*A Soldier's Life* John Lee, 2000-01-01 Ian Hamilton is chiefly famous for the devastating failure of the Gallipoli campaign in 1915 John Lee's biography reveals that Gallipoli was always doomed and that Hamilton deserves to have his entire career reassessed

The British Army Regular Mounted Infantry 1880-1913 Andrew Winrow, 2016-11-03 The regular Mounted Infantry was one of the most important innovations of the late Victorian and Edwardian British Army Rather than fight on horseback in the traditional manner of cavalry they used horses primarily to move swiftly about the battlefield where they would then dismount and fight on foot thus anticipating the development of mechanised infantry tactics during the twentieth century Yet despite this apparent foresight the mounted infantry concept was abandoned by the British Army in 1913 just at the point when it may have made the transition from a colonial to a continental force as part of the British Expeditionary Force Exploring the historical background to the Mounted Infantry this book untangles the debates that raged in the army Parliament and the press between its advocates and the supporters of the established cavalry With its origins in the extemporised mounted detachments raised during times of crisis from infantry battalions on overseas imperial garrison duties Dr Winrow reveals how the Mounted Infantry model unique among European armies evolved into a formalised and apparently highly successful organisation of non cavalry mounted troops He then analyses why the Mounted Infantry concept fell out of favour just eleven years after its apogee during the South African Anglo Boer War of 1899 1902 As such the book will be of interest not only to historians of the nineteenth century British army but also those tracing the development of modern military doctrine and tactics to which the Mounted Infantry provided successful if short lived inspiration

College London and the Institute of Commonwealth Studies in the same University      **The Great War and the Middle East** Rob Johnson, 2016-08-18 The First World War in the Middle East swept away five hundred years of Ottoman domination It ushered in new ideologies and radicalised old ones from Arab nationalism and revolutionary socialism to impassioned forms of atavistic Islamism It created heroic icons like the enigmatic Lawrence of Arabia or the modernizing Atatürk and destroyed others And it completely redrew the map of the region forging a host of new nation states including Turkey Iraq Syria Jordan Lebanon and Saudi Arabia all of them with the exception of Turkey under the protection of the victor powers Britain and France For many the self-serving intervention of these powers in the region between 1914 and 1919 is the major reason for the conflicts that have raged there on and off ever since Yet many of the most commonly accepted assertions about the First World War in the Middle East are more often stated than they are truly tested Rob Johnson military historian and former soldier now seeks to put this right by examining in detail the strategic and operational course of the war in the Middle East Johnson argues that far from being a sideshow to the war in Europe the Middle Eastern conflict was in fact the centre of gravity in a war for imperial domination and prestige Moreover contrary to another persistent myth of the First World War in the Middle East local leaders and their forces were not simply the puppets of the Great Powers in any straightforward sense The way in which these local forces embraced resisted succumbed to disrupted or on occasion overturned the plans of the imperialist powers for their own interests in fact played an important role in shaping the immediate aftermath of the conflict and in laying the foundations for the troubled Middle East that we know today

Reconsidering Gallipoli Jenny Macleod, 2004-09-04 In Australia Anzac Day the anniversary of the first landings at Gallipoli is one of the most important dates in the national calendar Yet in Britain the campaign is largely forgotten The key to this contrast lies in the way in which the campaign's history has been recorded To many Australians the Anzac legend is a romantic war myth that proclaims the prowess of Australian participants in the campaign It is an exercise in nation building In Britain the campaign is also remembered in romantic terms but the purpose here is to assuage the pain of defeat Reconsidering Gallipoli broadens the debate over the cultural history of the First World War beyond the Western Front The final chapter traces the influence of the early accounts on subsequent portrayals including Alan Moorehead's 1956 book *Beaten* his post 1965 rehabilitation Peter Weir's 1981 film and revisionist attacks on the legend      **Weapon of Choice** Matthew Ford, 2017-02-15 This book examines Western military technological innovation through the lens of developments in small arms during the twentieth century These weapons have existed for centuries appear to have matured only incrementally and might seem unlikely technologies for investigating the trajectory of military technical change Their relative simplicity however makes it easy to use them to map patterns of innovation within the military industrial complex Advanced technologies may have captured the military imagination offering the possibility of clean and decisive outcomes but it is the low technologies of the infantryman that can help us develop an appreciation for the dynamics of military technical change

Tracing the path of innovation from battlefield to back office and from industry to alliance partner Ford develops insights into the way that small arms are socially constructed. He thereby exposes the mechanics of power across the military industrial complex. This in turn reveals that shifting power relations between soldiers and scientists, bureaucrats and engineers have allowed the private sector to exploit infantry status anxiety and shape soldier weapon preferences. Ford's analysis allows us to draw wider conclusions about how military innovation works and what social factors frame Western military purchasing policy from small arms to more sophisticated and expensive weapons.

