Sodomy The History Of A Christian Biblical Myth Bibleworld:

Sodomy Michael Carden, 2014-12-18 The biblical narrative of Sodom and Gomorrah has served as an archetypal story of divine antipathy towards same sex love and desire Sodomy offers a study of the reception of this story in Christian and Jewish traditions from antiquity to the Reformation The book argues that the homophobic interpretation of Sodom and Gomorrah is a Christian invention which emerged in the first few centuries of the Christian era The Jewish tradition in which Sodom and Gomorrah are associated primarily with inhospitality xenophobia and abuse of the poor presents a very different picture The book will be of interest to students and scholars seeking a fresh perspective on biblical approaches to sexuality *Towards*

Crossley, 2014-12-18 New Testament and Christian origins scholarship have historically been influenced by their political and social context Jesus in an Age of Terror applies the work of critical and media theorists to contemporary Christian origins and New Testament scholarship Part one examines the influence of the mass media on the writing of contemporary biblical scholars whose political views as demonstrated in their biblio blogging are shown to have striking similarity to the media's depiction of the war on terror and conflict in the Middle East Part two argues that the Anglo American cultural misrepresentation of Islam as the great enemy has led New Testament and Christian origins scholarship to collude with intellectual defences of the war in Iraq Part three examines the influence of the media's approach to Palestine and Israel on biblical studies exploring the shift towards widespread support for Israel in contemporary scholarship *The Archaeology of Myth* N. Wyatt, 2017-07-05 Myth as a category is often explicitly denied as being present in the Bible Studies of Israelite religion take a largely historical approach The Archaeology of Myth highlights the importance of mythological categories in discussing any religion and especially Israelite religion The essays explore key biblical narratives and themes Jacob's dream the story of Dinah and Shechem the seventy sons of Athirat the old men of Deuteronomy tracing their development from primitive forms to biblical text The book offers a theoretical analysis of the biblical treatment of myth and its role in the shaping of memories and values **Revenge, Compensation, and Forgiveness in the Ancient World** Thomas Kazen, Rikard Roitto, 2024-03-21 Handling moral infringement is complicated and this was as true in antiquity as it is today Should one retaliate demand compensation be merciful ignore the infringement or forgive Thomas Kazen and Rikard Roitto compare how Greeks Romans Jews and Christians in antiquity navigated different ideas practices and rituals for moral repair

The Ontology of Space in Biblical Hebrew Narrative Luke Gartner-Brereton, 2014-12-18 The central premise of this book is that biblical Hebrew narrative in terms of its structure tends to operate under similar mechanical constraints to those of a stage play wherein space is central characters are fluid and objects within the narrative tend to take on a deep internal significance The smaller episodic narrative units within the Hebrew aesthetic tend to grant primacy to space both ideologically and at the mechanical level of the text itself However space as a determinate structural category has been all but overlooked in the field of biblical studies to date reflecting perhaps our own inability as modern readers to see beyond the dominant cinematic aesthetic of our times The book is divided into two major sections each beginning with a more theoretical approach to the function of narrative space and ending with a practical application of the previous discussion using Genesis 28 10 22 the Bethel narrative and the book of Ruth respectively as test cases

Literature and Theology in the Book of Chronicles Ehud Ben Zvi, 2014-12-05 History Literature and Theology in the Book of Chronicles presents a new way of approaching this key biblical text arguing that the Book employs both multiple viewpoints and the knowledge of the past held by its intended readership to reshape social memory and reinforce the authority of God The Book of Chronicles communicates to its intended readership a theological worldview built around multiple partial perspectives which inform and balance each other This is a worldview which emphasizes the limitations of all human knowledge even of theologically proper knowledge When Chronicles presents the past as explainable it also affirms that those who inhabited it could not predict the future And despite expanding an explainable past the Book deliberately frames some of YHWH's actions crucial events in Israel's social memory as unexplainable in human terms The Book serves to rationalise divinely ordained prescriptive behaviour through its emphasis on the impossibility of adequate human understanding of a past present and future governed by YHWH [O Mother, Where Art Thou?](#) Julie Kelso, 2016-06-16

According to Kelso the Book of Chronicles silences women in specific ways most radically through their association with maternity Drawing on the work of two feminist philosophers Luce Irigaray and Michelle Boulous Walker she argues that we may discern two principal strategies of silencing women in Chronicles disavowal and repression of the maternal body In its simplest form the silencing of women takes place through both an explicit and implicit strategy of excluding them from the central action Largely banished from the central action they are hardly able to contribute to the production of Israel's past On a more complex level however women are most effectively silenced through their association with maternity because the maternal body is both disavowed and repressed in Chronicles The association of women with maternity along with the disavowal and repression of the maternal body as origin of the masculine subject effects and guarantees the silence of the feminine enabling man to imagine himself as sole producer of his world These strategies of silencing the feminine need to be understood in relation to the relative absence of women from the narrative world of Chronicles Kelso argues that Chronicles

depends on the absence and silence of women for its imaginary coherence This argument is enabled by Irigarayan theory But more importantly Kelso suggests that Irigaray also offers us a viable mode not method of reading writing listening and speaking as woman whatever that might mean in relation to the so called origins of western culture specifically the Hebrew Bible or Old Testament She argues that Irigaray enables a not only rigorous feminist critique of patriarchy and its many texts but also somewhat more charitably a mode of reading that enables women to read the past differently seeking out what remains to be discovered especially the forgotten future in the past

From Babylon to Eternity Bob Becking, Alex Cannegieter, Wilfred van der Poll, Anne-Mareike Wetter, 2016-04-08 First Published in 2014 Generally readers have a negative idea of the Exile Psalm 137 has fuelled the idea that this was a time of sorrow and despair This image of the Exile influenced for instance Luther's ideas on the Babylonian Captivity of the Church The four essays in this volume deconstruct and reconstruct this image Bob Becking tries to recreate a history of the Exile On the basis of the available evidence this could be no more than a fragmented history nevertheless showing that the fate of the exiles was not as bad as often supposed Anne Mareike Wetter reveals that the biblical image of exile is multi faceted She shows how a tradition of a people tied to their God given land was challenged by the reality of foreign occupation And how that people eventually succeeded in translating this experience appropriating it through a transformation into a counter tradition that enabled them to cope with the new situation without breaking entirely with their cultural and religious heritage Jewish ideas on exile are discussed by Wilfred van de Poll He concentrates on the use of the concept of galut which refers to the paradigmatic and identity shaping function of the dispersion of the people of Israel and showed that the Exile in Jewish thinking had become a permanent reality up until the present day From the perspective of intertextual reading Alex Cannegieter discusses four texts of varying ages and background Augustine Petrarch Luther and a Dutch sermon held after the end of the Second World War She explores the ways authors chose biblical texts to appropriate them a new context thereby changing the meaning of the new as well as the source texts
