Soccer Hero Pilots:

Empire of the Clouds James Hamilton-Paterson, 2010-10-07 In 1945 Britain was the world's leading designer and builder of aircraft a world class achievement that was not mere rhetoric And what aircraft they were The sleek Comet the first jet airliner The awesome delta winged Vulcan an intercontinental bomber that could be thrown about the sky like a fighter The Hawker Hunter the most beautiful fighter jet ever built and the Lightning which could zoom ten miles above the clouds in a couple of minutes and whose pilots rated flying it as better than sex How did Britain so lose the plot that today there is not a single aircraft manufacturer of any significance in the country What became of the great industry of de Havilland or Handley Page And what was it like to be alive in that marvellous post war moment when innovative new British aircraft made their debut and pilots were the rock stars of the age James Hamilton Paterson captures that season of glory in a compelling book that fuses his own memories of being a schoolboy plane spotter with a ruefully realistic history of British decline its loss of self confidence and power It is the story of great and charismatic machines and the men who flew them heroes such as Bill Waterton Neville Duke John Derry and Bill Beaumont who took inconceivable risks so that we could fly without a second thought

Braithwaite,2017-03-02 Australia has an enviable record for airline safety No one has ever died in an accident involving a commercial jet aircraft in Australia The reasons behind this have been the source of much speculation and theories tend to focus on issues related to the natural environment and even luck However with human error being present in arguably 100% of aircraft accidents it seems reasonable that a good safety record is at least partly the consequence of human intervention This text uses Australian aviation as a case study of a safe system to explore the interactions between the natural operational and human environments Based on doctoral research including a major survey of pilot and air traffic controller perceptions the book is unusual in that it looks at positive examples in safety rather than taking the traditional reactive approach to safety deficiencies *The Dream of Civilized Warfare* Linda Raine Robertson,2003 In *The Dream of Civilized Warfare* Robertson presents the compelling story of the creation of the first American air force and how through the propaganda of the flying ace a vision of clean or civilized combat was sold to politicians and the public She traces the long history of the American desire to exert the nation s will throughout the world without having to risk the lives of ground soldiers a theme that continues to reverberate in public discussions media portrayals and policy decisions today *Sports Idols' Idols* Scott Lynn,2015-11-17 You probably had a childhood idolthat one special person who meant the world to you It might have been a family member a teacher or a coach Its also quite possible you were first drawn to a professional athlete you saw on television or read about in a magazine or newspaper Many of us once dreamed of becoming a pro athlete just like our first childhood hero But do the athletes we idolize have someone they considered to be extra special when they were kids In *Sports Idols Idols* nearly 150 past and present athletesincluding dozens of Hall of Famersshare stories about their very first childhood heroes They discuss what it was like the first time they met their idols Many experienced euphoria However a few were crushed when their encounters did not go as anticipated In this oral history some of the most well known sports figures from yesterday and today tell you about their idols and about special moments in their lives and careers Go ahead Reach for the stars In *Sports Idols Idols* sports fans of all ages will learn about the heroes of their heroes Fighter Pilot Parent Brick Connors,2019-08-20 Lead your most important team your kids with integrity honor and love There are no bad teams i e kids There are only less than perfect leaders i e parents So says former fighter pilot and parent of four retired US Navy Captain Brick Connors Connors believes good leadership drives every

successful outcome and good parenting is no different As a Navy Strike Fighter Pilot Brick amassed over 4500 hours and over 1000 carrier landings during multiple combat deployments So he understands all too well the critical importance of leadership in enabling those under his command to take off and return safely Every parent wants the same to have our children take off into the world and its adventures but to return home safely at the end of the day Connors links thrilling life and death experiences in leadership adversity and performance to practices and takeaways that will guide parents grandparents coaches military personnel and anyone else who wants to raise develop and lead children and young people Through tools gleaned from his own experience as a pilot parent and coach Connors shows how we can redefine our own leadership skills and develop the same in children so that they are equipped to deal with the unavoidable hazards of growing up As parents if we re not happy with how we ve handled parenting challenges in the past we will find ways to reevaluate and alter our course if we have acted on values and beliefs that were not always ideal we will learn how to take a different approach one that can lead our children to extraordinary trajectories increased success and lifelong happiness
