Poetry and Pedagogy J. Retallack,J. Spahr,2016-04-30 This anthology is a new reading of the contemporary poetries The collection gathers together the work of a number of scholars poets and teachers on the challenges and productive possibilities that arise when teaching contemporary writing today *Inciting Poetics* Jeanne Heuving,Tyrone

Williams,2019-06-15 The essays in *Inciting Poetics* provide provocative answers to the book's opening question: What are poetics now? Authored by some of the most important contemporary poets and critics, the essays present new theoretical and practical approaches to poetry and poetics that address current topics and approaches in the field as well as provide fresh readings of a number of canonical poets. The four sections—What is Poetics, Critical Interventions, Cross Cultural Imperatives, and Digital Capital and Institutional Frames—create a basis on which both experienced readers and newcomers can build an understanding of how to think and write about poetry. The diverse voices throughout the collection are both informative and accessible and offer a rich exploration of multiple approaches to thinking and writing about poetry today. **Louis**

Zukofsky and the Transformation of a Modern American Poetics Sandra Kumamoto Stanley,2023-04-28 Viewing Louis Zukofsky as a reader-writer and innovator of twentieth-century poetry, Sandra Stanley argues that his works serve as a crucial link between American modernism and postmodernism. Like Ezra Pound, Zukofsky saw himself as a participant in the transformation of a modern American poetics, but unlike Pound, Zukofsky—the ghetto-born son of an immigrant Russian Jew—was keenly aware of his marginal position in society. Championing the importance of the little words, such as *a* and *the*, Zukofsky effected his own proletarian revolution of the word. Stanley explains how Zukofsky emphasized the materiality of language, refusing to reduce it to a commodity controlled by an authorial, authoritarian self. She also describes his legacy to contemporary poets, particularly such language poets as Ron Silliman and Charles Bernstein. Viewing Louis Zukofsky as a reader-writer and innovator of twentieth-century poetry, Sandra Stanley argues that his works serve as a crucial link between American modernism and postmodernism. Like Ezra Pound, Zukofsky saw himself as a parti *Global Perspectives on Nationalism* Debajyoti Biswas, Panos Eliopoulos, John C. Ryan,2022-12-16 *Global Perspectives on Nationalism* takes an interdisciplinary approach informed by recent theorisations of nationalism to examine perennial questions on the topic. The idea of nationalism centres on questions of ethnicity, culture, religion, language, and access to resources. What determines consciousness of nationalism? How is nationalism manifested, shaped, or countered through literary and cultural productions? The contributors highlight topical areas in studies of nationalism, including ecology, natural resources, sustainability, globalisation, the Anthropocene, postcolonialism, indigeneity, folklore, popular culture, and queer theory. They develop innovative perspectives on nationalism through in-depth analyses of the theoretical, political, literary, linguistic, cultural, and ecological dimensions of nationalism in Argentina, Australia, Bangladesh, Bosnia and Herzegovina, China, Germany, Greece, India, Indonesia, Lebanon, Nepal, Nigeria, Poland, Scotland, Turkey, the United States, and elsewhere. This volume underscores the importance of generative dialogue between disciplines in assessing the implications of nationalism for everyday life through five thematic sections: I Ethnicity, Ideology, and Narration; II Religion, Identity, and Heritage; III Linguistics, Tradition, and Modernism; IV Music, Lyricism, and Poetics; and V Ecology, Environment, and Non-Human Lives. This book will be of particular value to students and researchers in philosophy, literary studies, and political theory with interests spanning

ecology ethnicity folklore gender heritage identity linguistics nationalism nationhood religion and sexuality **Procedural Form in Postmodern American Poetry** D. Huntsperger, 2010-03-29 This book explores the political significance of formal experimentation in American poetry written during the 1960s 70s and 80s It focuses on the use of procedural forms which involve the invention of rules or methods designed to structure the production of a poem's content **A Dictionary of the Avant-Gardes**, 2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and performance art as well as architecture science and culture

