Textiles in Perspective Betty F. Smith, Ira Block, 1982 *Ancient Textile Production from an Interdisciplinary Perspective* Agata Ulanowska, Karina Grömer, Ina Vanden Berghe, Magdalena Öhrman, 2022-04-29 The diverse developments in textile research of the last decade along with the increased recognition of the importance of textile studies in adjacent fields now merit a dedicated full length publication entitled *Ancient Textile Production from an Interdisciplinary Perspective* Humanities and Natural Sciences Interwoven for our Understanding of Textiles With this volume the authors and the editors wish to illustrate to the current impact of textile archaeology on the scholarly perception of the past not limited to archaeology alone The volume presents new insights into the consumption meaning use and re use of textiles and dyes all of which are topics of growing importance in textile research As indicated by the title we demonstrate the continued importance of interdisciplinarity by showcasing several interwoven approaches to environmental and archaeological remains textual and iconographic sources archaeological experiments and ethnographic data from a large area covering Europe and the Mediterranean Near East Africa and Asia The chronological span is deliberately wide including materials dating from c 6th millennium BCE to c mid 14th century CE The volume is organised in four parts that aim to reflect the main areas of the textile research in 2020 After the two introductory chapters Part I About this Volume and Textile Research in 2020 follow two chapters referring to dyes and dyeing technology in which analytical and material based studies are linked to contextual sources Part II Interdisciplinarity of Colour Dye Analyses and Dyeing Technologies The six chapters of Part III Interdisciplinary Approaches to Textile Tools discuss textiles and textile production starting from the analyses of tools whether functional or as representative of technological developments or user identity Archaeological and cultural contexts as well as textile traditions are the main topics of the six chapters in Part IV Traditions and Contexts Fibres Fabrics Techniques Uses and Meanings The two final chapters in Part V Digital Tools refer to the use of digital tools in textile research presenting two different case studies **The Persian Textile Industry in Historical Perspective 1500-1925** Willem Floor, 1999-11-01 Cette tude pr sente une analyse socio conomique de l industrie textile en Perse de 1500 1925 De nombreux th mes y sont trait s caract ristiques g n rales de la production et son volution pr sentation des v tements f minins et masculins en Perse les sites de production les divers types et emplois la commercialisation et l volution du ch le un glossaire des termes techniques concernant tissus et artisanats textiles **Crafting Textiles in the Digital Age** Nithikul Nimkulrat, Faith Kane, Kerry Walton, 2016-09-08 In an era of increasingly available digital resources many textile designers and makers find themselves at an interesting juncture between traditional craft processes and newer digital technologies Highly specialized craft design practitioners may now elect to make use of digital processes in their work but often choose not to abandon craft skills fundamental to their practice and aim to balance the complex connection between craft and digital processes The essays collected here consider this transition from the viewpoint of aesthetic opportunity arising in the textile

designer's hands on experimentation with material and digital technologies available in the present Craft provides the foundations for thinking within the design and production of textiles and as such may provide some clues in the transition to creative and thoughtful use of current and future digital technologies Within the framework of current challenges relating to sustainable development globalization and economic constraints it is important to interrogate and question how we might go about using established and emerging technologies in textiles in a positive manner

Antimicrobial Textiles from Natural Resources Md. Ibrahim H. Mondal, 2021-03-20 The textile industry is focused in its search for alternative green fibres with the aim of providing high quality products which are fully recyclable and biodegradable Natural textile materials from renewable sources play an increasingly important role in the industry due to their unique properties and functionality over synthetic fibres as well as their sustainability Antimicrobial Textiles from Natural Resources is an in depth guide to the latest methods and applications of natural antimicrobial materials A broad range of applications are addressed from common to specialized applications including many in the biomedical sector This world class collection of contributors write from a range of disciplinary backgrounds providing important insights from textile science and technology materials science chemical engineering and biomedical engineering Advice and proposed solutions are presented in a rigorous and practical way drawing on results and case studies obtained from academic and industrial laboratories worldwide Examines how natural fibres can be used in the place of less renewable or sustainable choices thus helping designers improve the sustainability of their products Provides unique coverage of the biofunctionality of biopolymers in textiles Explains how antimicrobial properties can reduce odour extend the life of textiles and provide numerous medical benefits

Textiles and Industrial Transition in Japan Dennis L. McNamara, 2019-05-15 Most of Japan's leading textile firms date back to the turn of the century Unlike many of their Western competitors however Japan's larger companies have survived the decline of a sector consumed by fierce international competition Providing the fullest English language account of Japanese textiles Dennis L. McNamara

explores the entire sweep of the industry from factory to high fashion brokerage to policymaking circle Tracing the strategies by which the textile industry has survived he provides a distinctive view of Japanese capitalism in a climate of change McNamara reconstructs a world riven by the competing interests of state and capital firm and industry labor and management mill and merchant We encounter giant mogul companies and upstart independent mavericks such firms as Toray Toyobo Itochu Tsuzuki Kondobo Onward and Renown all hustling to restructure for survival Drawing on extensive interview data as well as recent Japanese and English language work in political economy and social anthropology McNamara describes a dynamic of competition between moguls and mavericks in a turbulent business torn by divisions but bound together by compromise He finds that despite enormous international pressures the industry has maintained much of its market share largely because state bureaucrats and leaders of major firms have managed to create a cooperative politics of adjustment A corporatist structuring of interests he concludes has helped to moderate decline and maintain stability permitting survival among the moguls without preventing the successful participation of mavericks
