Social Expenditure 1960-1990 Problems Of Growth And Control:

Aging and Social Expenditure in the Major Industrial Countries, 1980-2025 Ziba Farhadian, Mr. Bernard Nivollet, Mr. Robert Alan Feldman, Mr. Peter S. Heller, Mr. Richard Hemming, Mr. Menachem Katz, Ahsan S. Mansur, Mr. Donogh McDonald, Mr. Edgardo Ruggiero, Mr. Peter Kohnert, 1986-09-15 Most of the seven major industrial countries are now experiencing significant changes in their demographic structure A persistent pattern of declining fertility and improving life expectancy has created major segments of the population that are already relatively aged or will become so in the near future This paper examines the impact of prospective demographic trends on the level and structure of social expenditure by the governments of the seven major industrial countries the Group of Seven through the year 2025 The Control and Management of Government Expenditure OECD, 2009-05-18 Public expenditure control has become a central element of economic policy in many countries This report analyses budget practices and some recent innovations from the point of view of senior public servants in the central budget offices of **Social Expenditure, 1960-1990** Organisation for Economic Co-operation and Development, 1985 **In Defense of Public Debt** Barry J. Eichengreen, Asmaa El-Ganainy, Rui Esteves, Kris James Mitchener, 2021 Debt in service of the state States and the limits of borrowing Democratization and globalization Caveat emptor Managing problem debts Successful consolidation Warfare to welfare Cycles of debt Oil and water Missed opportunities Debt to the rescue COVID 19 The Future of the Welfare State Francis G. Schmidt, 2019-05-01 To celebrate the 270th anniversary of the De Gruyter publishing house the company is providing permanent open access to 270 selected treasures from the De Gruyter Book Archive Titles will be made available to anyone anywhere at any time that might be interested The DGBA project seeks to digitize the entire backlist of titles published since 1749 to ensure that future generations have digital access to the high quality primary sources that De Gruyter has published over the centuries **Managing Mixed Economies** Rudolf Wildenmann, 1986 No detailed description available for Managing Mixed Economies **Globalization and Egalitarian Redistribution** Pranab Bardhan, Samuel Bowles, Michael Wallerstein, 2020-10-06 Can the welfare state survive in an economically integrated world Many have argued that globalization has undermined national policies to raise the living standards and enhance the economic opportunities of the poor This book by sixteen of the world's leading authorities in international economics and the welfare state suggests a surprisingly different set of consequences Globalization does not preclude social insurance and egalitarian redistribution but it does change the mix of policies that can accomplish these ends Globalization and Egalitarian Redistribution demonstrates that the free flow of goods capital and labor has increased the inequality or volatility of labor

earnings in advanced industrial societies while constraining governments ability to tax the winners from globalization to compensate workers for their loss This flow has meanwhile created opportunities for enhancing the welfare of the less well off in poor and middle income countries Comprising eleven essays framed by the editors introduction and conclusion this book represents the first systematic look at how globalization affects policies aimed at reducing inequalities The contributors are Keith Banting Pranab Bardhan Carles Boix Samuel Bowles Minsik Choi Richard Johnston Covadonga Meseguer Yebra Karl Ove Moene Layna Mosley Claus Offe Ugo Pagano Adam Przeworski Kenneth Scheve Matthew J Slaughter Stuart Soroka and Michael Wallerstein *The Future of Social Welfare Systems in Canada and the United Kingdom* Institute for Research on Public Policy,1987 Informed observers and policy makers are well aware that in recent years social welfare systems on both sides of the Atlantic have been subject to growing scrutiny debate and controversy especially due to high unemployment rates and extreme interest rates experienced during the last recession as well as important demographic changes such as the increase of women into the labour market and the aging population The papers included in the colloquium discuss the situation of social welfare policy in three stages historical developments and forces for change the influence of the political process on social security developments and the nature of policy responses to demographic change

Political Data Handbook Jan-Erik Lane,David McKay,Kenneth Newton,1996-12-26 This fully revised and updated edition of an established reference book provides in one volume the most comprehensive and detailed statistical guide available to the government and politics of the twenty four countries in the OECD There is no lack of statistical data about the OECD countries the nineteen countries of Western Europe together with Canada the United States Japan Australia and New Zealand but much of the material is hard to track down and little is available in comparative form The editors of the present volume have sifted through many hundreds of sources to select the essential facts and figures on population social structure employment the economy public finance government structures and political parties from 1950 to the present day In addition they provide social and economic background for each of the countries covered to enable the data to be put in context A short final section lists sources of further information The resulting combination is both invaluable and fascinating whether it is used casually to check up a fact or two or systematically to make detailed comparisons between the most advanced political systems of the Western world

Decision Costs and Democracy: Trade-offs in Institutional Design Robert A. Bohrer,2017-07-12 This title was first published in 2001 This text addresses the variations in democratic institutional design and seeks to determine not only if these differences matter but also to explain how they matter Using data from established economically well off systems the book shows that not only are there a multitude of ways to construct a democracy but also how a democracy is constructed influences the outcomes produced by that system That is to say institutional differences create distinct incentives for behaviour that in turn influence the type of outcome produced

In Search of National Economic Success Lane Kenworthy,1995-05-02 Recent work in comparative political economy has generated a host of alternative explanations

for variation in national economic performance institutional sclerosis flexible specialization governance relations etc In each case these explanations have trouble accounting for more than a handful of instances In *Search of National Economic Success* uses detailed case studies with statistical analysis to comparatively assess the market liberal belief in free markets limited government and the tradeoff between economic efficiency and social justice Lane Kenworthy argues that the key to economic success lies in combining competition with cooperation Among advanced industrialized nations the countries achieving the best economic performance results over the past three decades have been the most committed to combining competition and cooperation Those faring the worst rely predominantly on atomistic individualistic competition In the end the comparative record strongly supports a focus on cooperation inducing institutions This volume will prove invaluable to scholars and students in comparative politics international political economy and comparative economics This volume presents an alternative explanation of the cross national variation in performance arguing that national economic success lies in combining competition with cooperation *Journal of Economic Literature*
