## **Sociology Reinterpreted:**

Sociology Reinterpreted Peter L. Berger, Hansfried Kellner, 1981 This book restates what the sociological approach to human reality essentially consists of It explores what sociologists do and with what they should do and be Sociology Reinterpreted Peter L. Berger, Hansfried Kellner, 1982 *Qualitative Research Practice* Clive Seale, 2004-02-28 Aimed at the student reader this book demonstrates the benefits of using particular methods from the viewpoint of real life experience It contains chapters written by leading internationally distinguished qualitative researchers who recount and reflect on their own research experiences as well as others **The New Sociology of Knowledge** Michaela Pfadenhauer, 2017-07-28 A classical sociologist can be defined as someone whose works occupied a central position among the sociological ideas and notions of an era Following this criterion Michaela Pfadenhauer demonstrates the relevance of Peter L Berger's work to the sociology of knowledge Pfadenhauer shows that Berger is not only a sociologist of religion but one whose works are characterized by a sociology of knowledge perspective Berger stands out among his fellow social scientists both quantitatively and qualitatively He has written numerous books which have been translated into many languages and a multitude of essays in scholarly journals and popular magazines For decades he has played a role in shaping both public debate and social scientific discourse in America and far beyond As a sociologist of knowledge Berger has played three roles he has been a theoretician of modern life an analyst of modern religiosity and an empiricist of global economic culture In all areas the focus on processes rather than status quo is characteristic of Berger's thinking This book provides an in depth view on the critical thinking of one of the most important sociologists that present times has to offer It includes four written essays by Berger Ethic of Christian Freedom and Discipleship Ronald R. Ray, 2023-03-27 Ethic of Christian Freedom and Discipleship is written for teachers and students of Christian ethics within the English speaking world It demonstrates the basis of Christian ethics in Christian theology Twenty nine years ago before leaving the Nigerian theological college where the author had been teaching *Between Two Worlds* An Ethic of Christian Freedom was privately printed In Kenya at what became St Paul's University the author primarily used copies of this book for eleven years of teaching Christian ethics Ethic of Christian Freedom and Discipleship manifests continuity with the author's earlier book but is a distinctly different work **Contexts for Amos** Mark Daniel Carroll R., 1992-02-01 This learned volume offers a close reading of chapters 3 to 6 of the book of Amos and attempts to locate biblical study and theological reflection within the complex cultural context of Latin America The author prefaces his study with a wide ranging survey of the continuing debate over the proper use of the Bible as a model for the structures of society The author's particular focus is Latin America and through sociological and textual analysis he seeks to define the role of the prophetic biblical voice in this society and presses for a recognition of moral complexities and a constant questioning and self evaluation from those who would claim to speak for God in society *Doing Research on Sensitive Topics* Raymond M. Lee, 1993-03-16 This book is a comprehensive guide to the

methodological ethical and practical issues involved in undertaking research on sensitive topics Raymond M Lee explores the reasons why social research may be politically or socially contentious its relation to issues of social or political power its capacity to encroach on people's lives and its potentially problematic nature for the researcher Issues examined include the choice of methodologies for sensitive research problems of estimating the size of hidden populations questions of sampling surveying and interviewing and sensitivity in access and the handling of data The book also discusses the political and ethical issues at stake in the relations between the researcher and the researched and in the disclosure dissemination and publication of research

**Revelation and Concealment of Christ** Saeed Hamid-Khani, 2021-03-16 The elusive disposition of John's language has been noted by biblical scholars throughout the history of New Testament studies The Fourth Gospel is seen as so simple to grasp and yet often pointing beyond itself and beckoning the reader to read deeper Various socio-linguistic studies have explained this feature as the reflection of the sectarian tendencies in the Johannine Christianity In his study Saeed Hamid Khani questions these approaches as inadequate In turn he examines John's language within an exegetical and theological framework He argues that the *Sitz im Leben* of Johannine language was an environment in which the Hebrew Scriptures were the dominant conceptual force for both the Jews and the Christians In this context he argues that the essential function of John's enigmatic language is wedded to the Evangelist's purpose in writing the Gospel namely a steadfast focus upon setting forth that Jesus is the Christ according to the witness of Israel's Scriptures It is here in these echoes and thematic allusions to the Scriptures that we find the answer to the function and significance of John's unique language i.e. Jesus is the Messiah the Saviour of the world and he is the visible image of the invisible God the embodiment of the self-revelation of God according to the Scriptures However these truths are concealed from the undiscerning and are only revealed by the spirit of God to those who are born of God

**Education and Social Change** Len Barton, Stephen Walker, 2017-04-28 This book first published in 1985 argues that changes in the education system are closely bound up with wider social and political changes It considers items within education such as developments in teacher assessment policy and changes in the control of education policy and external items such as new directions in the management of the economy of class relations and of the political system Throughout the book reflects a mood of growing frustration and anxiety shared by many teachers and educationalists which the book argues stems from a feeling that the education system is not being run as it should be This title will be of interest to students of education and sociology

