Alternatives to Social Security James Midgley, Michael W. Sherraden, 1997-04-22 Few days pass without front page newspaper articles about the disarray in the American social security system and the oncoming crisis of exploding costs and imbalance between workers and retirees New proposals to address these issues constantly surface from presidential candidates Congress and interest groups Yet few recognize that in the second half of the twentieth century there has been a global expansion of social security systems and there may be lessons to be learned from other societies This collection of essays is designed to examine the diverse approaches developed in Australia Britain Chile Hong Kong Kenya and Singapore By analyzing different approaches and different degrees of success those debating public policy may find alternatives that can be adapted to meet American social needs Midgley and Sherraden have drawn together experts on the systems developed in Australia Britain Chile Hong Kong Kenya and Singapore they explore the different approaches and the different degrees of success these societies have confronted An international perspective can enhance understanding of the problems and offer a sound basis for evaluating policy proposals that may reform the social security system Scholars researchers policymakers and the reading public will find this a stimulating collection As Senator John Breaux notes This book is essential reading for anyone serious about addressing the inevitable problems that will face the U S Social Security system Social Welfare in Global Context James Midgley, 1997-03-26 James Midgley provides a broad overview of social welfare outlining key institutions terminology historical research and approaches He also details reasons for the existence of international social welfare and the challenges that arise from it The author includes an important section on applied international social welfare that addresses the concerns of practitioners concerns that have been neglected in much of the literature in the field An entire section of the book is devoted to issues of social work practice social development the activities of international agencies and their collaborative efforts While practical application is an important focus of the book several chapters deal with key theoretical debates in the field The author also includes descriptive chapters that provide comprehensive accounts of world social conditions and social welfare institutions As a textbook on international social welfare *Social Welfare in Global Context* is primarily intended for students and practitioners of social work social administration and social policy But it is also relevant for students of sociology public policy and economics *Social Security for the Excluded Majority* Wouter van Ginneken, 1999 The large majority of workers in developing countries are excluded from social security protection *Social Security for the Excluded Majority* examines this problem in Benin China El Salvador India and the United Republic of

Tanzania This book pleads for a participatory approach to the extension of social security and explores ways in which governments and organizations can come together to create practical workable policies to bring social security protection to all Through a series of detailed case studies compiled by an international array of policy experts this book looks closely at the workings of self financed schemes for informal workers that emerged in the 1990s and highlights the schemes that have been most beneficial It focuses on how NGOs cooperatives and other social organizations have been able to develop institutions and policies more in line with the requirements and contributory capacity of the informal sector The authors evaluate various approaches to the extension of formal sector social insurance to informal sector workers including the self employed In addition they explore how social assistance programs although often requiring sophisticated administration can help ensure that benefits reach the population most in need such as children the disabled and the elderly

Building Social Security
Xenia Scheil-Adlung, 2017-11-30 In recent years in both the specialist press and the tabloids the idea of privatization of social security has become a shimmering catch phrase Politicians base election campaigns on promises of more or less privatization in social security Many governments introduce private business management methods into their social security systems Representatives of social security institutions and academics prepare theory papers on the possible outcomes of privatization And international financial organizations describe doomsday scenarios based on the premise of failure to privatize What is the role of privatization today in the development of national social security systems How does privatization concern the developments in different social security programs such as old age sickness unemployment accident insurance and family allowances What are the visions and effects of privatization in social security This volume provides an overview of the various positions of supporters and opponents of privatization in the main branches of social security followed by national experience of privatized or part privatized social security systems While the perspective of each of the contributors is markedly different the overall objective cuts across differences namely to develop the most efficient and cost effective system of social security protection The authors views and knowledge are derived from their firsthand experiences with social security in Africa Asia the Americas and Europe Representatives of the leading international organizations dealing with social security issues the International Labour Organization the OECD the World Bank and the World Health Organization further expand the parameters of the viewpoints and experiences expressed This multifaceted book allows the reader to learn about the challenge of privatization in the various forms of social security by assembling a set of highly up to date technically complex and legal issues based on practical analysis and actual experience It will be of interest to those concerned with national social policy in a comparative context This is the sixth volume in an ongoing series that aims to review social security in a comparative global context Xenia Scheil Adlung is program manager International Social Security Association Geneva Switzerland

