Prior, 2019-07-10 This book engages with a widespread contemporary dilemma how do we do theology in a context where the cultures of the people are oral and not literate The nations of the South Pacific from their missionary beginnings inherited an approach to theology that was dominated by Western cultural categories The global movement of contextualization began to impact upon Pacific churches in the 1960s and challenged this inherited approach Significant changes have resulted but the dilemma has remained The dominant approach is still one that is defined by and better suited to literate cultures The consequence is that theology remains an alien enterprise distant from the life of the local churches and distant from the hearts and minds of the indigenous people In facing the dilemma this book exposes the fundamental differences between primary oral cultures and primary literate cultures and identifies the key factors that lie at the heart of the theological problem By addressing each of these in turn the author then paves the way ahead He offers a methodology for theology that is rooted within the oral cultural context of the South Pacific and potentially in any context where oral cultures are the norm The consequences for theology and for theological education are profound *Pacific Languages in Education* France Mugler, John Lynch, 1996 This collection of articles and interviews explores policy practice and attitudes relating to the use of Pacific languages in education systems of most Pacific Island countries and territories from pre school to tertiary level It records history it deals with current attitudes and prejudices and it focuses attention on perceived problems with the medium of education in many parts of the region Back cover [Australian National Bibliography](#) , 1996-12 [Atlas of the World's Languages in Danger](#) Christopher Moseley, 2010-01-01 Languages are not only tools of communication they also reflect a view of the world Languages are vehicles of value systems and cultural expressions and are an essential component of the living heritage of humanity Yet many of them are in danger of disappearing UNESCO s Atlas of the World s Languages in Danger tries to raise awareness on language endangerment This third edition has been completely revised and expanded to include new series of maps and new points of view *Integrating Gender in Agricultural Development* Lila Singh-Peterson, Michelle Carnegie, 2019-12-02 This book is grounded in the ideology that an alignment between the conceptual and practical understandings of gender equality is a critical component of sustainable development It draws on six rural case studies to examine the various ways in which gender has been integrated in agricultural research for development projects **People and Cultures of Hawaii** Thomas W. Maretzki, 2011-04-30 This is a significant update to the highly influential text *People and Cultures of Hawaii* A Psychocultural Profile Since its publication in 1980 the immigrant groups it discusses in depth have matured and new ones have been added to the mix The present work tracks the course of these changes over the past twenty years constructing a historical understanding of each group as it evolved from race to ethnicity to culture Individual chapters begin with an overview of one of fifteen groups Following the development of its unique ethnocultural identity distinctive

character traits such as temperament and emotional expression are explored as well as ethnic stereotypes Also discussed are modifications to the group s ethnocultural identity over time and generational change which traits may have changed over generations and which are more hardwired or enduring An important feature of each chapter is the focus on the group s family social structure generational and gender roles power distribution and central values and life goals Readers will also find a description of the group s own internal social class structure social and political strategies and occupational and educational patterns Finally contributors consider how a particular ethnic group has blended into Hawai i s culturally sensitive society

People and Cultures of Hawai i The Evolution of Culture and Ethnicity will like its predecessor fill an important niche in understanding the history of different ethnic groups in Hawai i

Standards of English Raymond Hickey, 2012-12-06 The notion of a standard variety of English has been the subject of a considerable body of research Studies have tended to focus on the standard features of British and American English However more recently interest has turned to the other varieties of English that have developed around the world and the ways in which these have also been standardised This volume provides the first book length exploration of standard Englishes with chapters on areas as diverse as Canada the Caribbean Africa Asia New Zealand and the South Pacific This is a timely and important topic edited by a well known scholar in the field with contributions by the leading experts on each major variety of English discussed The book presents in full the criteria for defining a standard variety and each chapter compares standards in both spoken and written English and explores the notion of register within standard varieties
