Independence Day M. B. B. Biskupski, 2012-09-13 The 11th of November 1918 Polish Independence Day is a curious anniversary whose commemoration has been only intermittently observed in the last century In fact the day and the several symbols that rightly or wrongly have become associated with it has a rather convoluted

history filled with tradition and myth which deserves attention Independence Day is more than just the history of a day or the evolution of its celebration but an explanation of what meaning has come to be associated with that date It offers a re reading of Polish history not by a series of dates but through a series of symbols whose combination allows the Poles to understand who they are by what they have been Its focus is on the era 1914 2008 and the central actor is the charismatic Jozef Pilsudski He came to represent a disposition regarding the meaning of Polish history which eventually penetrated virtually all of modern Polish society The work is constructed by the analysis of memoirs documents coins stamps films maps monuments and many other features making it a multi disciplinary and multi dimensional volume

Civil-Military Relations in Post-Communist Europe Timothy Edmunds,Andrew Cottey,Anthony Forster,2013-10-18 Fifteen years after the fall of communism we are able to appraise the results of the multi

faceted postcommunist transition in Central and Eastern Europe with authority This volume specifically addresses the fascinating area of Civil Military relations throughout this transitional period The countries of the region inherited a onerous legacy in this area their armed forces were part of the communist party state system and most were oriented towards Cold War missions they were large in size and supported by high levels of defence spending and they were based on universal male conscription Central and eastern European states have thus faced a three fold civil military reform challenge establishing democratic and civilian control over their armed forces implementing organisational reform to meet the security and foreign policy demands of the new era and redefining military bases for legitimacy in society This volume assesses the experiences of Poland Hungary Latvia Romania Croatia Serbia Montenegro Ukraine and Russia in these areas Collectively these countries illustrate the way in which the interaction of broadly similar postcommunist challenges and distinct national contexts have combined to produce a wide variety of different patterns of civil military relations This book was previously published as a special issue of *European Security* *Air University Library Index to Military Periodicals* ,1998

Democratizing Communist Militaries Marybeth Peterson Ulrich,1999 Discusses how we can help make formerly communist armies supporters of democracy *Parameters* ,2017 *The Journal of Military History* ,1998 **Politics in Europe** M. Donald Hancock,Christopher J. Carman,Marjorie Castle,David P. Conradt,Raffaella Y. Nanetti,Robert Leonardi,William Safran,Stephen White,2014-02-14 Thoroughly updated this sixth edition of Hancock et al s *Politics in Europe* remains an approachable yet rigorous introduction to the region the UK France Germany Italy Sweden Russia Poland and the European Union Its strong analytic framework and organization coupled with detailed country coverage written by country experts ensure that students not only get a robust introduction to each country but also are able to make meaningful cross national comparisons Key updates include the latest in European politics including recent election results the content and impact of the Eurozone crisis the emergence of a new Nordic model of welfare capitalism and coverage of key social and political issues including globalization terrorism immigration gender religion and transatlantic relations **The Limits of Alliance** Andrew A. Michta,2006-04-10 Are the relationships that the United States forged with North and Central Europe during the Cold War still viable today As the North Atlantic Treaty Organization NATO declines and the European Security and Defense Policy ESDP emerges can the United States and Europe bridge the transatlantic fissures that opened when the United States prepared to go to war with Iraq In a post 9 11 world North and Central Europe have had to adapt their national security policies and rethink their relationship with the United States In an in depth look at the security policies of the states in North and Central Europe Andrew Michta highlights how historical legacies regional geostrategic constraints and individual capabilities have shaped their response to the new environment Michta raises the broad question of whether traditional alliances and NATO are still viable ways to deal with new security concerns The two key questions that arise from this discussion are to what extent NATO still matters to the United States beyond its political utility and whether the

European Union as a whole can become a partner for the United States in a new security environment The Limits of Alliance argues that although NATO will continue to exist in the coming decade the hollowing out of the alliance will be accompanied by a shift in transatlantic security relations toward bilateralism determined by regional security considerations
