Sociology Today Problems And Prospects:

Sociology Today American Sociological Association, 1959 The scope of this volume is loosely defined by its subtitle Problems and Prospects It does not aim to describe the current state of sociological knowledge the authors of this book sort out and critically examine problems for investigation that developments in the major branches of sociology have thrust into prominence They deal for the most part with strategic problems with those that must be solved before it becomes possible to work to good effect on other sociological problems in the offing In considering these problems the authors found it necessary of course to review some of what is known in one or another division of sociology The collection of papers thus summarizes much of contemporary sociology although that is not its principal intent The papers are devoted to the problematics of the major divisions of sociology to a methodical statement of what each author takes to be the significant theoretical empirical or procedural problems in his field that require and in part are receiving systematic study **Sociology Today** Robert King

Sociology Today Robert K. Merton, Leonard Broom, Leonard S. Cottrell, 1965 **Sociology today : problems and prospects. 1 (1965)** Robert King Merton, 1965 *Sociology Today. Problems and Prospects. (Edited by R.K. Merton, Leonard Broom, Leonard S. Cottrell, Jr.).* Robert King Merton, Leonard Broom, Leonard Slater Cottrell, 1964 Sociology Today. Problems and Prospects. Edited by R.K. Merton, Leonard Broom, Leonard S. Cottrell, Etc. (Sixth Printing.). Robert King Merton, Leonard Broom, Leonard Slater Cottrell, 1961 **Sociology Today** Robert K. Merton, Leonard Broom, Leonard S. Cottrell, 1965 *Sociology Today ; Problems and Prospects. Edited* American Sociological Association, 1965 **The Legacy of Anomie Theory** Freda Adler, William S. Laufer, 2020-03-06 This sixth volume of *Advances in Criminological Theory* is testimony to a resurgent interest in anomie strain theory which began in the mid 1980s and continues unabated Contributors focus on the new body of empirical research and theorizing that has been added to the anomie tradition that extends from Durkheim to Merton The first section is a major 75 page statement by Robert K Merton examining the development of the anomie and opportunity structure paradigm and its significance to criminology The *Legacy of Anomie Theory* assesses the theory's continuing usefulness explains the relevance of Merton's concept of goals means disparity as a psychological mechanism in the explanation of delinquency and compares strain theory with social control theory A macrosociological theoretical formulation is used to explain the association between societal development and crime rates In other chapters anomie is used to explain white collar crime and to explore the symbiotic relationship between Chinese gangs and adult criminal organizations within the cultural economic and political context of the American Chinese community

Social Theory and the Family (RLE Social Theory) D.H.J. Morgan, 2014-08-07 An experienced teacher of courses on the sociology of the family D H J Morgan frequently encounters a gulf between the family as it is often treated in sociological texts and the family as it is usually experienced In this book he provides an extremely valuable bridge between the two by presenting an encounter between some of the mainstream theoretical approaches and concerns in the sociology of the family and what he terms as critical perspectives on the family This is the first British book on a basic social institution that takes into account the literature outside the mainstream of sociological analysis that deals with the subject The first half examines the varieties of functional theorizing embedded in many texts the over concern with the question of kinship in modern society

and the treatment of the family as a success story In the second half Dr Morgan presents a critical account of some of the counter theories those derived from the radical feminist movement the existential psycho analytical approach associated with Laing and the critical analyses of sex in an advanced capitalist society A final chapter suggests some themes and orientations derived from this encounter of theoretical approaches and modern perspectives which can be usefully developed

Kazimierz Opalek Selected Papers in Legal Philosophy Jan Wolenski, 2013-06-29 Philosophical aspects of law and jurisprudence are investigated from various points of view This collection represents the analytic approach to legal philosophy However this approach is not extreme in the sense that it is limited exclusively to linguistic matters The concept of norm as a directive of conduct is the central category analyzed in particular essays The structure of directives as well as their semantic and pragmatic roles are studied Pragmatic functions of directives are linked with their functioning as speech acts Moreover existence and validity of norms are analyzed The author also touches on general methodological problems of legal theory and philosophy particularly their relations to social sciences The collection covers material interesting for philosophers lawyers and social scientists Female Students and Cultures of Violence in Cities Julia Hall, 2015-06-12 As the economy constricts it seems living with a chronic sense of fear and anxiety is the new normal for a growing number of urban females Many females are susceptible to victimization by cumulative strands of violence in school their communities families and partnerships Exposure to violence has been shown to contribute to physical and mental health problems a propensity for substance abuse transience and homelessness and unsurprisingly poor school attendance and performance What does a girl do when there is no place to get away from this and even school is a danger zone Why have so many educators turned their attention away from the reality of violence against girls Why is there a tendency to categorize such violence as just another example of the general concept of bullying Critical educators who research the effects of current market logics on the schooling of marginalized youth have yet fully to focus on this issue This volume puts the reality of violence in the lives of urban school girls back on the map investigates answers to the above questions and presents suggestions for change **The**

