## Texte Et Ideologie:

**Texte et idéologie** Philippe Hamon, 1984      **Vers une théorie de la pratique théâtrale** Patrice Pavis, 2007-07-11 Au cours des vingt dernières années les études théâtrales en France se sont éloignées la fois d'une étude littéraire des textes et d'une approche purement linguistique et sémiotique des spectacles. Elles se sont efforcées de suivre et de décrire la pratique de la scène en vue d'une meilleure connaissance du phénomène théâtral. Cette étude rend compte de cette profonde mutation de la théorie de la sémiologie et de la pratique de l'art dramatique en analysant systématiquement texte, acteur, espace et réception. Sa matière est celle minemment instable de la mise en scène contemporaine, son esprit celui d'une confrontation ludique entre l'austérité du théâtre et sa plaisante pratique sur les scènes comme dans les ateliers.      **Genres as Repositories of Cultural**

**Memory**, 2021-12-28 This volume deals with the inherent relation between literary genres and cultural memory. Indeed generic repertoires may be regarded as bodies of shared knowledge, a sort of encyclopaedia or museum of stocked culture and have played and still play an important role in absorbing and activating that memory. The contributors have focused on some specific memory-linked genres that prove especially relevant in remembering and transforming past experiences, i.e. the post-modern historical novel and various forms of post-modern autobiographical writing. They deal with such renowned authors as Carlos Fuentes, Vargas Llosa, Umberto Eco, Antonio Tabucchi, John Barth, Julian Barnes, Michel Butor, Nathalie Sarraute, Alain Robbe-Grillet, Claude Simon, Georges Perec and Marguerite Yourcenar. The volume thus constitutes an attractive and representative sample of post-modern forms of rewriting and problematizing individual and collective pasts.

*Roman africain et idéologie* Laté Bégnon Lawson-Hellu, 2004      **Das Problem der alt-orientalischen Königsideologie im Alten Testament** Bernhardt, 2015-02-04      *Texte et idéologie* Philippe Hamon, 1997 La relation aux règles, le savoir-vivre au sens large de ce terme avec son appareil de normes, de principes, de manières de table et autres de sanctions, d'évaluations et de canevas plus ou moins codés qu'ils soient prohibitifs, prescriptifs ou permissifs constitue le matériau et le sujet principal de tout roman. Mais le texte romanesque d'abord par divers procédés cumule que le réel n'est pas releuable d'une norme unique qu'il est fondamentalement carrefour d'univers de valeurs dont les frontières et les compétences ne sont pas forcément toujours parfaitement ajustées, complémentaires ou distinctes.      A Semiotic Landscape.

Panorama sémiotique Seymour Chatman, Umberto Eco, Jean M. Klinkenberg, 2019-05-20 No detailed description available for A Semiotic Landscape Panorama sémiotique      **La Sociocritique: enjeux théorique et idéologique** Adama Samake (dir.), 2013-07-18 La sociocritique se veut synthétiser de toutes les théories de l'homme et de sa production. Si cette orientation a l'inconvénient de lui donner un caractère polysémique, source de confusion et d'usage abusif, elle lui permet néanmoins d'être toujours en mergence avec un vaste champ d'exploitation de ses ressources pédagogiques et analytiques. Ainsi s'explique l'apport considérable de la sociologie de la culture. Toutefois la sociologie des champs est sujette à controverse dans le monde universitaire sur la question du champ littéraire africain. Aussi s'agit-il d'entreprendre un ensemble de réflexions théoriques

pendant au besoin de recentrage afin de permettre un emploi rigoureux et opératoire de la sociocritique et de susciter le débat sur la problématique du champ littéraire africain au regard de la définition de la sociologie des champs de Pierre Bourdieu. Un outil n'est qu'un moyen, il ne saurait jamais être une fin en soi. Vrit que nous rappelle cette réflexion collective qui passe la sociocritique au crible de la critique revenant sur ses objectifs et modalités mais encore ses limites. Et les auteurs de cet opus de livrer un effort intellectuel sans doute sain qui refuse l'enchaînement aveugle une cole et qui veut penser la valeur la pertinence et l'usage du recours une telle démarche interprétative. S'il se veut ainsi minemment théorique, cet ouvrage n'en demeure pas moins accessible. En cela, il sera particulièrement fécond auprès des jeunes chercheurs qui y trouveront de quoi faire retour sur leur propre pratique herméneutique.

