fireflies the small but brave hamster finds his way back realizing that while adventure is exciting the warmth and safety of home is where he truly belongs

Kodaly in the Kindergarten Classroom Micheal Houlahan, Philip Tacka, 2015-03-06 Since the mid twentieth century Zolt n Kod ly s child developmental philosophy for teaching music has had significant positive impact on music education around the world and is now at the core of music teaching in the United States and other English speaking countries Kod ly in the Kindergarten

Classroom is the first comprehensive handbook to update and apply the Kodaly concepts to teaching music in early childhood classrooms. Kodaly in the Kindergarten Classroom provides teachers with a step by step road map for developing children's performance, creative movement and literacy skills in an organic and thoughtful manner. Through six years of field testing with music kindergarten teachers in the United States, Great Britain and Hungary, the home country of Zoltan Kodaly, authors Michelle Houlihan and Philip Tacka have developed a methodology specifically for 21st century classrooms. Houlihan and Tacka use the latest research findings in cognition and perception to create a system not only appropriate for kindergarteners' particular developmental stages but also one which integrates vertically between kindergarten and elementary music classes. The methods outlined in this volume encourage greater musical ability and creativity in children by teaching kindergarteners to sing, move, play instruments and develop music literacy skills. In addition, Kodaly in the Kindergarten Classroom promotes critical thinking, problem solving and collaboration skills. Although the book uses the Kodaly philosophy, its methodology has also been tested by teachers certified in Orff and Dalcroze and has proven an essential guide for teachers no matter what their personal philosophy and specific training might be. Over 100 children's books are incorporated into Kodaly in the Kindergarten Classroom as well as 35 detailed lesson plans that demonstrate how music and literacy curriculum goals are transformed into tangible musical objectives. Scholarly yet practical and accessible, this volume is sure to be an essential guide for kindergarten and early childhood music teachers everywhere. *CEO's Palm Sweetheart* Huan Rulan, 2020-04-20 Since she was very young, An Ran had always been by Su Luo Chen's side. Strange ice magic bursts from her hands without any runes to cause it and strikes her friend in the chest. Now the magic tutors are accusing Eglantine of being a monster she's never heard of and threatening her life, while the shadow children turn everything and everyone to ash with just a touch. Eglantine must run for her life, leaving behind the only home she's ever known in search for answers on what she is, where her strange, runeless magic really comes from, and why these shadow monsters are suddenly out for blood. **Shadows** Charl-Pierre Naudé, 2024-08-01 When an unusual building appeared overnight in a remote northern Cape community in the 1970s and disappeared a few weeks later it seemed to point to a series of baffling existential overlaps Some individuals claimed that occasionally they found themselves on the other side of a restive civil war divide in identity embodiments that were highly contrary versions of themselves In other cases absurd social situations seemed to mock normal reality by alternating with it When a small town journalist reported on the events his quiet life became cruelly disrupted by unwanted attention Were these accounts imagined or real Real enough to the eyewitnesses Traumatized and adrift the journalist later wrote up his story in reportage style when a childhood friend invited him to recuperate on her farm He believed he had narrowly escaped the disappearance of an entire region a place nobody has ever heard of and its people including the love of his life As the mystery unfolds with an aura of retrieved memory the narrator's lost love becomes an increasingly evocative presence The Equality of Shadows is a compelling novel in some places uproariously funny in others filled with deep pathos about the vagaries of identity love and time A Dragonling's Magical Christmas S.E.
