A Wish Fulfilled James Qualls,G.A.Sarna,2026-03-17 A Wish Fulfilled Thinking back now I knew this story was already written Still time only rolls forward in this world we must obey the rules despite the antithesis of fact It is okay to bend the law but going beyond that might break the moment forever There is an old myth that Ruby used to talk about when I was a teenager Ruby stated That touching a teardrop of our soulmate finds its way into our hearts and forever links us I am afraid she has surely done that I felt hers when they were tears of joy The sight and sound of her sobbing on video almost stopped my heart If she is not as photogenic as she claims to be I want her camera It is magic Simply touching a kiss maybe to experience her soul in this incarnation will surely bind us once more She is stunning beautiful and frightened Hopefully it is for nothing All of this will pass All of this will change All of this will happen as it already has My books exist in a library hidden from reality However I need to bring them here as proof Magic is real our love is real soulmates are real All of this is a daily reminder of what I need to do to reach her Thanks to the video she forwarded I am working overtime The description I had written is not even close to how beautiful she is in this incarnation As Cugh used to say Suck it up sweet pea we do not have forever But that is not entirely true Forever like magic is a matter of perspective She and I are forever We always have been I know this with all my heart Cugh knew it too We have a few more books that need to be drug into reality We have already written them I seriously need to find my library card The pink of a morning somewhere flows through the tunnel of bismuth and colors my day I look into the world of this woman I love so very much and recall every life we have ever spent She chose to help those around her this time by contracting Lyme She suffered physically so she could connect to those around us and guide their spirits forward She purposely took this pain so that she and I could move from coming back She used this lifetime to grow to make a quantum leap spiritually She used this life to become an angel What is unique about her is that everyone around her got a chance to see it She took us all along for the ride She suffered abuse and heartache she loved and lost and she pushed us all through trials and tests and allowed us to fail so that we could grow The cost that this love of mine endured to move

dining and entertainment industries in this country and around the world *How to Queer the World* Bo Ruberg, 2025-04-22

What video games teach us about building a better world What does it mean to build a world Worldbuilding is traditionally understood as an expression of storytelling across media forms Yet as video games show us worldbuilding does not necessarily need to center narrative elements Instead new worlds can allow us to reimagine existing structures conventions and constants Doing so gives us the tools to queer the world around us *How to Queer the World* argues that video games provide us with keen insight into worldbuilding With these insights come a new understanding of the ever elusive ideals of queer worldmaking Video games challenge us to address how worlds are built through underlying systems rather than surface level representation They also offer opportunities to envision alternate and queer ways of living loving desiring and being Each of the chapters in this book presents a close reading of a video game that illustrates one way of building worlds and encoding them with meaning focusing on elements of digital media often overlooked as technical rather than cultural From the design of game mechanics and user interfaces to the use of graphics software and physics simulations Bo Ruberg argues that these aspects of video games represent a critical toolkit for seeing the work of worldbuilding differently in video games and beyond Simultaneously each of these video games models an approach to what Ruberg terms queer worldbuilding Queer worldbuilding radically remakes the world by destabilizing the fundamental logics of our own universe who we are what we can do how our bodies move and how we exist within time and space **Lay Leadership** Aaron Perry, 2025-01-22
