Asia and Pacific Dept, 2007-04-12 The recent economic and financial developments and trends in Asia and the Pacific are examined in this latest REO including issues related to Asia's trade performance notably in the high tech sector and the February March bout of turbulence in the region's financial markets The near term outlook key risks and their related policy challenges are analyzed throughout as well as in special chapters that look more closely at the evolving nature of capital inflows housing market developments and the impact of commodity price booms on lower income economies *Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan [Illustrated Edition]* Dr. Robert F. Baumann, 2015-11-06 Includes 12 maps and 4 tables In recent years the U S Army has paid

increasing attention to the conduct of unconventional warfare. However, the base of historical experience available for study has been largely American and overwhelmingly Western. In *Russian Soviet Unconventional Wars in the Caucasus, Central Asia and Afghanistan*, Dr Robert F. Baumann makes a significant contribution to the expansion of that base with a well researched analysis of four important episodes from the Russian Soviet experience with unconventional wars. Primarily employing Russian sources including important archival documents only recently declassified and made available to Western scholars, Dr Baumann provides an insightful look at the Russian conquest of the Caucasian mountaineers 1801-59, the subjugation of Central Asia 1839-81, the reconquest of Central Asia by the Red Army 1918-33, and the Soviet war in Afghanistan 1979-89. The history of these wars, especially as it relates to the battle tactics, force structure and strategy employed in them, offers important new perspectives on elements of continuity and change in combat over two centuries. This is the first study to provide an in depth examination of the evolution of the Russian and Soviet unconventional experience on the predominantly Muslim southern periphery of the former empire. There, the Russians encountered fierce resistance by peoples whose cultures and views of war differed sharply from their own. Consequently, this Leavenworth Paper addresses not only issues germane to combat but to a wide spectrum of civic and propaganda operations as well. *Solution in Asia* Owen Lattimore, 1845

While Asia's growth record in recent decades is remarkable, it has been marred by rising inequalities. This book looks at recent trends of income and non-income inequalities in developing Asian countries, discusses their underlying driving forces, and examines key policy issues that need to be addressed to ensure that the benefits of growth will be more equitably shared in Asia. The book also presents a set of country studies that provide rich information on growth, poverty and inequality dynamics and the policy challenges that arise in marching toward inclusive growth. *East Asian Conflict Zones* Lawrence E. Grinter, Young Whan Kihl, 1987-06-18 **Intelligence Services in South Asia** Ryan Shaffer, ASM Ali Ashraf, 2025-02-18

This book explores colonial and post colonial intelligence services in South Asia. It traces the genealogy of the institutions to analyze changes and continuities throughout the region. The volume also provides a framework for analyzing how intelligence services developed in these countries by looking at both internal and external issues and shows how vital and sometimes interconnected these issues are for understanding intelligence in South Asia. It demonstrates how some countries and intelligence services borrowed from the colonial era and others started new institutions to protect national security in response to the shifting demands of the Cold War and post Cold War era. Bringing together a group of international scholars, the anthology delves into the intelligence services of Afghanistan, Bangladesh, Bhutan, India, the Maldives, Myanmar, Nepal, Pakistan and Sri Lanka and traces how these national services developed in similar and diverse ways. This book will be of much interest to students of intelligence studies, Asian politics, security studies and International Relations. *Lessons on*
