Social Dimensions Of Sectarianism Sects And New Religious Movements In Contemporary Society:

The Social Dimensions of Sectarianism Bryan R. Wilson, 1990 This wide ranging collection explores the complex relationships between religious sects and contemporary Western society and examines the controversial social political and religious issues that arise as sects seek to pursue a way of life at variance with that of other people Wilson argues that sects often subject to negative theological and moral judgements can be understood only as social entities and as such require a scientifically neutral and unbiased approach to explore their emergence and persistence He traces the growth and expansion of various movements including the Unification Church the Scientologists Jehovah s Witnesses and the Exclusive Brethren relating them to their social context and indicates the sections of society from which their support is likely to come

is so pervasive in Mexico that if Evangelical converts all remained faithful it could become Mexico's dominant religion by 2006. This projection however is improbable due to high drop out rates. Bowen argues that Evangelical apostasy is rooted in the most basic beliefs and practices of its followers.

Apocalyptic Representations of Jerusalem Maria Leppäkari, 2018-08-14 Jerusalem as a symbolic expression of hope attracts attention and religious adherence in relation to its physical presence. The study identifies traces and examines apocalyptic representations of Jerusalem and illustrates what happens when these become experienced reality. The empirical part of the book shows how these representations become living images in two contemporary groups' activity in Jerusalem. Private and public endtime representations of Jerusalem provide meaningful models for interpreting the religious past, present and future. The interplay of these representations also shapes our present images of Jerusalem.

Sahaja Yoga Judith Coney, 2013-10-18 The first full length examination of Sahaja Yoga, a new religious movement led by Sri Mataji Nirmala Devi which claims up to one hundred thousand members from around the world. This is the first full length examination of Sahaja Yoga, a new religious movement led by Sri Mataji Nirmala Devi which claims up to one hundred thousand members from around the world. The author examines how newcomers adopt new practices and allegiances on becoming full time members and how most develop a radically new awareness of spiritual vibrations as a result of the regular meditation suggested by Sri Mataji. To do so she reflects upon current theories of socialisation in particular building up understandings about new social worlds than has so far been appreciated. This accessible and informative account is of particular value to scholars working in the study of religions and new religious movements and of interest to those working on theories of socialisation. However the book is required reading for anyone who wants to know more about the contemporary religious landscape.

Researching New Religious Movements Elisabeth Arweck, 2006 This cutting edge analysis of American and European new religious movements explores the controversies between religious groups and the majority interests which oppose them. It asks how modern societies can best respond to new religious movements.

Conversion in the Age of Pluralism Giuseppe Giordan, 2009 The theme of conversion constitutes a privileged point to study the framework linking an individual to the sociocultural contexts in which he or she is included. Changes in personal biographies and sociocultural change are interwoven when we speak of conversion. Values, speech, norms, behaviors, beliefs, lifestyles, interests, everything is open to potential debate when an individual converts. Conversion is especially developed here through a connection with the dynamics of pluralism which appears to be the most peculiar cultural characteristic of our era. What does it mean to speak of conversion in a time in which it seems that the presumption of only one true truth no longer exists while instead many different truths live together each with its own judgment criteria?

Jehovah's Witnesses and the Secular World Zoe Knox, 2018-01-29 This book examines the historic tensions between Jehovah's Witnesses and government authorities, civic organisations, established churches and the broader public. Witnesses originated in the 1870s as small, loose knit groups calling themselves Bible Students. Today there are some

eight million Witnesses worldwide all actively engaged in evangelism under the direction of the Watch Tower Society The author analyses issues that have brought them global visibility and even notoriety including political neutrality public ministry blood transfusion and anti ecumenism It also explores anti Witness discourse from media portrayals of the community as marginal and exotic to the anti cult movement Focusing on varied historical ideological and national contexts the book argues that Witnesses have had a defining influence on conceptions of religious tolerance in the modern world

