Social Security as a Human Right Eibe H. Riedel, 2006-11-07 Article 9 of the International Covenant on Economic Social and Cultural Rights on the right to social security is the shortest article in the entire Covenant and for that reason alone highly abstract and vague A comprehensive analysis of the article 9 is still lacking not least because it is widely regarded as a Pandora's box better not to be opened Experience has shown that the quality of the state reporting procedure is greatly improved once the Committee on Economic Social and Cultural Rights has adopted a General Comment Thus it seems very desirable to close this gap For the reason an International Expert Workshop on the Right to Social Security was held in April 2005 at the German Institute for Human Rights whose purpose was to highlight specific issues of the right to social security which should be addressed by the Committee when drafting a General Comment on article 9 The results of this workshop are published in this volume providing an insight into the current challenges on social security as a human right

Globalization and Welfare Restructuring in China Huisheng Shou, 2016-10-14 In the past few decades the change in China's welfare system has been characterised by a balanced distribution of benefits across social sectors and the institutionalization of welfare redistribution This process has occurred without significant political change that would empower politically disadvantaged groups such as the urban and rural poor This book questions what has motivated the regime to redistribute welfare benefits through an institutionalized manner whilst its political structure remains largely unchanged By situating China within the broader context of East Asia and against the backdrop of globalization since the 1980s this book examines the institutional origin and development of China's new welfare system Through doing this it provides an understanding of the nature of the Chinese state in dealing with its economy and society in a context of global economic integration A global local dynamics framework highlights the importance of the interactive

relationship between China's integration into the world economy and its unique geopolitical constraints which together induce the regime to listen to its subjects and follow a move to the middle in welfare restructuring. Offering a novel explanation of the welfare globalization relations in a non-democratic setting, this book will be of interest to students and scholars of Social Policy, International Political Economy and Chinese Politics.

Social Inequities and Contemporary Struggles for Collective Health in Latin America Emily E. Vasquez, Amaya G. Perez-Brumer, Richard Parker, 2020-09-10. This book explores the legacy of the Latin American Social Medicine and Collective Health (LASM/CH) movements and other key approaches including human rights activism and popular opposition to neoliberal governance that have each distinguished the struggle for collective health in Latin America during the twentieth and now into the twenty-first century. At a time when global health has been pushed to adopt increasingly conservative agendas in the wake of global financial crisis and amidst the rise of radical right populist politics, attention to the legacies of Latin America's epistemological innovations and social movement action are especially warranted. This collection addresses three crosscutting themes: First, how LASM/CH perspectives have taken root as an element of international cooperation and solidarity in the health arena in the region and beyond into the twenty-first century. Second, how LASM/CH perspectives have been incorporated and restyled into major contemporary health system reforms in the region. Third, how elements of the LASM/CH legacy mark contemporary health social movements in the region alongside additional key influences on collective action for health at present. Working at the nexus of activism, policy, and health equity, this multidisciplinary collection offers new perspective on struggles for justice in twenty-first century Latin America. The chapters in this book were originally published as a special issue of the journal *Global Public Health*.

Cuban Studies 18 Carmelo Mesa-Lago, 1988-10-01. Essays in volume 18 include discussions of Cuba's approach to the Latin American debt crisis, its two-century-old race problem and its impact on Cuba's relations with Africa, differences between urban and rural living conditions and development and the recent housing situation in Cuba. Examinations of scholarly research include a survey of major historical works on Cuba over the past twenty-five years and an analysis of how the revolution has affected the scholar's craft and access to manuscripts and archives. The Debate section features comments on discussions in *Cuban Studies* 17 of sex and gender relations in today's Cuba as well as the ongoing issue of Cuba's economic planning and management system.

Mexico Through Russian Eyes, 1806-1940 William Harrison Richardson, 2010-11-23. In this unique book, William Richardson analyzes the descriptions given of Mexico by an assortment of Russian visitors from the employees of the Russian American Company who made their first contacts in the early nineteenth century to the artists, diplomats, and exiles of the twentieth century. He explores the biases they brought with them and the interpretations they relayed back to readers at home. Richardson finds that Russians had a particular empathy for the Mexicans, sharing a perceived similarity in their histories: conquest by a foreign power, a long period of centralized authoritarian rule, an attempt at liberal reform followed by revolution.

Moment of Equality for Latin America? Prof Dr Barbara Fritz,Professor Lena Lavinas,2015-10-28 Unlike other regions around the world several Latin American countries have managed to reduce income inequality over the last decade Higher growth rates and growing employment but also innovative wage policies and social programs have contributed to reducing poverty and narrow income disparities Yet despite this progress nation states in the region demonstrate little capacity to substantially change their patterns of deeply rooted inequalities Focusing on the limits and challenges of redistributive policies in Latin America this volume synthesizes and updates the discussion of inequality in the region introducing the perspective of global and transnational interdependencies The book explores the extent to which redistributive policies have been interlinked with the provision and quality of public goods as well as with structural changes of the productive sector Inspired by structuralist and neostructuralist thinking of Latin American economists such as Raúl Prebisch and Celso Furtado authors question the redistributive impact of the interplay of recent macroeconomic fiscal and social policies particularly under left and center left administrations committed to greater equality Bringing together experts in social fiscal and macroeconomic policies to investigate the interdependent and global character of inequalities this book will appeal to scholars of sociology economics development and politics with interests in Latin America inequality and public policy **The**