**Aesthetics and Ideology in Contemporary Literature and Drama**

René Agostini, Madelena Gonzalez, 2015-09-10 The conviction that the development and promotion of the arts, humanities and culture through the study of literature and the aesthetic are the fundamental constituents of any progress in society is at the heart of this volume. The essays gathered here explore the role of the imagination and aesthetic awareness in an age when the corporatization of knowledge is in the process of transforming literary studies and political commitment is in danger of disappearing behind a supposedly post-ideological, late capitalist consensus. The main focus of the volume is the mutual implication of aesthetics and ideology and the status and value of different types of art within the political arena. Challenging issues in contemporary aesthetics are examined within the wider framework of current debates on the disappearance of the real, the crisis in representation and the use of new media. The wide range of examples collected here stretching from experimental poetry in post-war Germany, political commitment in twentieth-century French theatre and countercultural Rumanian theatre under Ceaușescu to Neo-Victorian fiction, Verbatim theatre in the UK and political theatre for the masses in Estonia, vouchsafe unique insights into the intersection of aesthetics and ideology and the practical consequences thereof. As such, the volume opens up a space for a meaningful engagement with authentic forms of art from inside and outside the Anglosphere and ultimately uses these examples as a platform from which to imagine some form of aesthetics representing an ideal union of aesthetics and ideology. This concept, first coined by the French philosopher Philippe Lacoue-Labarthe, will prove to be relevant both within the parameters of the examples discussed here but also beyond. For the contributors to this volume are unanimous in refusing to believe that aesthetics and ideology can exist one without the other and in recognizing the centrality of ethics in any discussion of these notions.

**Dance as Text: Ideologies of the Baroque Body** Mark

Franko, 2015-06-30 Dance as Text: Ideologies of the Baroque Body is a historical and theoretical examination of French court ballet over a hundred-year period beginning in 1573 that spans the late Renaissance and early baroque. Utilizing aesthetic and ideological criteria, author Mark Franko analyzes court ballet librettos, contemporary performance theory and related commentary on dance and movement in the literature of this period. Examining the formal choreographic apparatus that

characterizes late Valois and early Bourbon ballet spectacle Franko postulates that the evolving aesthetic ultimately reflected the political situation of the noble class which devised and performed court ballets He shows how the body emerged from verbal theater as a self sufficient text whose autonomy had varied ideological connotations most important among which was the expression of noble resistance to the increasingly absolutist monarchy Frankos analysis blends archival research with critical and cultural theory in order to resituate the burlesque tradition in its politically volatile context Dance as Text thus provides a picture of the complex theoretical underpinnings of composite spectacle the ideological tensions underlying experiments with autonomous dance and finally the subversiveness of Molières use of court ballet traditions

**A Clash of Ideologies** Randall Reed, 2010-04-01 Marxism is one of the revolutionary social scientific theories that has come to have a prominent place in New Testament studies in the United States It is often combined with liberation theology and applied to apocalyptic texts This book argues that the basic presuppositions of these three ideological systems are ultimately at odds with one another The study then traces the kinds of moves scholars in New Testament studies have made to overcome this problem

**War and Its Ideologies** Annabelle Lukin, 2018-10-09 Ideology is so powerful it makes us believe that war is rational despite both its brutal means and its devastating ends The power of ideology comes from its intimate relation to language ideology recruits all semiotic modalities but language is its engine room Drawing on Halliday s linguistic theory in particular his account of the semiotic big bang this book explains the latent semiotic machinery of language on which

ideology depends The book illustrates the ideological power of language through a study of perhaps the most significant and consequential of our ideologies those that enable us to legitimate celebrate even venerate war at the same time that we abhor denounce and proscribe violence To do so it makes use of large multi register corpora including the British National Corpus and the reporting of the 2003 invasion of Iraq by Australian US European and Asian news sources Combining detailed text analysis with corpus linguistic methods it provides an empirical analysis showing the astonishing reach of our ideologies of war and their profoundly covert and coercive power