Rhetoric and Redaction in Trito-Isaiah P.A. Smith, 2014-09-03 Rhetoric and Redaction in Trito Isaiah attempts to integrate the insights of rhetorical criticism into a diachronic study of Isaiah 56 66 Whereas previous redaction critical approaches to these chapters have tended to be strongly fissive in their treatment of this material insights from rhetorical and stylistic criticism are used here to emphasize the elements of unity and coherence in longer sections of text and to provide additional criteria by which to delimit and structure sections of this poetry On this basis a number of new proposals will be presented concerning the structure and extent of the poems in Isaiah 56 59 and 65 66 The two concluding chapters building upon the insights from the preceding section develop a whole series of new suggestions concerning the old problems of the authorship and historical background of Isaiah 56 66 *Beshara and Ibn 'Arabi* Suha Taji-Farouki, 2007-11-01 Investigating sufi inspired spirituality in the modern world this multi faceted and interdisciplinary volume focuses on Beshara a spiritual movement that applies the teachings of Ibn Arabi in a non Muslim context It traces the movement s emergence in sixties Britain and analyses its major teachings and practices exploring through this case study the interface between sufism and the New Age and the encounter between Islam and the West Examining from a global perspective the impact of cultural transformations associated with modernization and globalization on religion this timely volume concludes by tracing possible futures of sufi spirituality both in the West and in the Muslim world *Legitimation in the Letter to the Hebrews* Iutisone Salevao, 2002-07-01 This book adopts an inter disciplinary approach to the study of the theology symbolism and argument of Hebrews Employing sociological models the book examines Hebrews in the context of the early Christians construction and maintenance of a social world In that respect the book elaborates the thesis that Hebrews was designed to serve a legitimating function in the realm of social interaction that its theology symbolism and argument were designed to construct and maintain the symbolic universe of the community of the readers It is argued that we cannot properly understand the theology symbolism and argument of Hebrews apart from its first century context **The Origins of John's Gospel** Stanley E. Porter, Hughson T. Ong, 2015-09-29 The essays in The Origins of John s Gospel gathered by Stanley E Porter and Hughson T Ong either survey or discuss in detail various areas and topics in Johannine scholarship especially in the study of John s Gospel These include the authorship and dating sources and traditions of John s Gospel its structure and composition the Johannine community and Johannine anti Judaism and the Son of Man sayings Collectively these essays offer important contributions to various areas and topics of research relating to the origins of John s Gospel Re-crafting Rationalization

Simon Locke, 2016-03-23 *Re-crafting Rationalization* contributes to debates relating to the public understanding of science regarding the conceptualization of the relationship between science and the public. It challenges the prevailing science-centred or top-down framework that currently informs notions of public engagement and knowledge transfer, offering an alternative that remains firmly grounded in the discourse of classical social theory. By proposing an alternative version of rationalization to the standard interpretation of Weber's disenchantment thesis, this book establishes the public understanding of science as a matter of fundamental sociological concern. As such, it redefines this field to emphasize public meanings of science, engaging with a range of topics of major interest to the public and popular meaning of science, including science and religion, science fiction and fantasy, fringe science and media representations of science. Combining rhetorical analysis with ethnomethodology and membership categorization analysis, the book outlines the basis of a new approach to the sociology of knowledge in the light of which Weber's rationalization thesis is radically re-crafted in relation to studies of scientists' discourse, the rhetoric of science, popularization and public usages of science. This re-crafted rationalization is applied in a series of detailed empirical studies of enchanted science, creationism and intelligent design, Scientology and reflexive spirituality, superhero comics and mundane mysteries, Fortean discourse, conspiracy theory and media representations of the scientist in the case of Jack the Ripper. *Re-crafting Rationalization* therefore redresses a significant shortcoming in contemporary social theory which currently overlooks or misrepresents important public meanings of science whilst excluding popular culture from attention. With profound implications for the ways in which we make sense of developments involving science, this book will be of interest not only to sociologists and social theorists but also to those interested in popular culture and subcultures and the history, philosophy and sociology of science.
