The Ethics of the Family in Seneca Liz Gloyd, 2017-02-15 Model mothers A band of brothers The mystery of marriage The desirable contest between fathers and sons The imperfect imperial family Rewriting the family **A Family Venture** Joan E. Cashin, 1991-10-24 This book is about the different ways that men and women experienced migration from the Southern seaboard to the antebellum Southern frontier Based upon extensive research in planter family papers Cashin studies how the sexes went to the frontier with diverging agendas men tried to escape the family while women tried to preserve it On the frontier men usually settled far from relatives leaving women lonely and disoriented in a strange environment As kinship networks broke down sex roles changed and relations between men and women became more inequitable Migration also changed race relations because many men abandoned paternalistic race relations and abused their slaves However many women continued to practice paternalism and a few even sympathized with slaves as they never had before Drawing on rich archival sources Cashin examines the decision of families to migrate the effects of migration on planter family life and the way old ties were maintained and new ones formed **All in the Family** Gaia Gianni, 2025-08-18 Gaia Gianni's All in the Family explores how children shaped the development of pseudo familial bonds or fictive kinship in Roman society during the early imperial period Previous scholarship on the Roman family has primarily emphasized the patriarchal and nuclear structure of the Roman family with children often represented as passive actors in a vacuum Believing this to be an oversimplification of how the Roman family functioned Gianni in her study focuses on the ways in which Roman families raised children and formed long term relationships with individuals outside of the nuclear family such as friends neighbors nurses and caretakers who gradually became full fledged members of the family unit Through a wide variety of literary works legal documents and funerary epitaphs for children set up by their families and caregivers Gianni borrows from modern sociological and anthropological theories to argue that children acted as catalysts or connecting nodes in the creation of fictive kinship with individuals who were not part of the biologically determined family In addition to illuminating the roles and experiences of these figures All in the Family reveals how this social network was integrated into the family both in practice and in ideology presenting a more complex view of the Roman family than the traditional nuclear structure

Routes of Remembrance Bayo Holsey, 2008-09-15 Over the past fifteen years visitors from the African diaspora have flocked to Cape Coast and Elmina two towns in Ghana whose chief tourist attractions are the castles and dungeons where slaves were imprisoned before embarking for the New World This desire to commemorate the Middle Passage contrasts sharply with the silence that normally cloaks the subject within Ghana Why do Ghanaians suppress the history of enslavement And why is this history expressed so differently on the other side of the Atlantic *Routes of Remembrance* tackles these questions by analyzing the slave trade's absence from public versions of coastal Ghanaian family and community histories its troubled presentation in the country's classrooms and nationalist narratives and its elaboration by the transnational tourism industry Bayo Holsey discovers that in the past African involvement in the slave trade was used by Europeans to denigrate local residents and this stigma continues to shape the way Ghanaians imagine their historical past Today however due to international attention and the curiosity of young Ghanaians the slave trade has at last entered the public sphere transforming it from a stigmatizing history to one that holds the potential to contest global inequalities Holsey's study will be crucial to anyone involved in the global debate over how the slave trade endures in history and in memory

Family Or Freedom Emily West, 2012-10-18 In the antebellum South the presence of free people of color was problematic to the white population Not only were they possible assistants to enslaved people and potential members of the labor force their very existence undermined popular justifications for slavery It is no surprise that by the end of the Civil War nine Southern states had enacted legal provisions for the voluntary enslavement of free blacks What is surprising to modern sensibilities and perplexing to scholars is that some individuals did petition to rescind their freedom *Family or Freedom* investigates the incentives for free African Americans living in the antebellum South to sacrifice their liberty for a life in bondage Author Emily West looks at the many factors influencing these dire decisions from desperate poverty to the threat of expulsion and demonstrates that the desire for family unity was the most important consideration for

African Americans who submitted to voluntary enslavement The first study of its kind to examine the phenomenon throughout the South this meticulously researched volume offers the most thorough exploration of this complex issue to date
