Slave Power Conspiracy And The Paranoid Style:

The Slave Power Conspiracy and the Paranoid Style David Brion Davis, 1970 **The Slave Power Conspiracy and the Paranoid Style** David Brion Davis, 1969 *The Slave Power* Leonard L. Richards, 2000-08-01 From the signing of the Constitution to the eve of the Civil War there persisted the belief that slaveholding southerners held the reins of the American national government and used their power to ensure the extension of slavery Later termed the Slave Power theory this idea was no mere figment of a lunatic fringe's imagination It was as Leonard L Richards shows in this innovative reexamination of the Slave Power endorsed at midcentury by such eminent and circumspect men as Abraham Lincoln William Henry Seward Charles Sumner the editors and owners of the New York Times and the Atlantic Monthly and the president of Harvard College With *The Slave Power* Richards reopens a discussion effectively closed by historians since the 1920s when the Slave Power theory was dismissed first as a distortion of reality and later as a manifestation of the paranoid style in the early Republic and attempts to understand why such reputable leaders accepted this thesis wholeheartedly as truth and why hundreds of thousands of voters responded to their call to arms Through incisive biographical cameos and narrative vignettes Richards explains the evolution of the Slave Power argument over time tracing the oft repeated scenario of northern outcry against the perceived slaveocracy followed by still another victory for the South the three fifths rule in congressional representation admission of Missouri as a slave state in 1820 the Indian removal of 1830 annexation of Texas in 1845 the Wilmot Proviso of 1847 the Fugitive Slave Law of 1850 and more Richards probes inter and intraparty strategies of the Democrats Free Soilers Whigs and Republicans and revisits national debates over sectional conflicts to elucidate just how the southern Democratic slaveholders with the help of some northerners assumed protected and eventually lost a dominance that extended from the White House to the Speaker's chair to the Supreme Court *The Slave Power* reveals in a direct and compelling way the importance of slavery in the structure of national politics from the earliest moments of the federal Union through the emergence of the Republican Party Extraordinary in its research and interpretation it will challenge and edify all readers of American history **The Slave Power Conspiracy and the Paranoid Style Baton Rouge** David Brion Davis, 1970 Time of Anarchy Matthew Kruer, 2022-02-08 In 1675 English America descended into anarchy as rebellions massacres and riots swept the colonies from New York to Carolina Behind the upheaval was the Susquehannock Indians Their shrewd responses to settler violence altered the future course of life and government for colonists and Indigenous peoples from the Great Lakes to the Deep South **Conspiracies of Conspiracies** Thomas Milan Konda, 2019-03-15 The most comprehensive intellectual history of American conspiracy theories yet produced *The American Historical Review* It's tempting to think we live in an unprecedentedly fertile age for conspiracy theories with seemingly each churn of the news cycle bringing fresh manifestations of large scale paranoia But the sad fact is that these narratives of suspicion and the delusional psychologies that fuel them have been a constant presence in American life for nearly as long as there's been an

America In this sweeping book Thomas Milan Konda traces the country's obsession with conspiratorial thought from the early days of the republic to our own anxious moment *Conspiracies* details centuries of sinister speculations from antisemitism and anti Catholicism to UFOs and reptilian humanoids and their often incendiary outcomes Rather than simply rehashing the surface eccentricities of such theories Konda draws from his extraordinary assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self sealing worlds of denial What is distinctively American about these theories he argues is not simply our country's homegrown obsession with them but their ongoing prevalence and virulence Konda proves that conspiracy theories are no harmless sideshow They are instead the dark and secret heart of American political history one that is poisoning the bloodstream of an increasingly sick body politic Meticulous scholarship essential context for understanding our present mess *Survival Global Politics and Strategy* Incisive and engaging Konda's assessment of the new dynamics of conspiracy theories in contemporary US politics is a significant contribution Written with a clarity of expression rare in academic writing the book is accessible to a wide readership Choice

The Black Abolitionist Papers C. Peter Ripley, Roy E. Finkenbine, 2000-11-09 The passage of the Fugitive Slave Law more than any other event in the 1850s provoked a widespread emotionally charged reaction among northern blacks Entire communities responded to the law that threatened free blacks as well as fugitive slaves with arbitrary arrest and enslavement This volume pays particular attention to black resistance through such community efforts as vigilance committees and the underground railroad This five volume documentary collection culled from an international archival search that turned up over 14 000 letters speeches pamphlets essays and newspaper editorials reveals how black abolitionists represented the core of the antislavery movement While the first two volumes consider black abolitionists in the British Isles and Canada the home of some 60 000 black Americans on the eve of the Civil War the remaining volumes examine the activities and opinions of black abolitionists in the United States from 1830 until the end of the Civil War In particular these volumes focus on their reactions to African colonization and the idea of gradual emancipation the Fugitive Slave Law and the promise brought by emancipation during the war