**Cultural Analysis** Robert Wuthnow, James Davison Hunter, Albert J. Bergesen, Edith Kurzweil, 2013-01-11 First published in 1984 Cultural Analysis is a systematic examination of the theories of culture contained in the writings of four contemporary social theorists Peter L Berger Mary Douglas Michel Foucault and Jürgen Habermas This study of their work clarifies their contributions to the analysis of culture and shows the converging assumptions that the authors believe are laying the foundation for a new approach to the study of culture The focus is specifically on culture a concept that remains subject to ambiguities of treatment and concentrates on

questions concerning the definition and content of culture its construction its relations with social conditions and the manner in which it may be changing The books demonstrates how these writers have made strides towards defining culture as an objective element of social interaction which can be subjected to critical investigation

**Addiction Treatment** Daniel Hood,2017-09-08 Addiction Treatment is an ethnography that compares two types of residential drug free treatment programs religious faith based programs and science based secular programs Although these programs have originated from significantly different ideological bases in examining the day to day operations of each Daniel E Hood concludes that they are far more alike than they are different Drug free treatment today whether in secular or religious form is little more than a remnant of the temperance movement It is a warning to stop using drugs At its best treatment provides practical advice and support for complete abstinence At its worst it demeans users for a form of behavior that is not well understood and threatens death if they do not stop Hood argues that there is no universal agreement on what addiction is and that drug abuse is little more than a catch all term of no specific meaning used to condemn behavior that is socially unacceptable Through extensive participatory observations intimate life history interviews and informal conversations with residents and staff Hood shows how both programs use the same basic techniques of ideological persuasion mutual witnessing methods of social control discourse deprivation and the same proposed zero tolerance abstinent lifestyle Christian living vs Right living as they endeavor to transform clients from addicts to citizens or from sinners to disciples

**The Public Sphere** A. Salvatore,2007-06-25 This book explores conceptual and institutional developments of the notion of the public sphere in the West and in the Islamic world tackling historic ruptures spanning the formation and transformation of the Euro Mediterranean world Set against an imploding grammar of socio political life the modern liberal public sphere appears in a new light

**Environmental Politics In France** Brendan Prendiville,2019-03-07 This book analyzes the history and growth of the French environmental movement from its origins in the back to the earth wave of the early 1970s to its current influence on every political party from the Trotskyist left to the extreme right of the National Front

**How Can We Solve Our Social Problems?** James A. Crone,2015-10-29 Many of today s social problems poverty crime racism sexism drug abuse unequal access to quality health care or education threats to the environment over population can seem intractable James A Crone s How Can We Solve Our Social Problems Third Edition is designed to give students studying these types of social problems a sense of hope Unlike the standard survey texts that focus heavily on the causes and consequences of problems this book is devoted to analyzing possible solutions It maintains a sense of sociological objectivity throughout and without moralizing describes what could be done in America and on a global scale through government policies private sector initiatives and the collective actions of

citizens to address even our most pervasive social problems      **Redemption and Recovery** Daniel Hood,2017-07-05 This ethnography continues the thick description of faith based and science based drug programs begun in Addiction Treatment Using extensive interviews and his own participation in daily rounds of treatment Hood provides a vivid comparison of resident experience at each type of institution Redemption and Recovery tells the stories of two houses in the Bronx NY that serve people with drug problems Redemption House and Recovery House These stories include the direct accounts of residents druggin lives before treatment and their search for normalcy after recovery or redemption Other chapters dissect the religion of science based treatment and compare success rates religious vs secular Addiction Treatment had detailed a similar process of personal conversion central to both treatments This sequel uses the contextualized demographics of residents to uncover profound parallels between the two unique programs and debunk their shared ideology of abstinence

The Sociological Perspective Michael Leming,Raymond De Vries,Brendan Furnish,2009-10-10 Sociology and Christianity Attempting to bring sociology and Christianity together is like trying to mix oil and water Christians seem to have as little regard for sociology as sociologists generally have for Christianity However in the middle of this conflict there is a group bold enough to call themselves Christian sociologists they are not willing to be stereotyped but are seriously committed to both realms This collection of essays covers topics that are typically addressed in introductory sociology courses Written from a Christian point of view these essays are also geared for a wide range of readers from undergraduates to professional sociologists who bring faith commitments to the sociological task The editors goal is to provide an understanding of societal forces that is informed by a Christian conscience Toward that end certain recurring themes are found in this book the need for informed Christian social action the conflict between the individual and the community the conflict between freedom and determinism and the significance of social sin      *Doing Qualitative Research in Education Settings, Second Edition* J.
