The Jedburghs Will Irwin, 2009-04-29 The story of the Special Forces in World War II has never fully been told before Information about them began to be declassified only in the 1980s Known as the Jedburghs these Special Forces were selected from members of the British American and Free French armies to be dropped in teams of three deep behind German lines There in preparation for D Day they carried out what we now know as unconventional warfare supporting the French Resistance in guerrilla attacks supply route disruption and the harassment and obstruction of German reinforcements Always they operated against extraordinary odds They had to be prepared to survive pitched battles with German troops and Gestapo manhunts for weeks and months while awaiting the arrival of Allied ground forces They were in short heroes The Jedburghs finally tells their story and offers a new perspective on D Day itself Will Irwin has selected seven of the Jedburgh teams and told their stories as gripping personal narratives He has gathered archival documents diaries and correspondence and interviewed Jed veterans and family members in order to present this portrait of their crucial role a role recognized by Churchill and Eisenhower in the struggle to liberate Europe in 1944 45 This is narrative history at its most compelling a vivid drama of the battle for France from deep behind enemy lines

Irwin,2015-11-06 This study examines the history of the Jedburgh project from the origin of the concept through development of the Jedburgh plan to final preparations for deployment It includes a study of the recruitment process used to man the force and the training program undertaken to prepare the Jedburghs for their unconventional warfare UW mission The Jedburgh plan provided for 100 three man teams composed of American British French Belgian and Dutch special forces personnel These teams operated well behind German lines with the primary mission of coordinating the activities of the various resistance elements to ensure that their operations supported the overall Allied campaign effort These operations indeed the very concept of a force designed to work directly with partisans in an occupied country in support of conventional forces remain significant because they are the doctrinal basis for our current special forces Today s UW doctrine centers increasingly around the support of revolutionary insurgents in a low intensity conflict environment U S Army Special Forces leaders must understand the different and complex nature of conducting UW with partisans in a mid to high intensity conflict though if they are to remain prepared to conduct these operations The amount of lead time required to develop such a capability will probably not be available in future conflicts [The Big Three Allies and the European Resistance](#) Tommaso Piffer,2025-05-27 While the Big Three and their continental Allies fought against Nazi Germany another war was under way on the continent the war to shape the political landscape of post war Europe In the Balkans the war overlapped with political and ethnic conflicts engulfing the region in bloody civil wars In Central and Eastern Europe partisan movements engaged the Germans without losing sight of the danger posed by the arrival of the Red Army In France and in Italy the adoption of the

slogans of national liberation provided the communist parties with a formidable democratic legitimacy which established them as key players in the political lives of their countries The British and the Americans worked to stir up support control and direct these resistance groups London created the Special Operations Executive SOE and Washington the Office of Strategic Services OSS both of whom sent agents into occupied Europe to liaise directly with the guerilla groups Through the Comintern Moscow carefully coordinated the actions of the European communist parties with the foreign policy of the Soviet Union which was acting for the first time as a key player in the arena of international relations The forests and the mountains where the partisans were fighting the Germans soon became a major part of the proxy war that the Big Three waged to shift the post war geopolitical balance in their favour Looking for the first time at the Big Three in a comparative study and spanning Europe from Yugoslavia to Poland from Greece to France and Italy this book vividly depicts and sharply analyses how this proxy war shaped the history of the post war settlement In so doing Piffer deftly connects high political histories with history from below making the book important reading for all those interested in the history of the war and cold war communism and Resistance and diplomacy and intelligence
