Bulletin Nottingham (England). Public Libraries, 1910 **Guide to Reprints**, 2009 Revival: A History of Modern Culture: Volume I (1930) Preserved Smith, 2019-07-16 The best excuse for writing the history of anything is the intrinsic interest of the subject Most men of past generations have thought and many men still think of politics as the warp and woof of social life History for a long time therefore treated chiefly politics Then came the economists to arouse the interest of scholars and of the public in the production and distribution of wealth Economic history rightly absorbs much attention for it illumines with its new searchlight many a dark corner of the past and explains many features of present day society But to many men today the most interesting thing about society is its culture just as the most interesting thing about an individual is his thought Indeed it has begun to be suspected that even politics and economics each sometimes worshipped as a First Cause are but secondary effects of something still deeper namely of the progress of man's intellectual life The present volume aims to exhibit as a unified whole the state and progress of modern culture *The Nottingham Library Bulletin* Nottingham Free Public Libraries, 1910 **The Statesman's Year-Book** J. Scott-Keltie, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world *The Statesman's Year-book* Frederick Martin, Sir John Scott Keltie, Isaac Parker Anderson Renwick, Mortimer Epstein, Sigfrid Henry Steinberg, John Paxton, Brian Hunter (Librarian), Barry Turner, 1906 *Reader's Guide to Military History* Charles Messenger, 2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations **Encyclopaedia Britannica**, 1929

The Encyclopedia Britannica James Louis Garvin, Franklin Henry Hooper, Warren E. Cox, 1929 *Making Makers* Michael P. M. Finch, 2024-04-05 *Making Makers* presents a comprehensive history of a seminal work of scholarship which has exerted a persistent attraction for scholars of war and strategy *Makers of Modern Strategy* It reveals the processes by which scholars conceived and devised the book considering both successful and failed attempts to make and remake the work across the twentieth century and illuminating its impact and legacy It explains how and why these influential volumes

took their particular forms unearths the broader intellectual processes that shaped them and reflects on the academic parameters of the study of war in the twentieth century In presenting a complete genesis of the Makers project in the context of intellectual trends and historical contingency this book reflects on a more complex and nuanced appraisal of the development of scholarship on war In so doing it also offers contributions to the intellectual biographies of key figures in the history of war in the twentieth century such as Edward Mead Earle Peter Paret Gordon Craig and Theodore Ropp Making Makers contributes to an intellectual history of military history and contextualises the place of history and historians in strategic and security studies It is not only a history of the book but a history of the networks of scholars involved in its creation their careers and lines of patronage crossing international boundaries from Europe to the USA to Asia and Australia It is an investigation of ideas individuals and groups of work completed and scholarship produced as well as contingency and opportunities missed The British Way in Warfare 1688 - 2000 (Routledge Revivals) David French, 2014-07-17 First

published in 1990 this title examines British defence policy from 1688 onwards the year in which Britain was successfully invaded for the final time and which marked a generation of warfare that lasted until 1714 during which Britain came to be known as a major European power David French considers the strategic alliances that formed and changed throughout the period and tests his hypotheses in light of the varying paradigms of war and British wartime and peacetime practices The ways in which the needs of both the army and the navy have been balanced over time are analysed with particular attention paid to how parliament allotted money and resources to each Wars under discussion include the American War of Independence and the French Revolutionary and Napoleonic Wars A detailed and critical title this reissue will be of great value to history students studying Early Modern diplomacy with a particular emphasis on the strategic development of British warfare and policy and the place of Britain within the European power structure **The Bookseller and the Stationery**

Bendersky, 2008-01-07 Very little has been written about America's own history of anti-Semitism In this shocking book the first documented examination of anti-Semitism in an American governmental institution Joseph Bendersky shows that such racism permeated the highest ranks of the U S military throughout the past century having a very real effect on policy decisions Through ten years of research in more than thirty five archives the author uncovered irrefutable evidence of endemic and virulent anti-Semitism throughout the Army Corps from the turn of the century right up to the 1970s This fully

developed and clearly articulated perspective had a direct effect on policy discussions and decisions affecting such matters as immigration refugees military strategy and the establishment of Israel Written with novelistic intensity and attention to intriguing detail *The Jewish Threat* forces us to revise some of our cherished notions about our country and its most revered leaders

God in Eisenhower's Life, Military Career, and Presidency Jerry Bergman,2019-03-22 As the Supreme Allied Commander in the fight against the Nazis General Dwight Eisenhower was one of the most important leaders of the last century His position as a five star general was crucial in achieving a positive outcome in World War II Today he is considered one of the most respected US presidents but the critical role that his religious beliefs played in his life and work is widely ignored As one historian wrote Eisenhower was the most religious president in the twentieth century He was critical in influencing the nation s enlarged accommodation to faith specifically the Christian faith The central role Eisenhower s faith played in his life from growing up in Abilene Kansas to becoming the most powerful leader in the world is thoroughly documented for the first time in this book Indeed Eisenhower s belief in God made him who he was and allowed him to achieve the work that made him one of the most respected leaders of the free world This book sets the record straight about common erroneous beliefs concerning President Eisenhower and his family It is necessary to understand the forces that shaped him so we can put his life and many achievements into perspective
