Christianity and Race in the American South Paul Harvey, 2016-11-21 This in depth study examines the social structures and religious beliefs that helped shape Southern history from colonization to the twenty first century The history of race and religion in the American South is infused with tragedy survival resistance and even transcendence In Christianity and Race in the American South Paul Harvey provides an enlightening narrative history that fundamentally transforms our understanding of American Christianity and religious identity Harvey examines the intertwined histories of race and religion in the South dating back to the first days of European settlement He reveals a complex story rife with strange alliances unlikely parallels and far too many tragedies He shows how the role of Southern churches were critically shaped by the conflicts over slavery and race that defined southern life more broadly Harvey s book offers essential insight into today s volatile brew of race violence religion and southern identity

Rebuilding Zion Daniel W. Stowell, 2001-09-20 Both the North and the South viewed the Civil War in Christian terms Each side believed that its fight was just that God favored its cause Rebuilding Zion is the first study to explore simultaneously the reaction of southern white evangelicals northern white evangelicals and Christian freedpeople to Confederate defeat As white southerners struggled to assure themselves that the collapse of the Confederacy was not an indication of God s stern judgment white northerners and freedpeople were certain that it was Author Daniel W Stowell tells the story of the religious reconstruction of the South following the war a bitter contest between southern and northern evangelicals at the heart of which was the fate of the freedpeople s souls and the southern effort to maintain a sense of sectional identity Central to the southern churches vision of the Civil War was the idea that God had not abandoned the South defeat was a Father s stern chastisement Secession and slavery had not been sinful

rather it was the radicalism of the northern denominations that threatened the purity of the Gospel Northern evangelicals armed with a vastly different vision of the meaning of the war and their call to Christian duty entered the post war South intending to save white southerner and ex slave alike The freedpeople however drew their own providential meaning from the war and its outcome The goal for blacks in the postwar period was to establish churches for themselves separate from the control of their former masters Stowell plots the conflicts that resulted from these competing visions of the religious reconstruction of the South By demonstrating how the southern vision eventually came to predominate over but not eradicate the northern and freedpeople s visions for the religious life of the South he shows how the southern churches became one of the principal bulwarks of the New South a region marked by intense piety and intense racism throughout the twentieth century

Generations of Captivity Ira Berlin,2004-09-30 Berlin traces the history of African American slavery in the U S from its beginnings in the 17th century to its fiery demise nearly 300 years later He offers a major reinterpretation in which slavery was made and remade by successive generations of Africans and African Americans *A People's Contest* Phillip Shaw Paludan,1996 Pt 1 Learning war Communities go to war Forging foreign and domestic weapons The ways of making war The dialogue of politics 1861 1862 pt 2 Making war Congress and the capitalists Congress and the second American system Agriculture and the benefits of war Industrial workers and the costs of war The meanings of emancipation The dialogue of politics loyalty and unity 1863 1864 pt 3 Finding war s meanings World images of war Frankenstein and Everyman Sherman Grant and modern war The scars of war The coming of the Lord religion in the Civil War era Conclusion

Absence of National Feeling Michael J. Steudeman,2025-08-15 Before the start of the Civil War the US Congress seldom took up the question of education deferring regularly to a tradition of local control In the period after the war however education became a major concern of the federal government Many members of Congress espoused the necessity of schooling to transform southern culture and behavior secure civil rights and reconstruct the Union Absence of National Feeling Education Debates in the Reconstruction Congress analyzes how policymakers cultivated a rhetoric of public education to negotiate conflicts over federalism and civic belonging in the aftermath of the Civil War Reconstruction Era advocates embraced education as a way to orchestrate the affective life of Americans They believed education could marshal feelings of hope love shame and pride to alter Americans predispositions toward other citizens The most assertive educational advocates believed that schools would physically bring together children divided by race or religion fostering shared affinities and dissolving racial hierarchies Schooling promised to be an emotional adhesive holding together the North and South and facilitating US expansion into the West Through protracted debates over national education funding the fate of the Freedmen s Bureau and school desegregation members of Congress negotiated schools potential as a vehicle for social change By Reconstruction s end most members of Congress accepted schooling as an element of national reconciliation To reach this tenuous consensus though legislators sacrificed their call for schools to intervene in the feelings of prejudice

resentment and superiority that sustained the culture of slavery Rejecting a transformative educational vision Congress took another tragic step in its abandonment of Reconstruction Focusing on the words spoken in the Reconstruction Congress Absence of National Feeling contends that educational rhetoric appealed to legislators debating whether the federal government could or even should alter public feeling Tracing congressional transcripts between 1865 and 1877 author Michael J Steudeman illustrates that these debates lastingly helped to both define and delimit the possible trajectories of education policy

Women's Radical Reconstruction Carol Faulkner, 2013-04-19 In this first critical study of female abolitionists and feminists in the freedmen s aid movement Carol Faulkner describes these women s radical view of former slaves and the nation s responsibility to them Moving beyond the image of the Yankee schoolmarm Women s Radical Reconstruction demonstrates fully the complex and dynamic part played by Northern women in the design implementation and administration of Reconstruction policy This absorbing account illustrates how these activists approached women s rights the treatment of freed slaves and the federal government s role in reorganizing Southern life Like Radical Republicans black and white women studied here advocated land reform political and civil rights and an activist federal government They worked closely with the military the Freedmen s Bureau and Northern aid societies to provide food clothes housing education and employment to former slaves These abolitionist feminists embraced the Freedmen s Bureau seeing it as both a shield for freedpeople and a vehicle for women s rights But Faulkner rebuts historians who depict a community united by faith in free labor ideology describing a movement torn by internal tensions The author explores how gender conventions undermined women s efforts as military personnel and many male reformers saw female reformers as encroaching on their territory threatening their vision of a wage labor economy and impeding the economic independence of former slaves She notes the opportunities afforded to some middle class black women while also acknowledging the difficult ground they occupied between freed slaves and whites Through compelling individual examples she traces how female reformers found their commitment to gender solidarity across racial lines tested in the face of disagreements regarding the benefits of charity and the merits of paid employment

Jones, 2009-11-30 The place of women s rights in African American public culture has been an enduring question one that has long engaged activists commentators and scholars All Bound Up Together explores the roles black women played in their communities social movements and the consequences of elevating women into positions of visibility and leadership Martha Jones reveals how through the nineteenth century the woman question was at the core of movements against slavery and for civil rights Unlike white women activists who often created their own institutions separate from men black women Jones explains often organized within already existing institutions churches political organizations mutual aid societies and schools Covering three generations of black women activists Jones demonstrates that their approach was not unanimous or monolithic but changed over time and took a variety of forms from a woman s right to control her body to her right to vote Through a far ranging look at politics church
