**Which Degree Guide** ,2001      **Understanding Children's Literature** Peter Hunt,2006-05-17 Edited by Peter Hunt a leading figure in the field this book introduces the study of children s literature addressing theoretical questions as well as the most relevant critical approaches to the discipline The fourteen chapters draw on insights from academic disciplines ranging from cultural and literary studies to education and psychology and include an essay on what writers for children think about their craft The result is a fascinating array of perspectives on key topics in children s literature as well as an introduction to such diverse concerns as literacy ideology stylistics feminism history culture and bibliotherapy An extensive general bibliography is complemented by lists of further reading for each chapter and a glossary defines critical and technical terms making the book accessible for those coming to the field or to a particular approach for the first time In this second edition there are four entirely new chapters contributors have revisited and revised or rewritten seven of the chapters to reflect new thinking while the remaining three are classic essays widely acknowledged to be definitive Understanding Children s Literature will not only be an invaluable guide for students of literature or education but it will also inform and enrich the practice of teachers and librarians      The Social Construction of Meaning John Yandell,2013-09-27 This book takes a fresh look at secondary urban English classrooms and at what happens when students and their teachers explore literature collaboratively By closely examining what happens in English lessons minute by minute it reveals how literary texts function not as a valorised heritage to be transmitted but as a resource for the students work of cultural production and contestation The reading that is undertaken in classrooms has tended to be construed as either a poor substitute or merely a preparation for other reading particularly for that paradigmatic literacy event the absorbed and simultaneously discriminating consumption of the literary text by the independent private reader This book argues for a different understanding of what constitutes reading an understanding that is informed by historical and ethnographic perspectives and by psychological and semiotic theory It presents the case for a conception of reading as an active collaborative process of meaning making and for a fully social model of learning Drawing extensively on data gathered through classroom observation and filming of English lessons taught over the course of a year by two teachers in a London secondary school the book explores students engagement with literary texts and the pedagogy that facilitates this engagement The book offers new insights into reading and reading literature in particular It challenges the paradigm of reading that is offered in government

policy and the assumption common to much work within the field of new literacies that schooled literacy is the already known the default against which the alternative literacy practices of homes and communities can be defined It will be valuable reading for researchers teachers teacher educators and postgraduate students and will have particular appeal for those with an interest in the fields of English studies and literacy      **English Literature in Context** Paul Poplawski, 2017-05-18 From Anglo Saxon runes to postcolonial rap this undergraduate textbook covers the social and historical contexts of the whole of the English literature      Resources in Education ,1994