Social Security Between Past and Future Franz von Benda-Beckmann, Keebet von Benda-Beckmann, 2007 Social security is a particularly precarious issue where states hardly provide any services in periods of need and distress This

book analyses the arrangements relationships through which food shelter and care are provided on the island of Ambon famous spice island in Eastern Indonesia It also shows how relations of support tie Ambonese migrants in the Netherlands to their home villages and how normative conceptions of need and care among kinsmen and villagers change over time Though special in their own historical setting Ambonese networks of care and support are illustrative of poor rural populations in the Third World Focusing on the precursors of the violent conflict that erupted in 1998 the book shows that social security is like a magnifying glass linking past present and future

Poverty, Income and Social Protection Richard Hoefer,James Midgley,2013-10-31 This book provides insights into the way social protection policy is being redefined as a result of the new commitment by governments around the world to use these programs to reduce poverty The case studies presented show how innovations in social protection have emerged in different countries They also discuss various aspects of social protection that will be of interest to readers While some of the case studies are primarily descriptive and seek to document recent trends in different countries they also address important social policy issues Others are particularly topical because they provide useful updates on recent social protection innovations Countries discussed include Brazil Britain Chile China Indonesia South Africa and the United States This book was originally published as a special issue of the Journal of Policy Practice

Social Protection in Southern Africa Leila Patel,2017-07-05 A new generation of innovative social protection strategies is emerging in southern Africa Although cash transfers are most prevalent some country strategies include combinations of interventions such as food livelihood inputs and support asset building public works and social services The strategies vary in their commitment to social rights their institutional and funding arrangements the reach scope and design of the programmes and the behavioural conditions attached to grant access The proliferation of national social protection in the Global South has been widely supported by governments international agencies and non governmental organisations NGOs This book offers researchers and policymakers much to think about when considering the rapid growth of social protection in southern Africa the challenges this presents and the opportunities it offers for social development and economic growth Hence the book is a contribution to scholarship and policy debate on how to solve intractable social development problems in Africa and elsewhere This book was originally published as a special issue of Development Southern Africa

Social Security Challenges in Tanzania Rwegoshora, Hossea M. M.,2016-04-30 Social security is a basic human right and a fundamental means for creating social cohesion it is important not only for the well being of workers but also for their families and other community members at large An indispensable part of government social policy social security is an important tool to alleviate poverty and if well managed can enhance productivity by providing income security and social services Through a growing economy and active labour market policies social security serves as an instrument for sustainable social and economic development Whereas social security is a cost for formal organizations it is also a future investment for the well being of the people With globalization and structural adjustment policies social security becomes

more necessary today than ever Social Security Challenges in Tanzania Transforming the Present Protecting the Future includes a comprehensive overview of social security perspectives at both the international and regional level The text focuses specifically on Tanzania analyzing in detail the policy and legal frameworks for social security provision Engaging and authoritative it is an essential text for those interested in the evolution current challenges and opportunities in addressing the needs of Tanzanians through social security provisions

Transnational Agency and Migration Stefan Köngeter, Wendy Smith, 2015-07-16 Migrants both spatially and mentally no longer settle in only one national territory but interact or move across borders regularly profoundly challenging the nation state and the image of society as a container This volume explores the ways in which migrants activists and professionals connect social worlds across national boundaries through a variety of social practices The contributions from various disciplines anthropology economics political and social sciences educational studies and social work illuminate the meaning of agency in situations where the capabilities of transnational actors are constrained by nation states their borders and social institutions Based on a relational understanding of transnational agency which builds upon new insights and developments within transnational studies and network theory this compilation of chapters presents transnational processes and developments in and across various regions of the globe in East Asia the Americas the EU Southeast Asia Africa and Australia in the borderlands of Mexico and the US in the transatlantic space of the 19th century fin de siècle world in order to demonstrate the importance of gaining assisting and expanding agency in transnational contexts

Grassroots Social Security in Asia James Midgley, Mitsuhiko Hosaka, 2011-03-17 Grassroots Social Security in Asia investigates the role of mutual associations in providing income protection to low income people in Asia and in particular the region s developing countries Historically these associations have consisted of small groups of people with common interests who save regularly to support maintain and supplement their incomes Members make regular contributions to a communal fund which is used to provide income protection when they experience financial hardship This book is the first to comprehensively document the activities of mutual associations and their microinsurance programs in Asia where these programs are especially well developed It provides a number of important case studies that provide detailed information about mutual associations in different parts of the region covering South Asia Sri Lanka Thailand Mongolia Indonesia and the Philippines The case studies offer important insights into the potential of mutual associations to offer effective income protection and how their activities can contribute to the formulation of comprehensive and effective grassroots social security strategies in the developing world that make a tangible contribution to the goal of poverty eradication and the improvement of standards of living This book will be of interest to policy makers academics and students in the fields of Asian studies Social security studies and development studies

