Emotional Ethics of The Hunger Games Tarja Laine,2021-05-17 Emotional Ethics of The Hunger Games expands the ethical turn in Film Studies by analysing emotions as a source of ethical knowledge in The Hunger Games films It argues that emotions incorporated in the thematic and aesthetic organization of these films reflect a crisis in moral standards As such they cultivate ethical attitudes towards such phenomena as totalitarianism the culture of reality television and the society of spectacle The focus of the argument is on cinematic aesthetics which expresses emotions in a way that highlights their

ethical significance running the gamut from fear through guilt and shame to love anger and contempt The central claim of the book is that these emotions are symptomatic of some moral conflict which renders The Hunger Games franchise a meaningful commentary on the affective practice of cinematic ethics The Hunger Games movies have become iconic symbols for resistance across the globe Tarja Laine proposes that this is not caused by their status as exciting cinematic spectacles but by their engaging our emotions Laine uses The Hunger Games as key texts for understanding our world demonstrating that ethics do not originate from rational considerations far removed from those mucky things called emotions But rather that emotions are at the core of cinematic ethics William Brown Author of Supercinema Film Philosophy for the Digital Age In this elegantly written exploration of the relationship between aesthetics and emotion in The Hunger Gamestrilogy Tarja Laine illuminates the power of film to embody ethical conflict Deftly interweaving film philosophy and close analysis Laine traces how these films mobilise complex emotions nuancing our thinking about cinema and the spectator Laine s book takes The Hunger Games films seriously demonstrating with verve why they matter Catherine Wheatley Senior Lecturer in Film Studies King s College London UK In this fresh engaging and insightful study of The Hunger Games film trilogy Tarja Laine explores the crucial role that emotions play in appreciation of the ethical qualities of the movies She forges productive dialogues between a range of film theory scholarship on moral philosophy and debates on ethics as she performs a multi layered investigation of the aesthetic qualities of the trilogy the multiple emotions embodied in these qualities and the philosophical ethical insights that are in turn embedded in these emotions The cinematic connection between emotions and ethics that emerges through Laine s detailed textual analyses confronts us with complex moral dilemmas while enriching our aesthetic experience Sarah Cooper Professor Film Studies Department King s College London UK [New England Magazine](#) ,1895

When I decided to write the title for this narrative and memoir I could not resist the temptation to call this book Navy Grass
Most everyone will wonder why this title and now they will know It has been over fifty five years and I can still picture myself
