Noddings,Susan C. Christoph,John G. Noddings,2001 Aimed at all investors seeking exceptional risk adjusted returns in the financial markets Essential for all students and researchers attempting to understand this phenomena The global market for convertible bonds preferred stock and equity warrants has grown in excess of 400 billion Long overlooked by mainstream money managers convertible securities are catching fire within the alternative investment community Taking advantage of their systematic undervaluation relative to conventional stocks and bonds investors are now using convertibles within a broad spectrum of investment strategies ranging from high performance cash alternatives to low risk high performance alternatives to small company stocks      **Modern Project Finance** Benjamin C. Esty,2003-10-17 This cutting edge financial casebook is divided into four modules Structuring Projects Valuing Projects Managing Project Risk and Financing Projects The cases have been carefully selected to reflect actual use of project finance over the past five years in terms of geographic location the cases come from 15 different countries and industrial sectors

Benjamin Esty of the Harvard Business School is one of the leading scholars in project finance. Project finance is becoming the financing mechanism of choice for many private firms. Cases require the reader to integrate knowledge from multiple disciplines when making a single managerial decision. This integration of functional areas such as strategy, operations, ethics, and human resource management encourages the reader to adopt a more integrative perspective and understanding of the interconnectedness of managerial decision making.