Advanced Introduction to Social Protection Midgley, James, 2022-03-08 Written by James Midgley a leading authority on international social policy and social development this Advanced Introduction offers a concise readable and wide ranging

overview of how protection schemes such as social assistance social insurance employer mandates and social allowances promote social welfare by meeting peoples income needs and improving their living standards It defines the field traces its historical evolution discusses the contribution of theories and ideologies and examines its impact on poverty *Economic Exclusion and Discrimination: The Experiences of Minorities and Indigenous Peoples* Patricia Justino,Julie

Litchfield,2003-08-08 This issues paper aims to evaluate the link between economic exclusion and discrimination against ethnic religious and linguistic minorities and indigenous peoples Non discrimination is one of the most fundamental human rights recognized in international law and most national constitutions yet discrimination against minorities persists This implies huge costs for individuals and communities that are discriminated against and society in general Although as the authors of this paper point out there are difficulties over definitions and data limitations there is evidence to show that across diverse regions minorities and indigenous peoples experience higher levels of poverty less access to education health care and basic services and have fewer employment opportunities than the general population Hence minorities and indigenous peoples are more likely to suffer economic and social and political exclusion than other groups Development actors do not well understand the relationship between discrimination and poverty This paper argues that discrimination is an important element in economic exclusion and must be addressed to establish sustainable development **Handbook on Social**

Protection and Social Development in the Global South Leila Patel,Sophie Plagerson,Isaac Chinyoka,2023-09-06 This cutting edge Handbook argues for social protection to be situated in a wider system of social welfare and development programmes for low and middle income countries Focusing on the role of citizens and communities in enhancing human development it explores how welfare systems are unfolding in diverse contexts across the global South **The Welfare**

State Paul Spicker,2000-06-02 A major original work of social theory this book presents a distinctive and tightly argued theoretical model for understanding the basis of welfare in society The author develops a theory of welfare based on a series of basic propositions that people live in society and have obligations to each other that welfare is obtained and maintained through social action and that the welfare state is a means of promoting and maintaining welfare in society Each of these propositions is examined and developed to suggest a clear way of understanding the foundations of social welfare The book make a lively and informative contribution to debates in social policy as well as moral philosophy political theory and social theory **Developing the Right to Social Security - A Gender Perspective** Beth Goldblatt,2016-06-10 The right to

social security found in international law and in the constitutions of many nations contributes to the alleviation of poverty globally Social security and its articulation as a human right have received increased attention in recent years both in response to austerity cuts to welfare in developed countries and as a means of lifting millions out of poverty in developing countries Women disproportionately affected by poverty in all parts of the world stand to gain from a right to social security that takes cognisance of gender discrimination and disadvantage This book interprets and redefines the right to social

security from a gender perspective Drawing on feminist theory the book formulates a conceptual approach and a set of principles for a substantively equal gendered right to social security In so doing it challenges the relationship between the right to social security and traditional conceptions of work that exclude women s labour including their caring roles It argues that the right must have application at the transnational level if it is to address the changing nature of women s work due to globalisation The book applies the framework and principles it develops to a study of international law focusing on the work of key United Nations human rights bodies It also demonstrates the value of this framework in its analysis of three countries social security programmes South Africa Australia and India In combining feminist thought on the nature of work and care with equality theories in developing the right to social security from a gender perspective this book expands the capacity of the right to advance gender equality and address gendered poverty Middle Classes in Africa Lena Kroeker,David O'Kane,Tabea Scharrer,2018-02-19 This volume challenges the concept of the new African middle class with new theoretical and empirical insights into the changing lives in Sub Saharan Africa Diverse middle classes are on the rise but models of class based on experiences from other regions of the world cannot be easily transferred to the African continent Empirical contributions drawn from a diverse range of contexts address both African histories of class formation and the political roles of the continent s middle classes and also examine the important interdependencies that cut across inter generational urban rural and class divides This thought provoking book argues emphatically for a revision of common notions of the middle class and for the inclusion of insights from the South into the global debate on class Middle Classes in Africa will be of interest to students and scholars across a range of disciplines as well as NGOs and policy makers with an interest in African societies