The Constructivist Moment Barrett Watten, 2012-01-01 Winner of the American Comparative Literature Association's Rene Wellek Prize 2004 As one of the founding poets and editors of the Language School of poetry and one of its central theorists Barrett Watten has consistently challenged the boundaries of literature and art In *The Constructivist Moment* he offers a series of theoretically informed and textually sensitive readings that advance a revisionist account of the avant garde through the methodologies of cultural studies His major topics include American modernist and postmodern poetics Soviet constructivist and post Soviet literature and art Fordism and Detroit techno each proposed as exemplary of the social construction of aesthetic and cultural forms His book is a full scale attempt to place the linguistic turn of critical theory and the self reflexive foregrounding of language by the avant garde since the Russian Formalists in relation to the cultural politics of postcolonial studies feminism and race theory As such it will provide a crucial revisionist perspective within modernist and avant garde studies Changing Subjects Srikanth Reddy, 2012-06-13

Theoretical accounts of modern American poetry often regard literary texts as the expression of a subjectivity irremediably fractured by the dividing practices of power In *Changing Subjects* Srikanth Reddy seeks to redress our critical bias toward a fatalistic poetics of rupture and fragmentation by foregrounding a fluent tradition of writers from Walt Whitman to John Ashbery who explore digression rather than disjunction as a rhetorical strategy for the making of modern poetry Mapping the ramifying topography of literary digression *Changing Subjects* offers a wide ranging anatomy of the excursus within twentieth century American poetics Moving from aesthetics to the archive to narratology to figures of identity Reddy considers various spheres in which American writers revisit and revise our models of purposeful discourse by cultivating a poetics of digression in modern literature In new readings of authors such as Wallace Stevens Marianne Moore Frank O'Hara and Lyn Hejinian this study proposes that changing the subject offers a digressive method for negotiating the vexing complexities of art knowledge history and subjectivity under the curious conditions of modernity The book concludes with a survey of Elliptical strategies employed by a new generation of poets writing in the wake of John Ashbery's aleatory craft who seek to extend the digressive project of American poetry into the twenty first century **Writing Not Writing** Tom Fisher, 2017-07-01 The poet George Oppen comments There are situations which cannot honorably be met by art and surely no one need fiddle precisely at the moment that the house next door is burning To write poetry under such circumstances he continues would be a treason to

one's neighbor. Committing himself then to more direct and conventional forms of response and responsibility, Oppen leaves poetry behind for twenty-five years. The disasters of the 1930s for Oppen put poetry into a fundamental question that could not be resolved or overcome. Yet if crisis is continual, then poetry is always turning away from the neighbor in need, always an irresponsible response in a world persistently falling apart. Writing *Not Writing* both confirms this question into which crisis puts poetry and explores alternative modes of response and responsibility that poetry makes possible. Reading the silences of Oppen, Carl Rakosi, and Bob Kaufman, the renunciation of Laura Riding and other more contemporary instances of poetic abnegation, Tom Fisher explores silence, refusal, and disavowal as political and ethical modes of response in a time of continuous crisis. Through a turn away from writing, these poets offer strategies of refusal and departure that leave anagrammatical hollows behind, activating the negational capacities of writing and aesthetics to disrupt the empire of sense, speech, and agency. Fisher's work is both an engaging and detailed analysis of four individual poets who left poetry behind and a theoretically provocative exploration of the political and ethical possibilities of silence, not doing, and disavowal. In lucid but nuanced terms, Fisher makes the case that from at least modernism forward, poetry is marked by refusals of speech and sense in order to open possibilities of response outside conventional forms of responsibility.

New British Poetries Robert Hampson, 1995. This collection of essays covers the wide range of innovative but neglected poetry which flourished in journals and presses outside the mainstream during the period 1970-1990.

A Poetics Charles Bernstein, 1992. In a wild variety of topics, polemic and styles, Bernstein surveys the poetry scene and addresses hot issues of poststructuralist literary theory. What role should poetics play in contemporary culture? Bernstein finds the answer in dissent, in both argument and form, a poetic language that resists being absorbed into the conventions of our culture.
