Theories of Distributive Justice Jeppe Platz, 2020-02-14 How should we design our economic systems Should we tax the rich at a higher rate than the poor Should we have a minimum wage Should the state provide healthcare for all These and many related questions are the subject of distributive justice and different theories of distributive justice provide different ways to think about and answer such questions This book provides a thorough introduction to the main theories of distributive justice and reveals the underlying sources of our disagreements about

economic policy It argues that the universe of theories of distributive justice is surprisingly simple yet complicated It is simple in that the main theories of distributive justice are just four in number and in that these theories each offer a distinct well defined theoretical approach to distributive justice yet it is complicated in that the main theories disagree at several distinct fundamental levels and in that it is possible to spin innumerable new theories from the elements of the four main theories Key Features Covers the four major theories of distributive justice and their leading philosophers elucidating the attractions and drawbacks of each Friedrich A von Hayek and right liberalism John Rawls and left liberalism Robert Nozick and libertarianism Gerald A Cohen and socialism Explains why these four theories have come to dominate most philosophical discussions on distributive justice highlighting the essential answer provided in each that is lacking in other theories Written for any reader interested in the topic with an annotated reading list at the end of each chapter and helpful glossary at the back of the book

Freedom After the Critique of Foundations A. Kioupkiolis,2012-07-25 An exploration of the contemporary re conception of freedom after the critique of objective truths and ideas of an unchanging human nature in which modern self determination was grounded This book focuses on the radical theorist Cornelius Castoriadis and the new paradigm of agonistic autonomy is contrasted with Marxian and liberal approaches Rawls, Dewey, and Constructivism Eric Thomas Weber,2010-09-23 Examines problems in Rawls epistemology approached from a Deweyan perspective to argue for a thoroughly constructivist idea of justice and its practical implications for education

The Skillful Self John Stopford,2009-03-16 The Skillful Self Liberalism Culture and the Politics of Skill presents a political liberal theory of cultural participation and the goals of cultural policy in contemporary pluralistic democracies The ideal of cultural participation which many regard as central to the self conception of modern constitutional democracies is often subject to the distorting influences of state perfectionism paternalism consumerism and ideology These distortions and the problems they raise are intensified by the forces of social cultural and economic globalization Using the tools of contemporary liberal theory The Skillful Self develops an approach to the politics of culture that focuses on the concept of skill and its place in a liberal conception of the self Support for this approach is derived from the work of Nussbaum and Sen who make a conception of human capability basic to their views of public policy and the design of political institutions But the politics of skill modifies the capability approach by characterizing the central human functional capabilities as functions of the skillful self The final chapters of the book describe the competences of the skillful self elaborating a new typology of skills and explaining why basic institutions are obliged to promote them To make the role of skill in the central capabilities explicit in this way is not to invoke the perfectionist ideal of a culture of skill but rather to focus on the structural role of skill in a nonperfectionist conception of truly human functioning and on the social conditions of individual capability viewed as a function of skill

Autonomy and the Challenges to Liberalism John Christman,Joel Anderson,2005-02-07 In recent years the concepts of individual autonomy and political liberalism have been the subjects of intense debate but these discussions have occurred

largely within separate academic disciplines *Autonomy and the Challenges to Liberalism* contains essays devoted to foundational questions regarding both the notion of the autonomous self and the nature and justification of liberalism. Written by leading figures in moral, legal, and political theory, the volume covers inter alia the following topics: the nature of the self and its relation to autonomy; the social dimensions of autonomy; and the political dynamics of respect and recognition and the concept of autonomy underlying the principles of liberalism.
