Anti-Sport Sentiments in Literature John Bale, 2007-11-05 This book draws on literature specifically on the writings of selected novelists and poets to widen an existing anti sport discourse to include hitherto excluded voices from the world of literature The book commences with a review of exiting pro and anti sport discourses and then proceeds to examine in turn the written works of five eminent authors excavating from their writings their anti sports rhetorics These writers are Lewis Carroll Charles Dodgson Charles Hamilton Sorley Jerome K Jerome John Betjeman and Alan Sillitoe In its conclusion the book draws together the broad themes discussed in the preceding chapters Innovative in its approach to sport and literature and remarkable for its not having been previously explored in any depth this book will be of interest to readers from both social sciences and humanities backgrounds *Harvest Bells* John Betjeman, 2019-06-27 A charming new collection of previously unpublished and uncollected poems by Sir John Betjeman John Betjeman's unforgettable poems on landscape and suburbia desire and death faith and doubt helped to establish him as the beloved voice of a nation Yet the ten books of poetry he published individually later assembled in the *Collected Poems* were an incomplete representation of his poetic oeuvre Many poems published in journals or magazines were excluded from Betjeman's books by him or his editors and a substantial number of finished poems were never printed at all remaining unknown to readers until now In this exquisite new edition of Betjeman's verse editor Kevin Gardner promises new treasures for Betj's admirers the world over Betjeman wrote many of these poems in the late 1920s and early 1930s when he was still developing his unique poetic voice They reveal a young poet experimenting with both Modernism and post Romanticism yet influenced by Shelley and Pope among others Some of these poems are profoundly psychological personal and deeply affecting to read today Several have the delicate and eccentric touch of much of his early poetry and shed new light on his

growth as a young poet while many others reflect the sustained maturity of his later verse Almost all are typically amusing and highly witty in the style typical of Betjeman some verge on the bawdy and even in one instance point towards homosexuality These charming and surprising new discoveries found in archives as far apart as Austin Texas and Christ Church Oxford will delight poetry lovers and introduce a whole new generation to Betjeman's unforgettable work

Auden's Interwar Poetry Ladislav Vít, 2021-12-14 This is the first book length study foregrounding Auden's sense of place as a means for enhancing our grasp of this crucial twentieth century poet. Proposing that Auden had a remarkable spatial sensibility, this book concentrates on his treatment of his homeland England as well as the North Pennines and Iceland, both of which served as his good places, holy grounds, and sources of topophilic sentiment. The readings draw on the scholarship of humanistic geography, tracing patterns of mental constructs which emerge from spatial experience. In a scholarly but engaging way, this book argues that focusing on Auden's poetics of place as it emerged and evolved can be instrumental to our understanding of this influential poet, not only in relation to his epoch but also to the Anglophone poetic tradition. Precisely because of his stature, these elaborations on Auden's preoccupation with places, escapism, borders, and local identity promise to enrich our understanding of the cultural and intellectual climate of the interwar period, when established notions of local places and cultures were beginning to be contested by internationalisation. This study will be of interest to both academics and students in the field of Anglophone literary studies, while also appealing to those attracted to Auden's poetry, interwar culture, and the literary representation of space.

Shadow Sites Kitty Hauser, 2007-03-29 At certain times of the day, at sunrise and sunset, the outlines of prehistoric fields, barrows, and hill forts in the British landscape may be thrown into relief. Such shadow sites, best seen from above and captured by an airborne camera, are both examples of and metaphors for a particular way of seeing the landscape. At a time of rapid modernisation and urbanisation in mid twentieth century Britain, an archaeological vision of the British landscape reassured and enchanted a number of writers, artists, photographers, and film makers. From John Piper, Eric Ravilious, and Shell guide books to photographs of bomb damage, aerial archaeology, and *The Wizard of Oz*, Kitty Hauser delves into evocative interpretations of the landscape and looks at the affinities between photography as a medium to capture traces of the past as well as their absence.

Elkhorn Richard Taylor, 2018-09-21 When former Kentucky Poet Laureate Richard Taylor took a job at Kentucky State University in 1975, he purchased a fixer upper in need of a roof, a paint job, city water, and central heating that became known to his friends as Taylor's Folly. The historic Giltner Holt House, which was built in 1859 and sits close by the Elkhorn Creek, a few miles outside of Frankfort, became the poet's entrance into the area's history and culture, and the Elkhorn became a source of inspiration for his writing. Driven by topophilia, love of place, Taylor focuses on the eight mile stretch of the creek from the Forks of the Elkhorn to Knight's Bridge to provide a glimpse into the economic, social, and cultural transformation of Kentucky from wilderness to its current landscape. He explores both the natural history of the region and the formation of the Forks community. Taylor recounts the Elkhorn Valley's inhabitants from the earliest surveyors and settlers to artist Paul Sawyier, who memorably documented the creek in watercolors, oils, and pastels. Interspersed with photographs and illustrations, contemporary and historic, and intermixed with short vignettes about historical figures of the region, *Elkhorn: Evolution of a Kentucky Landscape* delivers a history that is by turns a vibrant and meditative personal response to the creek and its many wonders. Flowing

across four counties in central Kentucky Elkhorn Creek is the second largest tributary of the Kentucky River Known for its beauty and recreational opportunities Elkhorn Creek has become an increasingly popular location for canoeing kayaking and camping and is one of the state s best known streams for smallmouth bass bluegills and crawfish Like Walden Pond for Henry David Thoreau the Elkhorn has been a touchstone for Taylor A beautiful blend of creative storytelling and historical exploration of one of the state s beloved waterways Elkhorn celebrates a gem in the heart of central Kentucky
