McCartney's albums *Memory Almost Full*, *Ecce Cor Meum* and *Electric Arguments* and the media circus surrounding the McCartney Mills divorce. All you need is this **John & Paul** Ian Leslie, 2025-04-08 A new take on a legendary partnership. Thoroughly delightful. Fans will love this fresh insightful approach to the band. Kirkus Reviews Starred Review. John Lennon and Paul McCartney knew each other for twenty three years from 1957 to 1980. This book is the myth shattering biography of a relationship that changed the cultural history of the world. The Beatles shook the world to its core in the 1960s and to this day new generations continue to fall in love with their songs and their story. At the heart of this phenomenon lies the dynamic between John Lennon and Paul McCartney. Few other musical partnerships have been rooted in such a deep intense and complicated personal relationship. John and Paul's relationship was defined by its complexity, compulsive, tender and tempestuous, full of longing, riven by jealousy. Like the band, their relationship was always in motion, never in equilibrium for long. John Paul traces its twists and turns and reveals how these shifts manifested themselves in the music. The two of them shared a private language rooted in the stories, comedy and songs they both loved as teenagers and later in the lyrics of Beatles songs. In John Paul acclaimed writer Ian Leslie uses the songs they wrote to trace the shared journey of these two compelling men before, during and after The Beatles. Drawing on recently released footage and recordings, Leslie offers us an intimate and insightful new look at two of the greatest icons in music history and rich insights into the nature of creativity, collaboration and human intimacy. Popular Music Autobiography Oliver Lovesey, 2021-12-02 The 1960s saw the nexus of the revolution in popular music by a post war generation amid demographic upheavals and seismic shifts in technology. Over the past two decades musicians associated with this period have produced a large amount of important autobiographical writing. This book situates these works in the forms of formal autobiographies and memoirs, auto-fiction, songs and self-fashioned museum exhibitions within the context of the recent expansion of interest in autobiography, disability and celebrity studies. It argues that these writings express anxiety over musical originality and authenticity and seeks to dispel their writers' celebrity status and particularly the association with a lack of seriousness. These works often constitute a meditation on the nature of postmodern fame within a celebrity obsessed culture and paradoxically they aim to regain the private self in a public forum. *The Beatles*, The Inner Light Susan Shumsky, 2022-10-25 The hidden meanings of the Beatles' most esoteric lyrics and sounds are revealed by a rare insider who spent two decades with the man who made meditation, mantra and yoga household words.
