Textile Tools Of Colonial Homes:

The Textile Tools of Colonial Homes Marion L. Channing, 1971 **The Textile Tools of Colonial Homes**, 1971 A History Of Textiles Kax Wilson, 2021-11-28 Originally published in 1979 this volume acts as a reference for the history textiles. It asks questions on the effect of technology on textiles: how did particular historical periods and locations expand or limit the possibilities for the manufacture of fabrics and how the textile history related to politics and economics, sociology and psychology, art and engineering, anthropology and archaeology, chemistry and physics. Addressing these questions, the author surveys the development of the technical components of fabrics and discusses the textiles of selected places and times. She uses prose drawings and more than 130 photographs to show how each era of textile production reflects its age. This book is designed to serve as a college text and as a reference work for museum researchers. With sections including illustrations and diagrams, key terminology, spinning wool, spinning and raw materials, single ply and cord and fabric construction. A Weaver's Garden Rita Buchanan, 2012-07-03 Valuable hints on dyeing fibers and fabrics, soap plants to use for cleaning textiles, fragrant plants to scent and protect fabrics, planning and creating a garden featuring cotton, flax, indigo and much more. **Textile traditions of eastern Newfoundland** Gerald L. Pocius, 1979-01-01 A description of the once communal and now individual activity of textile production in eastern Newfoundland, including dyeing techniques, fancywork and the creation of mittens, socks, sweaters, mats and quilts. The author identifies an emphasis on the quality of the product rather than strict adherence to stylistic norms and suggests that higher household incomes and the increased availability of commercial textiles have led to fewer individuals practicing this art. Published in English. **Handweaving** Isabel Buschman, 1991 Buschman annotates more than 550 books and periodical titles published on the techniques and history of handweaving from 1928 through October 1989. She includes works on how to weave, basic weaving texts, books on looms and equipment and patterns both for weaving and for woven articles, handweaving history and historic fabrics from around the world, works on Native American weaving ranging from the Chilkats of the Northwest coast of North America to the Pueblos and Navajos of our Southwest, Mexico and Central America, and on through the rich weaving culture of the Andes. Reference works containing specialized bibliographies and information on fibers, dyes, education and marketing and periodicals. With author title and subject indexes. **The Weaver's Craft** Adrienne D. Hood, 2011-01-01 Cloth was one of the most important commodities in the early modern world and colonial North Americans had to develop creative strategies to acquire it. Although early European settlers came from societies in which hand textile production was central to the economy, local conditions in North America interacted with traditional craft structures to create new patterns of production and consumption. *The Weaver's Craft* examines the development of cloth manufacture in early Pennsylvania from its roots in seventeenth century Europe to the beginning of industrialization. Adrienne D. Hood's focus on Pennsylvania and the long sweep of history yields a new understanding of the complexities of early American fabric production and the regional

variations that led to distinct experiences of industrialization Drawing on an extensive array of primary sources combined with a quantitative approach the author argues that in contrast to New England rural Pennsylvania women spun the yarn that a small group of trained male artisans wove into cloth on a commercial basis throughout the eighteenth century Their production was considerably augmented by consumers purchasing cheap cloth from Europe and Asia making them active participants in a global marketplace Hood s painstaking research and numerous illustrations of textile equipment swatch books and consumer goods will be of interest to both scholars and craftspeople *Shaker Textile Arts* Beverly Gordon,1982-07 A comprehensive book on the kinds of textiles the Shakers used how they were produced and their cultural and economic importance to the communities **Labor and Laborers of the Loom** Gail Fowler Mohanty,2012-11-12 Labor and Laborers of the Loom Mechanization and Handloom Weavers 1780 1840 develops several themes important to understanding the social cultural and economic implications of industrialization The examination of these issues within a population of extra factory workers distinguishes this study The volume centers on the rapid growth of handloom weaving in response to the introduction of water powered spinning This change is viewed from the perspectives of mechanics technological limitations characteristics of weaving skills income and cost In the works of Duncan Bythell and Norman Murray the displacement of British and Scottish hand weavers loomed large and the silence of American handloom weavers in similar circumstances was deafening This study reflects the differences between the three culture by centering not on displacement but on survival Persistence is closely tied to the gradual nature of technological change The contrasts between independent commercial artisans and outwork weavers are striking Displacement occurs but only among artisans devoting their time to independent workshop weaving Alternatively outwork weavers adapted to changing markets and survived The design and development of spinning and weaving device is stressed as are the roles of economic conditions management organization size of firms political implications and social factors contribute to the impact of technological change on outwork and craft weavers **Publications of the American Folklife Center** ,1977 **Catalog of Copyright Entries.
