Social Relations In The Near East:

Social Relations in the Near East Stuart Carter Dodd, 1946 The Oxford Handbook of Social Relations in the Roman World Michael Peachin, 2011

The study of Roman society and social relations blossomed in the 1970s. By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted. There simply is, however, no overview that takes into account the multifarious progress that has been made in the past thirty odd years. The purpose of this handbook is twofold. On the one hand it synthesizes what has heretofore been accomplished in this field. On the other hand it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed. The book opens with a substantial general introduction that portrays the current state of the field, indicates some avenues for further study, and provides the background necessary for the following chapters. It lays out what is now known about the historical development of Roman society and the essential structures of that community. In a second introductory article, Clifford Ando explains the chronological parameters of the handbook. The main body of the book is divided into the following six sections:

1. Mechanisms of Socialization: primary education, rhetorical education, family, law
2. Mechanisms of Communication and Interaction
3. Communal Contexts for Social Interaction
4. Modes of Interpersonal Relations: friendship, patronage, hospitality, dining, funerals, benefactions, honor
5. Societies Within the Roman Community: collegia, cults, Judaism, Christianity, the army
6. Marginalized Persons: slaves, women, children, prostitutes, actors, and gladiators, bandits

The result is a unique, up-to-date and comprehensive survey of ancient Roman society.

A Companion to Ancient Near Eastern Art
Ann C. Gunter, 2018-09-08

Provides a broad view of the history and current state of scholarship on the art of the ancient Near East. This book covers the aesthetic traditions of Mesopotamia, Iran, Anatolia, and the Levant from Neolithic times to the end of the Achaemenid Persian Empire around 330 BCE. It describes and examines the field from a variety of critical perspectives across approaches and interpretive frameworks, key explanatory concepts, materials, and selected media and formats and zones of interaction. This important work also addresses both traditional and emerging categories of material, intellectual perspectives, and research priorities. The book covers geography and chronology, context and setting, medium and scale, while acknowledging the diversity of regional and cultural traditions and the uneven survival of evidence. Part One of the book considers the methodologies and approaches that the field has drawn on and refined. Part Two addresses terms and concepts critical to understanding the subjects and formal characteristics of the Near Eastern material record, including the intellectual frameworks within which monuments have been approached and interpreted. Part Three surveys the field's most distinctive and characteristic genres, with special reference to Mesopotamian art and architecture. Part Four considers involvement with artistic traditions across a broader reach, examining connections with Egypt, the Aegean, and the Mediterranean. And finally, Part Five addresses intersections with the closely allied discipline of archaeology and the

Anna Muthesius,2006-12-31 This volume complements Anna Muthesius two earlier ground breaking volumes in the field of silk as material culture *Studies in Byzantine and Islamic Silk Weaving* and *Studies in Silk in Byzantium* The publication highlights the fact that similar patterns of selection were at work in the acquisition of silks by secular and ecclesiastical bodies These patterns of selection were governed not only by fashions of the time but by access to international trade routes leading to the Great Silk Road linking the Near East to the Mediterranean The surviving silks prove that Mediterranean Near Eastern silk trade flourished continuously and for centuries prior to the thirteenth century contrary to what has previously widely been assumed It also highlights the crucial role of the Caucasian silk routes in accessing the Great Silk Road in the early period and the contribution of Georgian and Armenian silk weaving after the thirteenth century Above all the book demonstrates how important it is to assess the impact of Near Eastern silk manufacture and distribution in relation to Byzantine and Islamic Mediterranean silk production and trade **The House of the Father As Fact and Symbol**

Darling,2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and

suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism *USC/FAR Consolidated Plan for Foreign Affairs Research* National Security Council (U.S.).