Dramatic Global Population Growth Embraces the Growing Older Population Edward A McKinney,2018-11-16 The world is witnessing a dramatic demographic population growth explosion across all age groups that had its beginning around the early 1800s when the first billion people in population was recorded Most importantly has been an increasing growth in the older population Does population aging matter in the twenty first century Yes it matters because as research has pointed out the increasing older population globally will have a significant impact on all essential societal systems the family pensions and retirement and financial institutions as well as medical health and social systems This growth explosion or phenomenon will affect all continents countries and regions regardless of economic political and military power Causative factors for this global growth in population have come about primarily as a result of medical advances innovations agricultural development and the industrial revolution especially the development of railways seaways and highways A major emphasis of the book focuses on several very important factors the growing older population as aforementioned especially its impact on all of essential societal systems and the subject of ageism Ageism becomes extremely important considering that the growing older population the silver tsunami represents the new majority This new majority will no longer be ignored Gerontologists for years have attempted to call attention to the fact Expectations for old people are based on negative age stereotypes Members

of American society generally expect and even encourage the aged to be asexual intellectually rigid unproductive ineffective and disengaged Seniors are supposed to stay out of the way sit in their rocking chairs and enjoy the golden years They are expected to be inactive invisible but happy Levin J and Levin W Ageism Prejudice and Discrimination Against the Elderly California Wadsworth Publishing 1941 pp 97 98 Speaking of being ignored why aren't more members of the older population involved at the decision making tables in shaping a society for all ages After all they would bring years of experiences skills knowledge and values for creating a society for all ages in the twenty first century with justice and human rights for all Currently there is a global movement with a goal of the eradication of ageism in all of its forms Some will recall from several decades ago the Grey Panther Movement in America with a similar mission of the eradication of all injustices at the time being experienced by the older population The current movement says The time is now not later One major social injustice being experienced by the growing old population globally is the lack of income security in old age including the lack of access to other essential services such as medical health and social including long term care More than 50 percent 51 percent of older persons globally do not have basic income security or a social pension in retirement A more alarming statistic is that in Sub Saharan Africa forty seven countries eight two percent 82.5 of retirees do not have a social pension Yes for the older population the new majority the time is now for correcting the aforementioned injustices Maybe what is needed is a human seismic force comprising the new majority to initiate a social movement with a goal of the eradication of all forms of ageism and ensuring that the growing older population will live in dignity and respect in later life including social protection pensions

Indigenous Social Security Systems in Southern and West Africa Ndangwa Noyoo, Emmanuel Boon, 2018-08-14 The desire exists within Governments to provide for those who are on the fringes of society Therefore indigenous approaches seem relevant in the redistribution of resources among citizens This book is therefore not only essential but also timely Indigenous Social Security Systems in Southern and West Africa ISSS contributes to human service literature for Africa Southern Africa and West Africa in particular The richness of the book lies within the variety of contributions that encourage its origin The book's value is extensive and captures many essential and current topics that have an appeal to academicians policy makers analysts and practitioners in the field of social welfare and social security Ultimately the book serves as a pragmatic and expedient tool for human service practitioners and any enthusiast of social security systems

Redefining Diversity and Dynamics of Natural Resources Management in Asia, Volume 1 Ganesh Shivakoti, Ujjwal Pradhan, Helmi Helmi, 2016-09-01 Redefining Diversity and Dynamics of Natural Resources Management in Asia Volumes 1-4 brings together scientific research and policy issues across various topographical areas in Asia to provide a comprehensive overview of the issues facing the region Sustainable Natural Resources Management in Dynamic Southeast Asia Volume 1 pulls together regional experts in the field to look specifically at sustainability issues across the region to see what has been implemented what the impacts have been and what other options are available In the

race to be a developed region many Southeast Asian countries have foregone natural resources through haphazard use As a result the people are faced with numerous environmental challenges particularly deforestation and forest degradation biodiversity loss and ecosystem degradation reduction in soil quality and decreases in the quantity of available water Community based forest management is the involvement of local communities in the protection conservation and management of public forests to prevent degradation through sustainable practices while still responding to the basic social and economic needs of local populations When the people who depend on forest resources for their livelihoods are jointly responsible for managing and protecting them they tend to do so in a more sustainable manner by focusing on the long term benefits rather than the immediate short term gains However when tenure rights are weak unclear or insecure or offer limited benefits people are incited in extracting more immediate benefits resulting in suboptimal forest management and the reduction of carbon stocks Features case studies that cover issues such as rising levels of deforestation forest degradation regional food security ecosystem degradation biodiversity loss conflicts over natural resource use water management issues and impacts on local communities Includes contributions from local researchers who are dealing with these issues first hand and on a daily basis Includes a comparative review on REDD implementation in different communities Focuses on sustainability issues across the region
