extensively discusses Moritz Retzsch's twenty six outline prints 1816 and how their spin offs made the unfathomable play available to larger reader communities through copying and extensive distribution circuits including bespoke gifts. The images amply transformed as they travelled throughout Europe and overseas revealing differences between countries and cultures but also their pliability and resilience whenever remediated. This interdisciplinary investigation evidences the importance of print culture throughout the nineteenth and early twentieth centuries in nations involved in competition and conflict. Retzsch's foundational set crucially engenders parody and inspires the stage literature and three dimensional objects well beyond common perceptions of print culture's influence. This book is available in open access thanks to an Institut Universitaire de France IUF grant. **Humanities**, 1989. **Goethe and the Myth of the Bildungsroman** Frederick Amrine, 2020-04-23. This major interdisciplinary collection captures the vitality and increasingly global significance of the Faust figure in literature theatre and music. Bringing together scholars from around the world International Faust Studies examines questions of adaptation reception and translation centering on Faust discourse in a diversity of cultural contexts including the Chinese Japanese Indian African Brazilian and Canadian as well as the European British and American. It broadens the field by including studies of lesser known or neglected Faust discourse including the translation of Goethe's Faust recently attributed to Coleridge in addition to the canonical. *Translation and Rewriting in the Age of Post-Translation Studies* Edwin Gentzler, 2016-11-03. In *Translation and Rewriting in the Age of Post Translation Studies* Edwin Gentzler argues that rewritings of literary works have taken translation to a new level literary texts no longer simply originate but rather circulate moving internationally and intersemiotically into new media and forms. Drawing on traditional translations post translation rewritings and other forms of creative adaptation he examines the different translational cultures from which literary works emerge and the translational elements within them. In this revealing study four concise chapters give detailed analyses of the following classic works and their rewritings: *A Midsummer Night's Dream* in Germany *Postcolonial Faust* Proust for Everyday Readers *Hamlet in China*. With examples from a variety of genres including music film ballet comics and video games this book will be of special interest for all students and scholars of translation studies and contemporary literature.
