

## *Mom*

*For all the times that I forgot to thank-you,  
For all the special, little things you do,  
For all the words that somehow go unspoken,  
I need to say, "I love you, Mom...I do."*

*I love you for the way you stop and listen,  
And for your kindness all throughout the years,  
For teaching me the meaning of compassion,  
And sharing in my triumphs and my tears.*

*And if, at times, I may have seemed ungrateful,  
I want to say, "I truly hope you see,  
That nothing you have done has been forgotten,  
And day by day, you just mean more to me."*

In 1988, an Army recruiter encouraged David Weill to sign up for his local Reserve Unit. One weekend, a month, two weeks in the summer, extra money, now and benefits toward college. What's not to like? Weill went home and talked it over with his mother. It was a short conversation. Hey Mom, do you think I should join the Army? No. But David had a money mindset and a patriotic streak. He figured he could serve his country and get paid to do it. Not only did he sign up, he talked his mother, a nurse, into signing up, too. Then Desert Storm

hit the fan and stuff began to get real      My Mother's Sister D. R. Bates, 2008-09 The Vinson family has always given the appearance of near perfection and met the requirements of a being an example people could look up to They are a proud and private first family Yet beneath the surface behind closed doors something insidious and evil is brewing Skeletons are rattling in closets demanding to be released Exposure comes when an unwanted baby is inserted Follow this child's life as she unknowingly becomes the catalyst which sets things in motion and in the end ushers in a time of reckoning and renewal The elder parents of this clan JD and Sarah Vinson are forced to make decisions that will alter lives forever as the landscape of their perfected family is drastically altered and exposed sanity and lives are at stake who will remain standing once the smoke has cleared how will God repair and restore this family Debra Bates is a freelance Christian writer living in Columbus Ohio who has been writing for over 15 years Although My Mother's Sister represents her first published novel she has completed 3 books of poetry She is an advocate for adopted children and blended families and passionate about the concept of families Debra is the mother of 2 sons Altora II and Timothy both are educators and the grandmother of one Chloe Michelle      *Why is it so challenging to cultivate open government data?* Jonathan Crusoe, 2019-04-02 Introduction This compilation licentiate thesis focuses on open government data OGD The thesis is based on three papers OGD is a system that is organized when publishers collect and share data with users who can unrestrictedly reuse the data In my research I have explored why it can be challenging to cultivate OGD Cultivation is human activities that change encourage or guide human organizations towards a higher purpose by changing introducing managing or removing conditions Here the higher purpose is OGD to realize believed benefits Thus OGD cultivation is an attempt to stimulate actors into organizing as OGD Problem and Purpose OGD is believed to lead to several benefits However the worldwide OGD movement has slowed down and researchers have noted a lack of use Publishers and users are experiencing a set of different impediments that are challenging to solve In previous research there is a need for more knowledge about what can impede the OGD organization cause non valuable organizing or even collapse the organization At the same time there is a lack of knowledge about how impediments shape the organization of OGD This gap can make it hard to solve and overcome the impediments experienced by publishers and users The sought after knowledge can bring some understanding of the current situation of OGD In this research I have viewed the organization of OGD as an ecosystem The purpose of this thesis is to draw lessons about why it can be challenging to cultivate OGD ecosystems by understanding OGD impediments from an ecosystem perspective Research Design I set out to explore OGD through qualitative research from 2016 to 2018 My research started with a pilot case study that led to three studies The studies are each reported in a paper and the papers form the base of this thesis The first paper aims to stimulate the conceptually oriented discussion about actors roles in OGD by developing a framework that was tested on a Swedish public agency The second paper has the purpose of expanding the scope surrounding impediments and was based in a review and systematization of previous research about OGD impediments The third paper presents an

exploration of impediments experienced by publishers users and cultivators in the Swedish national OGD ecosystem to identify faults From the three papers lessons were drawn in turn and together that are presented in this thesis Findings Cultivators when cultivating OGD ecosystems are facing towering challenges The following three main challenges are identified in this thesis 1 to cultivate a system that can manage stability by itself without constant involvement 2 to cultivate a system that is capable of evolving towards a greater good by itself and 3 to have an up to date precise vocabulary for a self evolving system that enables inter subjective understand for coordinating problem solving Contribution The theoretical contribution of this thesis is that OGD ecosystems can be viewed as a public utility Moreover I recommend that researchers approach the organizing of OGD as the cultivation of evolution rather than the construction of a structure to consider the stability of the system in growth value and participation and to be cautious with how they label and describe OGD actors For actors that are cultivating OGD I recommend that they guide the OGD actors to help them organize view OGD cultivation as the management of evolution growth towards a purpose and view cultivation as a collaborative effort where they can supply ideas technologies practices and expertise

ways     Mothers-in-Law and Daughters-in-Law Deborah M. Merrill, 2007-09-30 We all know have perhaps told a few stories about mothers in law and daughters in law It seems the stories are nearly always about relationships filled with conflict and abrasive words or actions But why is this relationship so difficult And is it always as bad as popular belief would have us think Deborah Merrill a woman s advocate and Sociology professor at one of our nation s top universities has been studying the relationship for nearly a decade and in this book explains where the difficulty is rooted how friendly pairs have made it past problems that surface between a man s mother and his wife and how they became friends Dozens of interviews with pairs of women made in laws by marriage illustrate Merrill s points from harmful ideas and actions to helpful approaches At its core this book holds that marriage requires the creation of a new and separate family which requires changes in roles as well as a redefinition of relationships Hence family boundaries need to be made permeable to allow for integration of the daughter in law and to allow the son to create his own separate and autonomous family Family members need to be aware of and prepare for this says Merrill That of course may be easier said than done But dozens of women who have become friends with their in laws some so much so that they drop the in law and just call each other mother and daughter explain how they got past the old popular notions and social structure to create goodwill and grow stronger families     A Wizard of Their Age Cecilia Konchar Farr, 2015-01-01 A collection of student essays that captures the passionate engagement their generation brings to the Harry Potter phenomenon A Wizard of Their Age began when the students in Cecilia Konchar Farr s Six Degrees of Harry Potter course at St Catherine University kept finding errors in the available scholarship These students had been reading Harry Potter for their entire literate lives and they demanded more attention to the details they found significant We can do better than this they said Konchar Farr two undergraduate teaching assistants and five student editors decided to test that hypothesis After issuing a call for contributions they selected fifteen thoughtful academic essays by students from across the country These essays examine the Harry Potter books from a variety of perspectives including literary historical cultural gender mythological psychological theological and genetic there is even a nursing care plan for Tom Riddle Interspersed among the essays are brief vignettes entitled My Harry Potter Story where students write about their personal encounters with the novels Although a quick Internet search yields a dazzling number of books about Harry Potter few are as deeply invested or insightful as A Wizard of Their Age Written and edited by and for members of the Harry Potter generation these essays demonstrate this generation s passionate engagement with the Harry Potter phenomenon and provide numerous critical insights into the individual novels and the series as a whole     Memoirs of a Knish my journeys, my memories, my mother Terri L.