**Gallipoli** Jenny Macleod, 2015-07-23. The British led Mediterranean Expeditionary Force that attacked the Ottoman Empire at Gallipoli in 1915 was a multi-national affair including Australian, New Zealand, Irish, French and Indian soldiers. Ultimately a failure, the campaign ended with the withdrawal of the Allied forces after less than nine months and the unexpected victory of the Ottoman armies and their German allies. In Britain, the campaign led to the removal of Churchill from his post as First Lord of the Admiralty and the abandonment of the plan to attack Germany via its soft underbelly in the East. Thereafter it was largely forgotten on a national level, commemorated only in specific localities linked to the campaign. In post-war Turkey, by contrast, the memory of Gallipoli played an important role in the formation of a Turkish national identity, celebrating both the ordinary soldier and the genius of the republic's first president, Mustafa Kemal. The campaign served a similarly important formative role in both Australia and New Zealand, where it is commemorated annually on Anzac Day. For the southern Irish, meanwhile, the bitter memory of service for the King in a botched campaign was forgotten for decades. Shaped initially by the imperatives of war time and the needs of the grief-stricken and the bereft, the memory of Gallipoli has been re-made time and again over the last century. For the Turks, an inspirational victory for many on the Allied side, a glorious and romantic defeat for others, still an episode best forgotten. Gallipoli has meant different things to different people, serving by turns as an occasion of sincere and heartfelt sorrow, an opportunity for separatist and feminist protest, and a formative influence in the forging of national identities.

**Gallipoli 1915** Tim Travers, 2016-07-11. Why was the Allied naval assault of February-March 1915 so unsuccessful? Did the Ottoman Turks have knowledge of the Allied landings of 25 April 1915? And did Sir Ian Hamilton, the overall commander of the Allied forces at Gallipoli, really make a mistake in his intervention at Suvla? These questions and the key issue of why the Ottoman Turks won the 1915 Gallipoli campaign or why the Allies lost it have never been satisfactorily answered. This new history of the Gallipoli campaign aims to answer them.

while also telling the story of what actually happened through the voices of British Australian and Turkish soldiers In order to properly understand the bloody events of 1915 Tim Travers is the first historian of Gallipoli to use the general Staff Ottoman archives in Ankara to tell the other side of the story Wide ranging research in the Turkish archives as well as those in Australia Britain France and New Zealand plus a significant newly discovered German source has produced a startling new interpretation of the 1915 conflict Moving from a study of the Western Front Tim Travers has produced a challenging analysis of the enduring mysteries of the Gallipoli campaign *Artillery in the Great War* Paul Strong, Sanders

*Gallipoli* Ashley Ekins,2012-12-01 In early August 1915 after months of stalemate in the trenches on Gallipoli British and Dominion troops launched a series of assaults in an all out attempt to break the deadlock and achieve a decisive victory The August offensive resulted in heartbreaking failure and costly losses on both sides Many of the sites of the bloody struggle became famous names Lone Pine the Nek Chunuk Bair Hill 60 Suvla Bay Debate has continued to the present day over the strategy and planning the real or illusory opportunities for success and the causes of failure in what became the last throw of the dice for the Allies Some argue that these costly attacks were a lost opportunity others maintain that the outcomes were simply inevitable This new book about the Gallipoli battles arises out of a major international conference at the Australian War Memorial in 2010 to mark the 95th anniversary of the Gallipoli campaign The conference drew leading military historians from around the world to bring multi national viewpoints to the many intriguing questions still debated about Gallipoli Keynote speaker Professor Robin Prior of the University of Adelaide author of *Gallipoli the end of the myth* 2009 led a range of international authorities from Australia New Zealand Britain France Germany India and Turkey to present their most recent research findings The result was significant never before had such a range of views been presented with fresh German and Turkish perspectives offered alongside those of British and Australasian historians For the resulting book the papers have been edited and the text has been augmented with soldiers letters and diary accounts as well as a large number of photographs and maps

Gallipoli Robin Prior,2009-06-02 The noted historian s decisive and devastating history of the WWI Battle of Gallipoli sets a new standard for assessing the Allied Dardanelles campaign Mustafa Aksakal American Historical Review The Gallipoli campaign of 1915 16 was an ill fated Allied attempt to take control of the Dardanelles secure a sea route to Russia and create a Balkan alliance against the Central Powers A failure in all respects the operation ended in disaster and the Allied forces suffered some 390 000 casualties In this conclusive study military historian Robin Prior assesses the many myths about Gallipoli and provides definitive answers to questions that have lingered about the operation Prior proceeds step by step through the campaign dealing with naval military and political matters and surveying the operations of all the armies involved British Anzac French Indian and Turkish Relying on primary documents including war diaries and technical military sources Prior evaluates the strategy the commanders and the performance of soldiers on the ground His conclusions are powerful and unsettling the naval campaign was not almost won and the land action was not

bedeviled by minor misfortunes Instead the badly conceived Gallipoli campaign was doomed from the start And even had it been successful the operation would not have shortened the war by a single day Despite their bravery the Allied troops who fell at Gallipoli died in vain A Wall Street Journal Best Book of 2009      **Gallipoli 1915** Peter Doyle,2011-09-30 In a campaign part sponsored by First Lord of the Admiralty Winston Churchill the Battle of Gallipoli in 1915 remains one of the most resounding Allied defeats of the First World War with both the Allied and Ottoman armies suffering in excess of 200 000 casualties Despite this many believed it would be a sure fire success due to the preceding naval campaign but increased losses at sea prompted the Allies to send in ground troops Comprising a large ANZAC contingent on their first major operation they were tasked with invading and eliminating the formidable Ottoman artillery On 25 April 1915 they landed on five stretches of beach in open boats The casualties from the first landing were horrific of the first 200 men out of the boats only twenty one reached inland the rest being mown down by Ottoman machine guns Casualties only accelerated from there for both sides until the Allies were forced to evacuate Gallipoli 1915 takes you to the front line and beyond ensuring that you will appreciate the ultimate sacrifice made by these brave soldiers
