**The Risk of Regional Governance** Thomas Skuzinski,2017-09-18 Creating metropolitan regions that are more efficient equitable and sustainable depends on the willingness of local officials to work together across municipal boundaries to solve large scale problems How do these local officials think Why do they only sometimes cooperate What kind of governance do they choose in the face of persistent problems The Risk of Regional Governance offers a new perspective on these questions Drawing on theory from sociology and anthropology it argues that many of the most important cooperative decisions local officials make those about land use planning and regulation are driven by heuristic biased reasoning driven by cultural values The Risk of Regional Governance builds a sociocultural collective action framework and supports it with rich survey and interview data from hundreds of local elected officials serving in the suburbs of Detroit and Grand Rapids Michigan It is a story of the Rust Belt of how local officials think about their community and the region and most importantly of how we might craft policies that can overcome biases against regional governance

**The Politics of Language** David Beaver,Jason Stanley,2025-10-28 In much of the theory of meaning philosophers and linguists have focused on the use of language in conveying information in cooperative informational exchanges As a result political uses of speech of the sort that political propaganda exemplifies have not been taken to be a central case of language use In this book Jason Stanley and David Beaver focus on the political use of speech as a central case which leads to a foundational rethinking of the theory of meaning By focusing on the political uses of speech one arrives at better and more general tools to describe speech as well as a more accurate view of its central

functions More dramatically it enables us to see the ways in which virtually all speech is political a fact that is masked by much of the theory of meaning Stanley and Beaver s topic is speech generally its function and how best to represent that function Political propaganda serves as a window into that topic since its function is not obviously to share information or even misinformation They emphasize the importance of understanding how political propaganda works via the topic of the justification of free speech and argue that political propaganda poses a problem for a broad range of justifications of free speech Stanley and Beaver argue that it is not possible to compartmentalize the political aspects of speech from the non political aspects of speech nor is it possible to carve out a neutral deliberative space of evaluating reasons qua reasons Speech is invariably political

Companies of all kinds have fallen into some of the most fundamental of traps when it comes to consumer marketing in assuming that the motivation that drives their customers is entirely rational Enrico Trevisan s The Irrational Consumer builds on the ground breaking works on behavioural economics of authors such as Daniel Kahneman and Richard Thaler in order to explain the fundamental drivers of customer decisions and how to incorporate these into your business strategy Learn how consumers respond to different offer architectures and discounts why they sometimes struggle to see the wood for the trees in a world of ever increasing options what are the rules of thumb they develop for making sense of value Behavioural economics offers organizations perspectives for engaging with customers whose views on what to buy are strongly driven by contextual factors such as the framework and the dynamics of choices Enrico Trevisan s The Irrational Consumer is your must have primer to this world      *Public Finance and Public Choice* John G.
