Illustrating the Past in Early Modern England James A. Knapp, 2017-07-28 Illustrating the Past is a study of the status of visual and verbal media in early modern English representations of the past It focuses on general attitudes towards visual and verbal representations of history as well as specific illustrated books produced during the period Through a close examination of the relationship of image to text in light of contemporary discussions of poetic and aesthetic practice the book demonstrates that the struggle between the image and the word played a profoundly important role in England's emergent historical self awareness The opposition between history and story fact and fiction often tenuous provided a sounding board for deeper conflicts over the form in which representations might best yield truth from history The ensuing schism between poets and historians over the proper venue for the lessons of the past manifested itself on the pages of early modern printed books The discussion focuses on the word and image relationships in several important illustrated books printed during the second half of the sixteenth century including Holinshed's Chronicles 1577 and Foxe's Book of Martyrs 1563 1570 in the context of contemporary works on history and poetics such as Sir Philip Sidney's Apology for Poetry and Thomas Blundeville's The true order and Method of wryting and reading Hystories Illustrating the Past specifically answers two important questions concerning the resultant production of literary and historical texts in the period Why did the use of images in printed histories suddenly become unpopular at the end of the sixteenth century and What impact did this publishing trend have on writers of literary and historical texts

Ashgate Critical Essays on Women Writers in England, 1550-1700 Karen Raber, 2017-05-15 Elizabeth Cary's Tragedy of Mariam the first original drama written in English by a woman has been a touchstone for feminist scholarship in the period for several decades and is now one of the most anthologized works by a Renaissance woman writer Her History of Edward II has provided fertile ground for questions about authorship and historical form The essays included in this volume highlight the many evolving debates about Cary's works from their complicated generic characteristics to the social and political contexts they reflect to the ways in which Cary's writing enters into dialogue with texts by male writers of her time In its critical introduction the volume offers a thorough analysis of where Cary criticism has been and where it might venture in the future

Literature and Medievalism in Early Modern England Mike Rodman Jones, 2024-11-05 Directs scholarly focus towards a deeper appreciation of medievalist trends in the

Elizabethan literary landscape and challenges traditional narratives of modernity Themes and motifs from the Middle Ages are found across the drama poetry prose fiction polemic and satire of the later Elizabethan and early Jacobean period but their impact and influence on this literary landscape have rarely been considered This study offers a nuanced examination of this intricate interplay between pre Reformation culture and its post Reformation reception in England Each chapter explores a particular genre or aspect of medievalism at play in this writing civic medievalism literary adaptation and satire in ecclesiastical polemic multiple uses of temporality in post Marprelarian prose fiction the poetics of memorialisation and voice in medievalist complaint poetry and the construction of Reformation history and confessional difference on the stage in the early Jacobean period Moving beyond canonical writers such as Shakespeare and Spenser the book deals in detail with the drama of Thomas Heywood and Thomas Dekker alongside unattributed plays the prose fiction of Robert Greene Thomas Deloney Henry Chettle and anonymous others the historical verse of Samuel Daniel and Michael Drayton and the polemical writing of Samuel Harsnett Job Throckmorton and Matthew Sutcliffe Through a meticulous analysis of these writers and their works it shows how medieval texts were creatively deployed and adapted in new literary forms fashioning the emergence of early forms of medievalism and challenging conventional notions of temporal and cultural divides

Cavanagh, 2003-12-12 Language and Politics in the Sixteenth Century History Play examines a key preoccupation of historical drama in the period 1538 1600 the threat presented by uncivil language Unlicensed speech informs the presentation of political debate in Tudor history plays and it is also the subject of their most daring political speculations By analyzing plays by John Bale Thomas Norton Thomas Sackville and Robert Greene as well as Shakespeare this study also argues for a more inclusive approach to the genre

Literature and the Idea of Luxury in Early Modern England Alison V. Scott, 2016-05-06 Exploring the idea of luxury in relation to a series of neighboring but distinct concepts including avarice excess licentiousness indulgence vitality abundance and waste this study combines intellectual and cultural historical methods to trace discontinuities in luxury's conceptual development in seventeenth century England The central argument is that as luxury was gradually Englished in seventeenth century culture it developed political and aesthetic meanings that connect with eighteenth century debates even as they oppose their so called demoralizing thrust Alison Scott closely examines the meanings of luxury in early modern English culture through literary and rhetorical uses of the idea She argues that while luxury could and often did denote merely lust or licentiousness as it tends to be glossed by modern editors of contemporary works its cultural lexicon was in fact more complex and fluid than that at this time Moreover that fuller understanding of its plural and shifting meanings as they are examined here has

implications for the current intellectual history of the idea in Western thought The existing narrative of luxury's conceptual development is one of progressive upward transformation beginning with the rise of economic liberalism amidst eighteenth century debates it is one that assumes essential continuity between the medieval treatment of luxury as the sin of luxuria and early modern notions of the idea even as social practises of luxury explode in early seventeenth century culture

Books and Readers in Early Modern England Jennifer Andersen, Elizabeth Sauer, 2012-07-28 Books and Readers in Early Modern England examines readers reading and publication practices from the Renaissance to the Restoration The essays draw on an array of documentary evidence from library catalogs prefaces title pages and dedications marginalia commonplace books and letters to ink paper and bindings to explore individual reading habits and experiences in a period of religious dissent political instability and cultural transformation Chapters in the volume cover oral scribal and print cultures examining the emergence of the public spheres of reading practices Contributors who include Christopher Grose Ann Hughes David Scott Kastan Kathleen Lynch William Sherman and Peter Stallybrass investigate interactions among publishers texts authors and audience They discuss the continuity of the written word and habits of mind in the world of print the formation and differentiation of readerships and the increasing influence of public opinion The work demonstrates that early modern publications appeared in a wide variety of forms from periodical literature to polemical pamphlets and reflected the radical transformations occurring at the time in the dissemination of knowledge through the written word These forms were far more ephemeral and far more widely available than modern stereotypes of writing from this period suggest

