do you make it stand out from other romance novels that are already in the bookstores This is a question you must answer Once you have determined your genre and know exactly what you want to write about you should begin to think of marketing your book Make it something that prospective readers will choose when they see it in bookstores or online This will set it apart from other books of the same kind and lure readers to buy it You can make a career out of self publishing your books and marketing them to the right audience After you have decided on what you are going to write about and what will make your book stand out from the rest you can then begin to outline your book You should write down an outline of the book and the points you are trying to make Well written books convey a message Make sure your book conveys a good message to the readers that they can take away from the book While you may like the free form method of writing which is writing without doing any sort of outline you must still have an idea of the ending of the book in mind If you are writing a fiction book characters come alive as you write The ending you have in mind may change as you rewrite the book so it is important to be very flexible The way you write depends on the type of person you are If you wish to have everything ironed out for your book then you must write down an outline that will tell you where you are heading This is like having a roadmap for a car trip Get a copy of this well written book to learn all you need to know about self publishing and how you can use it to your advantage
