healed from the surgeries she had radiation therapy It only took 15 additional surgeries but Lisa Masters now has two breasts and a purpose to spread the word and break the silence of those who live with the scars that breast cancer has left behind The book is written from her perspective which includes 25 very graphic breast photos from beginning to end along with her own photo in order to make the story personal The medical photos alone tell a story of success and they are difficult to look at However she feels those photos must be shown to the world and must be connected to a face her face Build A Boob talks about Lisa Masters family and their life prior to cancer The book also talks about the toll this disease took on everyone involved Build A Boob is a story of failure pain determination and success told with humor and optimism that involves a tenacious plastic surgeon and a woman who never settled Included is a Forward written by plastic surgeon Dr Sergio Zamora Daytona Beach FL
