Society's Children Carl Nordstrom, Edgar Z. Friedenberg, Hillary A. Gold, 1985-06 *Society's Children: a Study of Ressentiment in the Secondary School* Carl Nordstrom, Edgar Zodiag Friedenberg, Hilary A. Gold, 1967 *Society's Children* Carl Nordstrom, 1967 *Final Report...educational Specifications for a Comprehensive Elementary Teacher Education Program, University of Toledo, Toledo, Ohio* United States. Education Office, 1968 **OE [publication]** ,

Education-literature of the Profession , 1966 **Problems of a Sociology of Knowledge (Routledge Revivals)** Max Scheler, 2012-11-12 First Published in 1980 Manfred S Frings translation of Problems of a Sociology of Knowledge makes available Max Scheler's important work in sociological theory to the English speaking world The book presents the thinker's views on man's condition in the twentieth century and places it in a broader context of human history This book highlights Scheler as a visionary thinker of great intellectual strength who defied the pessimism that many of his peers could not avoid He comments on the isolated fragmented nature of man's existence in society in the twentieth century but suggests that a World Age of Adjustment is on the brink of existence Scheler argues that the approaching era is a time for the disjointed society of the twentieth century to heal its fractures and a time for different forms of human knowledge to come together in global understanding **Educational Specifications for a Comprehensive Elementary Teacher Education Program** University of Toledo, 1968 *Radical and Marxist Theories of Crime* Paul B. Stretesky, 2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control **The Handbook of Political Behavior** Samuel Long, 2013-11-11 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise

was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them. Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors' expertise and capabilities. Editors report that inevitable delays occur, authors drop out of projects and are replaced, and new topics are introduced. Finally, editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters.

Anomie, Strain and Subcultural Theories of Crime Joanne M. Kaufman, 2017-05-15. Anomie, strain, and subcultural theories are among the leading theories of crime. Anomie theories state that crime results from the failure of society to regulate adequately the behavior of individuals, particularly the efforts of individuals to achieve monetary success. Strain theories focus on the impact of strains or stressors on crime, including the inability to achieve monetary success through legal channels. And subcultural theories argue that some individuals turn to crime because they belong to groups that excuse, justify, or approve of crime. This volume presents the leading selections on each theory, including the original statements of the theories, key efforts to revise the theories, and the latest statements of each theory. The coeditors, Robert Agnew and Joanne Kaufman, are prominent strain theorists, and their introductory essay provides an overview of the theories, discusses the relationship between them, and introduces each of the selections.

Japan's High Schools Thomas P. Rohlen, University of California, Berkeley. Center for Japanese Studies, 1983-08-16. Offering a treatment of schools as moral communities, the author calls for new culturally sensitive definitions of moral and creative goals in children's education. He uses education as the entering wedge for a good understanding of Japanese society in general.

Structure and Agency in Everyday Life Gil Richard Musolf, 2003. *Structure and Agency in Everyday Life* outlines the major concepts of interactionism through its leading theoreticians, from William James to Erving Goffman to contemporary writers. The text underscores the dynamic relationship between the structures or social forces of constraint and humans' ability to act self-reflexively and constitute meaning in their lives through everyday action. The major foci of interactionism—emotions, deviance, childhood, socialization, gender, the negotiated order, and the self—are covered in depth. The text presents a history of the interactionist perspective.

Free and Freedoms: Schools: a National Survey of Alternative Programs Bruce S. Cooper, 1971. *Supervision for Today's Schools* George E. Pawlas, Peter F. Oliva, 2007-06-29. Specifically designed for the introductory course, this text provides an overview of the field of instructional supervision. Acquaints students with not only the authors' views on supervision but with those of other specialists in the field, placing heavy emphasis on practice and the supervisor's responsibilities as an instructional leader. Continues to stress that the relationship between the supervisor and teacher is built on trust and that the overall goal is to improve student achievement through better instruction.

The Failure of the Word Richard H. Weisberg, 1984-01-01. The cruel power of misdirected words artfully structured but spiritually empty and bearing the stamp of law or legalistic

reasoning is a persistent theme in the modern novel Richard Weisberg who has written extensively on both literature and law explores the role of legalism and its abuses in eight major novels of the nineteenth and twentieth centuries Beginning with Dostoevski and moving by way of trenchant analyses of Flaubert and Camus Weisberg culminates his argument in a brilliantly revisionist reading of Melville s Billy Budd In each of the novels treated Weisberg sees a verbally gifted central character relying on wordiness to avoid or distort previously revealed truths He argues that the malaise Nietzsche called ressentiment goads these characters to verbalizations that do violence to others and ironically indict their very creators He identifies the legalistic theme as the major mode of iconoclasm in modern fiction and the source of its holocaustic vision Writers he reflects viewed with profound skepticism their culture s tendency to substitute complex narrative formalism for earlier absolute approaches to justice In this Weisberg concludes their works anticipated the jurisprudential discourse of today *The Failure of the Word* is a creative provocative and learned work written with style and feeling Weisberg brings to bear on his core themes the legalistic proclivity and ressentiment a wide body of knowledge and thought in law and philosophy literary history and theory Robert L Jackson Yale University *Teaching Composition* Gary Tate,1987 **Free and Freedom Schools** United States. President,1971 *The Adolescent Years* William Wolff Wattenberg,1973
