Sociology By Macionis 4th Canadian Edition:

Teaching Gender and Sex in Contemporary America Kristin Haltinner, Ryanne Pilgeram, 2016-04-28 This book provides innovative pedagogy theory and strategies for college and university professors who seek effective methods and materials for teaching about gender and sex to today's students. It provides thoughtful reflections on the new struggles and opportunities instructors face in teaching gender and sex during what has been called the post feminist era. Building off its predecessor *Teaching Race and Anti Racism in Contemporary America* this book offers complementary classroom exercises for teachers that foster active and collaborative learning. Through reflecting on the gendered dimensions of the current political economic and cultural climate as well as presenting novel lesson plans and classroom activities *Teaching Gender and Sex in Contemporary America* is a valuable resource for educators.

Sweet Surrender Dennis Hiebert, 2013-07-09 Every culture has a way of perceiving and practicing marriage. Many contemporary Western Christians mistake what their culture prescribes regarding marriage with what the Bible portrays and thereby take as biblical what is merely cultural. Uncritical conformity to cultural imperatives of marriage then becomes a Christian virtue and a sweet surrender. Few recognize much less question this confusion even when its consequences are unhealthy. In *Sweet Surrender* Dennis Hiebert challenges Christians to comprehend what is cultural in their view of marriage, hold as optional what is not explicitly required by the Bible, and live out their marriages within the transcendent grace of God. Gaining greater awareness can free marriages from the control of culture for something more simply but deeply Christian. Marriages benefit when they are released from cultural directives that are not biblical callings even if they choose to retain them as cultural practices. This book is for Christians who are ready to rethink their assumptions about marriage.

SOCIAL SYSTEMS AND TRANSFORMATION OF SOCIETY Patrick K. Kalifungwa, 2025-03-19 All knowledge including the most basic taken for granted common sense knowledge of everyday reality is derived from and maintained by social interaction In their model people interact on the understanding that their perceptions of everyday life are shared with others and this common knowledge of reality is in turn reinforced by this interaction Social structure can also be said to be the framework upon which a society is established It determines the norms and patterns of relations between the various institutions of the society Social norms are believed to influence social structures through relations between the majority and the minority As those who align with majority are considered normal and those who align with the minority are considered abnormal majority minority relations create a hierarchical stratification within social structures that favors the majority in all aspects of society Social theory by definition is used to make distinctions and generalizations among different types of societies and to analyze

modernity as it has emerged in the past few centuries Social thought provides general theories to explain actions and behavior of society as a whole encompassing sociological political and philosophical ideas Social transformation in this context requires a shift in collective consciousness of a society local state national or global so that reality is refined by consensus This often happens by external stimulus and sometimes intentionally Social transformations are such when they sustain overtime where attitudes and values are held in a completely new context or paradigm based upon different assumptions and beliefs Mindset is an established set of attitudes especially regarded as typical of a particular group social or cultural values the outlook philosophy or values of a person now also more generally frame of mind attitude frecte and disposition A mindset may also arise from a person s world view or philosophy of life Ideas are just thoughts but implementing and acting on these ideas in our own lives is what will make it habitual and allowing a change in mind set
