Waylen, 2016-04-08 Michele Bachelet Chile's first female president was elected with an explicit gender agenda in 2006 and then reelected in 2013 This volume focuses on Bachelet's efforts to introduce progressive measures and the constraints that she has faced in a context where both formal and informal political institutions can act as barriers to change **Reassembling Social Security** Carmelo Mesa-Lago, 2008-01-31 The reform of social security pensions and healthcare is a key issue for the modern world and in many ways Latin America has acted as a social laboratory for the reform of these systems From the reforms that took place in Chile in 1981 most pension and health care systems in the region have seen reform and been fully or partially privatized Many other countries considering reform of their own systems have been influenced by the policies implemented in Latin America Yet despite the importance and influence of these reforms until now there has not been an integrated and comprehensive analysis of the changes and their effects This book is the result of four years of painstaking work data collection field research and international collaboration and so fills the vacuum in the literature with a systematic comparison of pension and healthcare reforms in the 20 Latin American countries It identifies reform models and elaborates taxonomies to facilitate their understanding and comparison Some key features of the reforms to emerge are labour force and population coverage equity and solidarity sufficiency and quality of benefits state regulation competition and degree of privatization efficiency and administrative costs social participation in management financing sources and long term sustainability Effects of the reforms on social security principles are measured based on

recent standardized statistics and other information Goals or assumptions of the reforms are contrasted with actual outcomes and the pros and cons of private versus private provision assessed Detailed policy recommendations are offered to correct current problems and improve pension and healthcare systems This is the first book to comprehensively study these influential reforms in Latin America s pension and health care systems and as such will be of importance to academics and researchers interested in social security and welfare policy pensions health care and public policy Social security pension and health care policy makers And social security pension and health care consultants and practitioners Published in association with PAHO

el análisis de los problemas y de los retos existentes en el mundo del trabajo a través del estudio de la labor de la OIT y de su desarrollo en las distintas realidades de los países de América Latina. El libro pone de manifiesto el papel institucional de la OIT en el modelo de gobernanza del trabajo y su proyección en América Latina. Se destaca la orientación de la acción normativa internacional así como los programas específicos de acción de dicha institución internacional. Este estudio intenta presentar los fundamentos necesarios de un renovado contrato social relativo al trabajo protegido y con derechos. Con carácter general se aboga por la protección del trabajo desde la propia perspectiva de la garantía de los Estados Sociales de Derecho ante la actual situación de crisis económica y social. Ciertamente nos encontramos ante la necesidad de alcanzar un nuevo modelo de gobernanza del trabajo basado en dar respuesta a los retos relativos al futuro del trabajo y todo ello sin descuidar la necesaria tutela de los derechos fundamentales internacionales. Los distintos estudios de la presente monografía realizan un enfoque actual en relación con el auténtico desafío protector que las nuevas formas de trabajo suponen para el Derecho del Trabajo. Ello supone en definitiva la reafirmación de la función protectora del Derecho del Trabajo que está llamada a establecer los nuevos límites frente a los riesgos existentes en el mundo del trabajo.

Gobierno, territorio y población:
Silvia E. Giorgulli Saucedo, Vicente Ugalde, 2014-09-18. Este libro se posiciona en el enfoque del estudio de políticas públicas para proponer desde diferentes disciplinas y a partir de preocupaciones diversas una serie de análisis sobre la acción gubernamental en ámbitos que involucran el territorio y la población. Los trabajos que lo integran aportan elementos centrales acerca de lo que motiva las políticas de su ejecución y sus efectos. De esta forma al celebrar cincuenta años de su fundación el Centro de Estudios Demográficos Urbanos y Ambientales de El Colegio de México propone una lectura de la acción gubernamental en los ámbitos que han sido materia de su trabajo como la dinámica demográfica, la migración, los mercados de trabajo, la familia, el desarrollo urbano así como la relación entre la ciudad y el medio ambiente. Al revisar algunas políticas de las últimas décadas esta obra busca favorecer el diálogo entre las disciplinas y tradiciones de investigación especializadas en el estudio del gobierno con investigaciones más orientadas al análisis del territorio y la población.