Eros and Poetry at the Courts of Mary Queen of Scots and James VI S. Dunnigan, 2002-11-05 Eros and Poetry examines the erotics of literary desire at the Stewart court in Scotland during the reigns of Mary Queen of Scots and James VI Encompassing the period from the early 1560s to the late 1590s this is the first study to link together Scottish Marian and Jacobean court literatures presenting a relatively unknown body of writing newly theorized and contextualized It argues that in this period erotic poetry can only be considered in relation to the figure of the monarch and that the formation of elite lyric culture takes place under the shaping influence of desire for and against the sovereign and her or his passional and symbolic powers

The Countesse of Pembrokes Arcadia and the Invention of English Literature J. Davis, 2011-11-07 Revises the semiotic paradigm of the early modern literary system dominant since 1983 by adapting methods entailed in the idea that literary works emerge through a series of semiotic events Davis analyzes Philip Sidney's Arcadia and Astrophil and Stella to demonstrate how design elements stage the scene of reading these works

Of Books and Botany in Early Modern England Leah Knight, 2016-12-05 Contemplating the textual gardens poetic garlands and epigrammatic groves which dot the landscape of early modern English print Leah Knight exposes and analyzes the close configuration of plants and writing in the period She argues that the early modern cultures and cultivation of plants and books depended on each other in historically specific and novel ways that yielded a profusion of linguistic conceptual metaphorical and material intersections Examining both poetic

and botanical texts as well as the poetics of botanical texts this study focuses on the two outstanding English botanical writers of the sixteenth century William Turner and John Gerard to suggest the unexpected historical relationship between literature and science in the early modern genre of the herbal In depth readings of their work are situated amid chapters that establish the broader context for the interpenetration of plants and writing in the period s cultural practices in order to illuminate a complex interplay between materials and discourses rarely considered in tandem today The Excommunication of Elizabeth I Aislinn Muller,2020-04-14 In *The Excommunication of Elizabeth I* Aislinn Muller examines the excommunication and deposition of Queen Elizabeth I of England by the Roman Catholic Church and its political afterlife during her reign Muller shows that Elizabeth s excommunication was a crucial turning point for both Catholics and Protestants one that irrevocably changed attitudes towards the queen widened political participation and resistance and posed a destabilising threat to her regime *The Excommunication of Elizabeth I* demonstrates how this event exacerbated religious tensions in England s foreign and domestic politics and how Elizabeth s conflict with the papacy shaped the development of anti Catholicism in post Reformation England **Women Letter-Writers in Tudor England** James Daybell,2018-09-26 This book represents the most comprehensive study of women s letters and letter writing during the early modern period so far undertaken and acts as an important corrective to traditional ways of reading and discussing letters as private elite male and non political Based on over 3 000 manuscript letters it shows that letter writing was a larger and more socially diversified area of female activity than has been hitherto assumed In that letters constitute the largest body of extant sixteenth century women s writing the book initiates a reassessment of women s education and literacy in the period As indicators of literacy letters yield physical evidence of rudimentary writing activity and abilities document higher forms of female literacy and highlight women s mastery of formal rhetorical and epistolary conventions The book also stresses that letters are unparalleled as intimate and immediate records of family relationships and as media for personal and self reflective forms of female expression Read as documents that inscribe social and gender relations letters shed light on the complex range of women s personal relationships as female power and authority fluctuated negotiated on an individual basis Furthermore correspondence highlights the important political roles played by early modern women Female letter writers were integral in cultivating and maintaining patronage and kinship networks they were active as suitors for crown favour and operated as political intermediaries and patrons in their own right using letters to elicit influence Letters thus help to locate differing forms of female power within the family locality and occasionally on the wider political stage and offer invaluable primary evidence from which to reconstruct the lives of early modern women **Secret Shakespeare** Richard Wilson,2024-06-04 Shakespeare s Catholic context was the most important literary discovery of the last century No biography of the Bard is now complete without chapters on the paranoia and persecution in which he was educated or the treason which engulfed his family Whether to suffer outrageous fortune or take up arms in suicidal resistance was as Hamlet

says the question that fired Shakespeare's stage In *Secret Shakespeare* Richard Wilson asks why the dramatist remained so enigmatic about his own beliefs and so silent on the atrocities he survived Shakespeare constructed a drama not of discovery like his rivals but of darkness deferral evasion and disguise where for all his hopes of a golden time of future toleration What's to come is always unsure Whether or not He died a papist it is because we can never pluck out the heart of his mystery that Shakespeare's plays retain their unique potential to resist This is a fascinating work which will be essential reading for all scholars of Shakespeare and Renaissance studies **Sonnets and the English Woman Writer, 1560-1621** R.

Smith, 2005-09-27 This study explores why women in the English Renaissance wrote so few sonnet sequences in comparison with the traditions of Continental women writers and of English male authors In this focus on a single genre Rosalind Smith examines the relationship between gender and genre in the early modern period and the critical assumptions currently underpinning questions of feminine agency within genre *English Funerary Elegy in the Seventeenth Century* A.
