Trafficking is a crime that involves every nation on earth and that includes our own US secretary of state Hillary Rodham Clinton 2009 Human trafficking is as old as slavery and continues to be practiced in the modern world Victims of human traffickers include workers in restaurants and in garment factories maids and nannies in the homes of wealthy families child sex workers beggars on the street boy soldiers even infants kidnapped for foreign adoptions Women and children are more likely to be coerced or seized than men and boys especially if they are poor and uneducated Traffickers sell their victims for their bodies or for their labor and reap an enormous profit Human trafficking is estimated to be a 30 to 45 billion industry on an annual basis rivaling weapons and drug trafficking as one of the most profitable criminal undertakings in the world Up for Sale takes a hard look at human trafficking identifying perpetrators and telling the stories of victims through their own words

You ll discover why some people become vulnerable to trafficking and you ll read about what their lives are like on a daily basis You ll also meet some of the courageous individuals and organizations working to free people from lives in bondage so that in the words of US president Barack Obama each person can forge a life equal to their talents and worthy of their dreams **The Madness of Women** Jane Professor Ussher, Jane M. Ussher, 2011-03-28 Nominated for the 2012

Distinguished Publication Award of the Association for Women in Psychology Why are women more likely to be positioned or diagnosed as mad than men If madness is a social construction a gendered label as many feminist critics would argue how can we understand and explain women s prolonged misery and distress In turn can we prevent or treat women s distress in a non pathologising women centred way The Madness of Women addresses these questions through a rigorous exploration of the myths and realities of women s madness Drawing on academic and clinical experience including case studies and in depth interviews as well as on the now extensive critical literature in the field of mental health Jane Ussher presents a critical multifactorial analysis of women s madness that both addresses the notion that madness is a myth and yet acknowledges the reality and multiple causes of women s distress Topics include The genealogy of women s madness incarceration of difficult or deviant women Regulation through treatment Deconstructing depression PMS and borderline personality disorder Madness as a reasonable response to objectification and sexual violence Women s narratives of resistance This book will be of great interest to students and scholars of psychology gender studies sociology women s studies cultural studies counselling and nursing Growing up as a Black Muslim woman Fatima Adamou, 2023-08-11 How

Murphy,2019-09-17 A century and a half after the abolition of slavery in the United States survivors of contemporary forms of enslavement from around the world have revived a powerful tool of the abolitionist movement first person narratives of slavery and freedom Just as Frederick Douglass Harriet Jacobs and others used autobiographical testimonies in the fight to eradicate slavery today s new slave narrators play a crucial role in shaping an antislavery agenda Their writings unveil the systemic underpinnings of global slavery while critiquing the precarity of their hard fought freedom At the same time the demands of antislavery organizations religious groups and book publishers circumscribe the voices of the enslaved coopting their narratives in support of alternative agendas In this pathbreaking interdisciplinary study Laura T Murphy argues that the slave narrative has reemerged as a twenty first century genre that has gained new currency in the context of the memoir boom post 9 11 anti Islamic sentiment and conservative family values politics She analyzes a diverse range of dozens of book length accounts of modern slavery from Africa Asia the United States the United Kingdom and Europe examining the narrative strategies that survivors of slavery employ to make their experiences legible and to promote a reinvigorated antislavery agenda By putting these stories into conversation with one another *The New Slave Narrative* reveals an emergent survivor centered counterdiscourse of collaboration and systemic change that offers an urgent critique of the systems that