The Age of Jackson and the Art of American Power, 1815-1848 William Nester, 2013-08-31 As William Nester asserts in *The Age of Jackson* it takes quite a leader to personify an age A political titan for thirty three years 1815-1848 Andrew Jackson possessed character beliefs and acts that dominated American politics Although Jackson returned to his Tennessee plantation in March 1837 after serving eight years as president he continued to overshadow American politics Two of his proteges Martin the Magician van Buren and James Young Hickory Polk followed him to the White House and pursued his agenda Jackson provoked firestorms of political passions throughout his era Far more people loved than hated him but the fervor was just as pitched either way Although the passions have subsided the debate lingers Historians are split over Jackson's legacy Some extol him as among America's greatest presidents citing his championing of the common man holding the country together during the nullification crisis and eliminating the national debt Others excoriate him as a mean

spirited despot who shredded the Constitution and damaged the nation's development by destroying the Second Bank of the United States defying the Supreme Court and grossly worsening political corruption through his spoils system Still others condemn his forcibly expelling more than forty thousand Native Americans from their homes and along the Trail of Tears which led far west of the Mississippi River with thousands perishing along the way In his clear-eyed assessment of one of the most divisive leaders in American history Nester provides new insight into the age-old debate about the very nature of power itself

The Fleming Lectures, 1937--1990 Burl Noggle, 1992-10-01 As a quintessentially southern campus Louisiana State University has logically spawned some of the most important regional scholarly studies of the twentieth century During the campus golden age in the 1930s such eminent scholars as Cleanth Brooks Robert Penn Warren and Eric Voeglin made LSU one of the leading academic institutions in the country It was during this period that a series called the Walter Lynwood Fleming Lectures in Southern History named in honor of a noted scholar and researcher at LSU in the early 1900s was created to add to the body of knowledge in the developing field of southern history Now considered one of the most distinguished lecture series of its kind the Fleming series has brought to the LSU campus scholars of note who have studied the South in its various aspects Lecturers ranging from C Vann Woodward and Lewis P Simpson to Eric Foner and Drew Gilpin Faust have presented a wide panorama of views and methodological approaches In this book Burl Noggle presents an informative history of the lectures from 1937 through 1990 As a member of the LSU history faculty for more than thirty years Noggle has heard most of the Fleming lectures delivered and has participated in the selection of lecturers He thus brings a rather special perspective to his subject that of an insider who has been intimately involved in the series itself as well as the broader understanding of a mature scholar who has devoted a substantial portion of his career to the analysis of American historiography Noggle focuses on two aspects of the Fleming series On one level he discusses the history of the lectures themselves who lectured on what topic why each lecturer was chosen what general historiographical trends prevailed at the time and how each speaker's lectures were related to scholarly currents within the profession On another level Noggle discusses just what the lecturers said about southern history and how they contributed to qualified refuted or revised existing conceptions about southern history The Fleming Lectures 1937-1990 is therefore both a history of the lecture series and an analysis of the history contained in the lectures

The American Civil War Steven E. Woodworth, 1996-12-09 The single most important volume for anyone interested in the Civil War to own and consult From the foreword by James M McPherson The first guide to Civil War literature to appear in nearly 30 years this book provides the most comprehensive up-to-date and informative survey and analysis of the vast body of Civil War literature More than 40 essays each by a specialist in a particular subfield of Civil War history offer unmatched thoroughness and discerning assessments of each work's value The essays cover every aspect of the war from strategy tactics and battles to logistics intelligence supply and prisoner-of-war camps from generals and admirals to the men in the ranks from the Atlantic to the Far West from fighting fronts to the home

front Some sections cover civilian leaders the economy and foreign policy while others deal with the causes of war and aspects of Reconstruction including the African American experience during and after the war Breadth of topics is matched by breadth of genres covered Essays discuss surveys of the war general reference works published and unpublished papers diaries and letters as well as the vast body of monographic literature including books dissertations and articles Genealogical sources historical fiction and video and audio recordings also receive attention Students of the American Civil War will find this work an indispensable gateway and guide to the enormous body of information on America s pivotal experience
