 Libertarian journalist Kristin Tate provides a look into the wild world of frivolous taxation aimed at educating members of her own generation in the evils of big government In *How Do I Tax Thee* libertarian commentator and rising media star Kristin Tate takes us on a tour of the ways the government bleeds us dry in innumerable daily transactions and at various stages of life We all know the government taxes our pay federal state and local taxes are withheld by employers as are social security payments But what about the many other ways the government drains money from our wallets Have you studied your cell phone bill Customers in New York State pay an average of 24 36% in federal state and local taxes on their wireless bills They re also charged for obscure services they didn t ask for and don t understand like a universal service fund fee an FCC compliance fee a line service fee and an emergency services fee These aren t taxes strictly speaking The government imposes these administrative and regulatory costs and your wireless provider passes them along to you But the effect is exactly the same What about your cable bill Your power bill Your water bill The cost of a gallon of gas a cab ride a hotel stay and a movie ticket are all inflated by hidden fees How much of what you pay at the pump the box office or the airport is really an indirect tax In a series of short pointed fact laden humorous chapters Tate exposes the vast government shakedown that consumes up to half of your income and also explains where these hidden fees and taxes come from

**Learning to Love Form 1040** Lawrence Zelenak,2013-03-29 No one likes paying taxes much less the process of filing tax returns For years would be reformers have advocated replacing the return based mass income tax with a flat tax federal sales tax or some combination thereof Congress itself has commissioned studies on the feasibility of a system of exact withholding But might the much maligned return based taxation method serve an important yet overlooked civic purpose In Learning to Love Form 1040 Lawrence Zelenak argues that filing taxes can strengthen fiscal citizenship by prompting taxpayers to reflect on the contract they have with their government and the value or perceived lack of value they receive in exchange for their money Zelenak traces the mass income tax to its origins as a means for raising revenue during World War II Even then debates raged over the merits of consumption based versus income taxation as well as whether taxes should be withheld from payroll or paid at the time of filing The result is the income tax system we have today a system whose maddening complexity intended to accommodate citizens in widely different circumstances threatens to outweigh any civic benefits If sitcoms and political cartoons are any indication public understanding of the income tax is badly in need of a corrective Zelenak clears up some of the most common misconceptions and closes with suggestions for how the current system could be substantially simplified to better serve its civic purpose     Hearings, Reports and Prints of the Senate Committee on Finance United States.
