Socialism Politics And Equality Hierarchy And Change In Eastern Europe And The Ussr:

Socialism, Politics, and Equality Walter D. Connor, 1979-03-02 *Eastern Europe Since 1970* Bulent Gokay, 2015-12-22

From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region Security Implications Of Nationalism In Eastern Europe Jeffrey Simon, Trond Gilberg, 2019-06-26 Suggesting that events in Poland during 1980 1981 represent the tip of an iceberg the contributors examine the rise of nationalism in Eastern Europe and its potential consequences for European security They analyze developing problems and trends in the region including the cooling of relations between the USSR and individual countries in Eastern Europe the continuing economic crisis changing social structures the influence of the intelligentsia and the eroding importance of ideology as a key part of Eastern Europe's political culture The second half of the book focuses on the impact of these shifts on political and military relations between the USSR and Eastern European countries and on the efficient functioning of the Warsaw Pact The Socialist System Janos Kornai, 1992-05-28 This book provides a comprehensive account of the structure conduct and performance of the centrally planned economies of Eastern Europe the USSR Communist China and the Marxist LDCs looking at 26 nations in all The author focuses on reform perhaps the most important issue facing countries such as the USSR Poland Hungary and China Bureaucracy soft budget constraints markets and the nature of the socialist state are the central issues that arise in the course of reforming a socialist economy The first half of the book deals with classical socialism and provides a theoretical summary of the main features of a now closed period of history The second half deals with the processes of reform and concludes that the reform of classical socialist systems is doomed to failure as they are unable to renew themselves internally Central and Eastern Europe, 1944-1993 Tibor Iván Berend, 1996 An ambitious comparative analysis of Eastern Bloc economies during a period of revolutionary change The Politics of Gender Culture under State Socialism Hana Havelková, Libora Oates-Indruchová, 2014-02-03 Though there has been much research on the incomplete emancipation project of state socialism in East and Central Europe very little has been published on how the state and its institutions conceived of gender as a concept This book seeks to understand if and how this conceptualization developed in the second half of the twentieth century and what impact it had on everyday life and on culture This study moves beyond the dichotomous gender

perspectives and towards a nuanced understanding of the diverse discursive negotiations agendas actors and agency involved in state socialist gender practices Including a detailed case study on Czechoslovakia contributors explore these issues in a series of independent but collaboratively developed studies placing their research in the context of other East Central European countries The studies collected in the volume bring to light fresh material and consider it from the combined perspective of current gender theory and internal ideological dynamics of state socialism breaking new ground in gender theory cultural theory and studies of state socialism This book will be of interest to students and scholars of gender studies socialism Cold War politics and Eastern European politics and culture

A History of Eastern Europe Robert Bideleux, Ian Jeffries, 2006-04-10 A History of Eastern Europe Crisis and Change is a wide ranging single volume history of the lands between the lands which have lain between Germany Italy and the Tsarist and Soviet empires Bideleux and Jeffries examine the problems that have bedevilled this troubled region during its imperial past the interwar period under fascism under communism and since 1989 While mainly focusing on the modern era and on the effects of ethnic nationalism fascism and communism the book also offers original striking and revisionist coverage of ancient and medieval times the Hussite Revolution the Renaissance the Reformation and the Counter Reformation the legacies of Byzantium the Ottoman Empire and the Hapsburg Empire the rise and decline of the Polish Lithuanian Commonwealth the impact of the region s powerful Russian and Germanic neighbours rival concepts of Central and Eastern Europe the 1920s land reforms and the 1930s Depression Providing a thematic historical survey and analysis of the formative processes of change which have played the paramount roles in shaping the development of the region A History of Eastern Europe itself will play a paramount role in the studies of European historians

Politics, Paradigms, and Intelligence Failures Ofira Seliktar, 2015-05-20 Washington s failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire s demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary

Problems of Communism, 1982 *Children of Victory* David Ruffley, 2003-02-28 Born after 1940 and finishing higher education between 1965 and 1982 a generation of Russia s best brightest and most privileged came of age in the Brezhnev era Using recently declassified archival material to uncover both personal and professional beliefs this study explores the formative experiences of this group who now hold key positions in all parts of the government and society Comparison of

these official documents with letters petitions and complaints published in the Soviet press provides new insight into the dynamic interaction between the Brezhnev regime and Soviet times Confined by the Brezhnev regime's parameters and stability young Soviet specialists developed an ethos that focused personally upon humanism and individualism and professionally upon dignity and autonomy Censored and manipulated they came to hold a complex system of beliefs frustrations and expectations that stood in stark contrast to many of the ideals of the Soviet Union Ruffley analyzes the ethos of this generation via the prism of domination resistance studies to offer unique insight into a generation largely ignored by conventional historical inquiry

The Road to Socialism Lyubomir Pozharliev, 2023-07-10 The book is the first comprehensive empirical study of transport infrastructure in two socialist countries in the years 1945-1989 In the case study of Yugoslavia the construction of roads was interrelated with building socialist and trans-ethnic identities uniting all federal republics In practice the Brotherhood and Unity Highway was an artery linking the capitals of the most industrialized republics neglecting Kosovo Bosnia and Herzegovina Montenegro and parts of Macedonia In socialist Bulgaria existed a clear ideological link between transport and nation building Bulgarian roads disintegrative function was best seen in the example of the Highway Ring which constructed as an inner circle isolated the border regions and areas inhabited by Bulgarian Muslims and Turks

Power and Privilege Gerhard E. Lenski, 2013-04-01 Power and Privilege seeks to answer the central question of the field of social stratification Who gets what and why Using a dialectical view of the development of thought in the discipline Gerhard Lenski describes the outlines of an emerging synthesis of theories He shows that perspectives as diverse and contradictory as those of Marx Spencer Sumner Veblen Mosca Pareto Sorokin Parsons and Dahrendorf are parts of an evolving and systematic body of theory

