and amplify one another feeding social estrangement With neoliberalism psychosocial wounds are agitated and authoritarianism is provoked Yet this new sociality also inspires resistance and political mobilisation Illustrating ideas and trends with examples from news and popular culture the book outlines and applies theories from Debord Foucault Fromm Goffman and Giddens among others Topics covered include the global history of communication technologies personal branding echo chamber effects alienation and fear of abnormality Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before and political differences are widened and inflamed They also provide new opportunities for protest and resistance *Food Fraud Prevention* John W.

wrongdoers show remorse and how they show remorse are matters that attract great interest both in law and in popular culture In capital trials in the United States it can be a question of life or death whether a jury believes that a wrongdoer showed remorse And in wrongdoings that capture the popular imagination public attention focuses not only on the act but on whether the perpetrator feels remorse for what they did But who decides when remorse should be shown or not shown and whether it is genuine or not genuine In contrast to previous academic studies on the subject the primary focus of this work is not on whether the wrongdoer meets these expectations over how and when remorse should be shown but on how the

community reacts when these expectations are met or not met Using examples drawn from Canada the United States and South Africa the author demonstrates that the showing of remorse is a site of negotiation and contention between groups who differ about when it is to be expressed and how it is to be expressed The book illustrates these points by looking at cases about which there was conflict over whether the wrongdoer should show remorse or whether the feelings that were shown were sincere Building on the earlier analysis the author shows that the process of deciding when and how remorse should be expressed contributes to the moral ordering of society as a whole This book will be of interest to those in the fields of sociology law law and society and criminology

Clerical Errors Peter Murnane,2022-08-04 The Catholic church is in serious decline This book claims that the corruption of the institution derives from various clerical errors especially clericalism which assumes that clergy are superior and deserve privileges Clericalism divides the church into two unequal classes betraying the gospel which teaches that all people are equal Clerical privilege makes the sexual abuse of children more likely and has led most bishops to conceal it Clerical Errors begins by examining the trials and acquittal of Cardinal Pell Was it the jury who made a grave error or was it the cardinal Other chapters look at worldwide sexual abuse of children by Catholic clergy and traumatic impacts on survivors What might have caused this tragedy The institutional nature of the church Defective Canon Law Misuse of the sacrament of Confession Compulsory celibacy Homosexuality The book's last hopeful chapter proposes a radical but simple model for restoring the Christian church
