The ^AGreat Wave David Hackett Fischer,1996-11-07 David Hackett Fischer has gained a reputation for making history come alive even stories as familiar as Paul Revere s ride or as complex as the transit of British culture to America Now he has done it again in *The Great Wave* a history of price movements and cultural change from the middle ages to the present Fischer examines price records in many nations and finds our great waves of rising prices in the thirteenth sixteenth eighteenth and twentieth centuries All were marked by price swings of increasing volatility falling real wages a growing gap between rich and poor and an increase in violent crime family disintegration and cultural despair Each long wave reached its climax in a period of political revolution demographic contraction and economic collapse Every crisis was followed by sharp deflation and then by a long era of price equilibrium rising real wages falling returns to capital growing equality and accelerating population growth Aggregate demand increased and another wave began Fischer concludes that we are living in the late stages of the twentieth century price revolution He does not predict what will happen next Rather he ends with an analysis of where we might go from here and what our choices are now *A Miracle Mirrored* C. A. Davids,Jan Lucassen,1995 A 1996 comparative study of the Netherlands from the late sixteenth to the mid nineteenth century

agency revolutionary discourse mentalities ideology and political culture **Agrarian Capitalism and Poor Relief in England, 1500-1860** Larry Patriquin, 2007-10-11 This book examines the evolution of public assistance for the poor in England from the late medieval era to the Industrial Revolution Placing poor relief in the context of the unique class relations of agrarian capitalism it considers how and why relief in England in the early modern period was distinct **Catholicism in a Protestant Kingdom** C.D.A. Leighton, 2016-07-27 Escaping from narrative history this book takes a deep look at the Catholic question in eighteenth century Ireland It asks how people thought about Catholicism Protestantism and their society in order to reassess the content and importance of the religious conflict In doing this Dr Cadoc Leighton provides a study of very wide appeal which offers new and thought provoking ways of looking not only at the eighteenth century but at modern Irish history in general It also places Ireland clearly within the mainstream of European historical developments

Seapower and Naval Warfare, 1650-1830 Dr Richard Harding, Richard Harding, 2002-01-04 From the author of *Amphibious Warfare in the Eighteenth Century* and *The Evolution of the Sailing Navy 1509 1815* this book serves as a single volume survey of war at sea and the expansion of naval power in the 18th century The book is intended for undergraduate courses on 18th century European history and for amateur and professional military historians and for navy colleges and navy and ex navy professionals *Federalism & Enlightenment in Ger* Maiken Umbach, 2000-01-01 Federalism and Enlightenment identifies two connected features of great but underrated importance in German history the strength of devolved federal government inside the Holy Roman Empire and the influence of ideas imported from England Both stood out against the militaristic absolutism and admiration of France associated with Prussia The German Enlightenment has usually been seen as an extension of the French Enlightenment yet the influence of English ideas in agricultural education and constitutional issues had a considerable impact especially at the smaller courts Whig constitutionalism had a strong appeal to and influence on many German princes something that the tradition of historical writing begun by Ranke in which the triumph of centralised government was the dominant theme has tended to obscure Prince Franz of Dessau the champion of the Fuerstenbund the league of German princes opposed to Prussian expansion was influenced by Stowe far more than by Versailles at his palace at Woerlitz While the federal constitution of the Holy Roman Empire was abolished in the aftermath of the Napoleonic Wars the subsequent centralisation of Germany was not as inevitable as it has often been assumed Even today the German government is the most federal in Europe reflecting a long term reality **German History, 1770-1866** James J. Sheehan, 1989 This is a uniquely authoritative study of German history between the mid eighteenth century and the formation of the Bismarckian Reich This is an extensive account of social and cultural as well as political developments and shows that the creation of a Prussian led nation state should not be seen as natural or inevitable **German Thought and International Relations** R. Shilliam, 2009-03-26 A fundamental question for IR is whether the value system of liberalism can be universalized or if in fact the illiberal reality of international politics systematically rules out such a universalisation The

book addresses this issue by focusing on the rise and fall of a specific liberal project supported by influential German intellectuals
