Sketching Interior Architecture

Norman Diekman, John F. Pile

Sketching Interior Architecture:

Sketching for Architecture + Interior Design Stephanie Travis, 2015-07-20 The debate surrounding hand drawing versus computer generated imagery has become a hot topic Having grown up with computers today's interior design and architecture students are extremely adept at creating computer imagery but often lack confidence in their freehand sketching skills or do not know how to sketch at all Sketching and the careful observation that it entails is essential for the successful development of the next generation of designers Forty five step by step exercises take the student from the simple three dimensional forms of furniture to interiors to complex building exteriors and cityscapes Technical topics covered include tools line weights perspective proportion composition shading serial views and context Exercises are illustrated with beautiful sketches specially created by the author Sketching for Architecture Interior Design is an indispensable and practical guide for students wishing to master the art of looking and sketching