Research in Social Stratification and Mobility Kevin T Leicht, 2005-06-04 Research in Social Stratification and Mobility continues its tradition of publishing the best and most innovative research on the changing landscape of social inequality the world over This issue focuses on different dimensions of social closure and their relationship to social inequality processes including the changing role that education plays in sorting people into favorable and unfavorable labor market positions across a global diversity of cultural settings This issue also examines the fluid boundaries of race and ethnicity in contentious political settings relationships between attitudes and collective action and the role that technology and political context plays in promoting economic development and well being These topics and the research methodologies they represent display the vitality of social science research dealing with social stratification and the wide array of methods contexts and policies that directly affect the life chances of most of the world's peoples This issue also marks a continuation of the ties developed between RSSM and the Social Stratification and Mobility section of the International Sociological Association RC 28 This collaboration promises to promote and disseminate social inequality research throughout the world through an established network of distinguished international contributors and commentators

The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century Włodzimierz

Borodziej,Stanislav Holubec,Joachim von Puttkamer,2020-04-21 Challenges of Modernity offers a broad account of the social and economic history of Central and Eastern Europe in the twentieth century and asks critical questions about the structure and experience of modernity in different contexts and periods This volume focuses on central questions such as How did the various aspects of modernity manifest themselves in the region and what were their limits How was the multifaceted transition from a mainly agrarian to an industrial and post industrial society experienced and perceived by historical subjects Did Central and Eastern Europe in fact approximate its dream of modernity in the twentieth century despite all the reversals detours and third way visions Structured chronologically and taking a comparative approach a range of international contributors combine a focus on the overarching problems of the region with a discussion of individual countries and societies offering the reader a comprehensive nuanced survey of the social and economic history of this complex region in the recent past The first in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in the challenges of modernity faced by this dynamic region Captive University John

Connelly,2014-12-01 This comparative history of the higher education systems in Poland East Germany and the Czech lands reveals an unexpected diversity within East European stalinism With information gleaned from archives in each of these places John Connelly offers a valuable case study showing how totalitarian states adapt their policies to the contours of the societies they rule The Communist dictum that universities be purged of bourgeois elements was accomplished most fully in East Germany where more and more students came from worker and peasant backgrounds But the Polish Party kept potentially disloyal professors on the job in the futile hope that they would train a new intelligentsia and Czech stalinists failed to make worker and peasant students a majority at Czech universities Connelly accounts for these differences by exploring the prestalinist heritage of these countries and particularly their experiences in World War II The failure of Polish and Czech leaders to transform their universities became particularly evident during the crises of 1968 and 1989 when university students spearheaded reform movements In East Germany by contrast universities remained true to the state to the end and students were notably absent from the revolution of 1989 Beliefs About Inequality Around the Globe Markus

Hadler,Benjamin Roberts,Jarè Struwig,Jonas Edlund,Arvid Lindh,Albin Neumayr,2025-08-12 This edited volume presents the latest findings from the 5th International Social Survey Programme ISSP Social Inequality module a widely recognized dataset comprising responses from over 30 countries It explores global perspectives on social inequality including topics such as public views on taxation government redistribution personal experiences of inequality and related themes The chapters provide valuable insights into how attitudes toward inequality have evolved since they were first studied comparatively in the late 1980s The chapters in this book demonstrate how international scholars are using these data to shed new light on beliefs about inequality and inspire further research into societal attitudes worldwide The chapters in this book were originally published in the International Journal of Sociology Education, Occupation and Social Origin Fabrizio

Bernardi, Gabriele Ballarino, 2016-04-29 Questioning the assumption that education is the great social equalizer this book takes a comparative approach to the social origin education destination triangle by examining advantage in 14 different countries including case studies from Europe Israel the USA Russia and Japan Contributions from leading experts examine the relation between family background education and occupational achievement over time and across educational levels focusing on the relationship between individuals social origins and their income and occupational outcomes Providing new theoretical insights this book eloquently analyzes a variety of barriers to social mobility Using concepts of compensatory and boosting advantage to explain the intergenerational transmission of social inequality it refutes the notion of contemporary societies as education based and meritocratic showing that in most of the countries studied there is no sign of decreasing intergenerational association despite the expansion of education With its multitude of pertinent case studies Education Occupation and Social Origin will be of interest to academics and students of social policy as well as those interested in social inequalities and their evolution over time It will also be a useful reference for governmental policymakers in the wake of the current economic crisis **The Palgrave Handbook of Mass Dictatorship** Paul Corner, Jie-Hyun Lim, 2016-09-22

This book offers a fresh and original approach to the study of one of the dominant features of the twentieth century Adopting a truly global approach to the realities of modern dictatorship this handbook examines the multiple ways in which dictatorship functions both for the rulers and for the ruled and draws on the expertise of more than twenty five distinguished contributors coming from European American and Asian universities While confronting the immense complexities of repression and popular response under dictatorship the volume also poses a series of wide ranging questions about the political organization of present day mass society *Chinese Urban Life Under Reform* Wenfang Tang, William L. Parish, 2000-01-28

This book examines how urban China is experiencing the shift from a planned to a market economy

The Soviet Union 1917-1991 Martin McCauley, 2014-02-04 A second edition of this famous survey has been eagerly awaited When the first edition appeared Brezhnev was still in power Gorbachev did not make it to the index and the USSR was a superpower Today the Soviet experiment is over and the USSR no longer exists How Why Martin McCauley has reworked and greatly expanded his book to answer these questions and to provide a complete account of the Soviet years Essential reading to an appreciation of recent history and to a better understanding of whatever happens next
