Textiles and Clothing of Việt Nam Michael C. Howard, 2016-08-01 Việt Nam is the home of more than fifty ethnic minorities such as the Cham and Thai many of which have distinctive clothing and weaving traditions linked to antiquity The tight fitting tunic called ao dai widely recognized as a national symbol has its roots in the country's 2 000 year history of textiles Beginning with silk production in the Bronze Age cultures of the Red River this book covers textiles in Việt Nam including bark cloth kapok and hemp through the centuries of Chinese rule in the north a number of independent feudal societies and the brief period of French colonial rule Fashion and Orientalism Adam Geczy, 2013-08-15 Orientalism is a central factor within the fashion system both subtle and overt In this groundbreaking book the author shows the extent of the influence that the Orient had and continues to have on fashion Our concept of Western fashion is unthinkable without it whether in terms of the growth of the cotton industry or of garments we take for granted such as the dressing gown From pre modern to contemporary times this book demonstrates that in the realms of fashion the Orient is not simply a construction or a fascination of the imperial West with its eastern other Rather it reveals the extent of cross pollination exchange and multiple translation that has taken place between East and West for the last 500 years Exploring topics including Chinoiserie masquerade bohemianism Japonisme the de Orientalization of the Orient perfume and the birth of couture Fashion and Orientalism is an essential read for students and scholars of fashion cultural studies and history

Burns, 2016-04-30 The varied cultural functions of dress textiles and clothwork are used in this collection of essays to examine long standing assumptions about the Middle Ages At one end of the spectrum questions of dress call up feminist theoretical investigations into the body and subjectivity while broadening those inquiries to include theories of masculinity and queer identity as well At the other extreme the production and distribution of textiles carries us into the domain of economic history and the study of material commodities trade and cultural patterns of exchange within western Europe and between east and west Contributors to this volume represent a broad array of disciplines currently involved in rethinking medieval culture in terms of the material world