Great Arizona Orphan Abduction Linda Gordon, 2011-02-09 In 1904 New York nuns brought forty Irish orphans to a remote Arizona mining camp to be placed with Catholic families The Catholic families were Mexican as was the majority of the population Soon the town's Anglos furious at this interracial transgression formed a vigilante squad that kidnapped the children and nearly lynched the nuns and the local priest The Catholic Church sued to get its wards back but all the courts including the U S Supreme Court ruled in favor of the vigilantes The Great Arizona Orphan Abduction tells this disturbing and dramatic tale to illuminate the creation of racial boundaries along the Mexican border Clifton Morenci Arizona was a wild West boomtown where the mines and smelters pulled in thousands of Mexican immigrant workers Racial walls hardened as the mines became big business and whiteness became a marker of superiority These already volatile race and class relations produced passions that erupted in the orphan incident To the Anglos of Clifton Morenci placing a white child with a

Mexican family was tantamount to child abuse and they saw their kidnapping as a rescue. Women initiated both sides of this confrontation. Mexican women agreed to take in these orphans both serving their church and asserting a maternal prerogative. Anglo women believed they had to save the orphans and they organized a vigilante squad to do it. In retelling this nearly forgotten piece of American history, Linda Gordon brilliantly recreates and dissects the tangled intersection of family and racial values in a gripping story that resonates with today's conflicts over the best interests of the child. **Global**

Justice and the Bulwarks of Localism: Human Rights in Context Christopher Eisgruber, 2005-09-01. The rise of international human rights during the last half of the twentieth century has transformed traditional notions of sovereignty. No longer is international law concerned almost exclusively with external relations among states and their representatives. Now it imposes substantial restrictions on the domestic affairs of states and protects ordinary persons against mistreatment by their own government. The change came about in response to the Holocaust and the century's other great tragedies. Few doubt its value. Nevertheless, power exercised in the name of human rights can be misused or abused. As human rights institutions matured and as international organizations intervened more vigorously on a global scale, human rights advocates and their critics worried about whether quests to vindicate supposedly universal human rights might sometimes impose western first world norms on cultures that did not want them. In this volume, internationally noted scholars collaborate to address issues about human rights and local culture from philosophical, legal, anthropological, and sociological perspectives. Their essays focus on topics including self-determination, religion, truth reconciliation commissions, and sexual mores.

Social Science Research and Decision-making Carol H. Weiss, Michael J. Bucuvalas, 1980. **Ethos, Bioethics, and Sexual Ethics in Work and Reception of the Anatomist Niels Stensen (1638-1686)** Frank Sobiech, 2016-06-25. This book offers a unique and comprehensive outline of the ethos, the bioethics, and the sexual ethics of the renowned anatomist and founder of modern geology, Niels Stensen (1638-1686). It tells the story of a student who is forced to defend himself against his professor who tries to plagiarize his first discovery, the Ductus Stenonis, the first performance test for the young researcher. The focal points are questions of bioethics, especially with regard to human reproduction, sexual ethics, the beginning of life, and the ensoulment of the embryo, together with frontiers of pastoral care. The book delineates Stensen's ethos as well as its medico-ethical and theological implications and reception by researchers and physicians from the 17th century until today and asks about his lasting significance. Despite dating back more than 300 years, Stensen's character and his work offer up surprisingly topical answers to current questions on the nature of professional ethics in medical science and practice. Furthermore, *Ethos, Bioethics, and Sexual Ethics in Work and Reception of the Anatomist Niels Stensen (1638-1686)* is the first academic book on bioethics and sexual ethics with a foreword by the Prefect of the Congregation for the Doctrine of the Faith. A fascinating book for bioethicists, physicians, members of health professions, scientists, and theologians.
