Thar She Goes Shipbuilding On The Connecticut River:

"Thar She Goes!" Ellsworth S. Grant,2000 Connecticut River Shipbuilding Wick Griswold,Ruth Major,2020-10-05
Shipbuilding and shipping have always been key elements in the life of Essex Since the seventeenth century the men and women of the lower Connecticut River Valley sustained maritime traditions that spanned the globe in splendid wooden sailing vessels Their accomplishments include building the first warship of the Connecticut navy and the world s first submarine They also served as packet ship captains navigators and skilled crew members who crossed the Atlantic The Essex area was also home to dedicated craftsmen who produced some of the finest yachts ever built Noted historians Wick Griswold and Ruth Major detail one village s important role in American maritime history **A Primary Source History of the Colony of Connecticut** Ann Malaspina,2005-12-15 Maps documents and artwork are used to introduce the history of Connecticut to the time of the American Revolution **Colonial Ecology, Atlantic Economy** Strother E. Roberts,2019-06-28 Focusing on the Connecticut River Valley New England s longest river and largest watershed Strother Roberts traces the local regional and transatlantic markets in colonial commodities that shaped an ecological transformation in one corner of the rapidly globalizing early modern world Reaching deep into the interior the Connecticut provided a watery commercial highway for the furs grain timber livestock and various other commodities that the region exported Colonial Ecology Atlantic Economy shows how the extraction of each commodity had an impact on the New England landscape creating a new colonial ecology inextricably tied to the broader transatlantic economy beyond its shores This history refutes two common misconceptions first that globalization is a relatively new phenomenon and its power to reshape economies and natural environments has only fully been realized in the modern era and second that the Puritan founders of New England were self sufficient ascetics who sequestered themselves from the corrupting influence of the wider world Roberts argues instead that colonial New England was an integral part of Britain s expanding imperialist commercial economy Imperial planners envisioned New England as a region able to provide resources to other more profitable parts of the empire such as the sugar islands of the Caribbean Settlers embraced trade as a means to afford the tools they needed to conquer the landscape and to acquire the same luxury commodities popular among the consumer class of Europe New England s native nations meanwhile utilized their access to European trade goods and weapons to secure power and prestige in a region shaken by invading newcomers and the diseases that followed in their wake These networks of extraction and exchange fundamentally transformed the natural environment of the region creating a landscape that by the turn of the nineteenth century would have been unrecognizable to those living there two centuries earlier *The British Raid on Essex* Jerry Roberts,2014-04-30 This is the dynamic account of one of the most destructive maritime actions to take place in Connecticut history the 1814 British attack on the privateers of Pettipaug known today as the British Raid on Essex During the height of the War of 1812 136 Royal marines and sailors made their way up the Connecticut River from warships anchored in Long Island Sound Guided by a well

paid American traitor the British navigated the Saybrook shoals and advanced up the river under cover of darkness By the time it was over the British had burned twenty seven American vessels including six newly built privateers It was the largest single maritime loss of the war Yet this story has been virtually left out of the history books the forgotten battle of the forgotten war This new account from author and historian Jerry Roberts is the definitive overview of this event and includes a wealth of new information drawn from recent research and archaeological finds Lavish illustrations and detailed maps bring the battle to life

The Oxford Handbook of Maritime Archaeology Alexis Catsambis,Ben Ford,Donny L. Hamilton,2011-04-01 The Oxford Handbook of Maritime Archaeology is a comprehensive survey of the field as seen through the eyes of nearly fifty scholars at a time when maritime archaeology has established itself as a mature branch of archaeology This volume draws on many of the distinct and universal aspects of maritime archaeology bringing them together under four main themes the research process ships and shipwrecks maritime and nautical culture and issues of preservation and management The first section of the book deals with the best practices for locating documenting excavating and analyzing submerged sites This

methodological foundation is followed by a sample of shipwreck studies from around the world as scholars trace the regional development of ships and seafaring. Chosen to balance the traditional core regions of maritime archaeology with important but lesser studied areas, it aims at offering an international account of the study of submerged sites. Reflecting the growing number of scholars who study past maritime cultures but not shipwrecks, the third section of the book addresses various aspects of the maritime landscape and ethnography above and below the water. The final chapters then approach maritime archaeology in a broader context, moving beyond archaeological sites to discuss the archaeological record in general within legal preservation and management frameworks. Taken together, these individual and original articles provide a valuable resource that summarizes the current state of the field of maritime archaeology and offers insight into the future of this established and growing discipline.

Skeletons on the Zahara Dean King, 2025-05-01 A National Bestseller, the true story of shipwrecked American sailors in Africa who were captured by slavers and forced to trek through the Sahara. This true life saga reads like a cross between *Master and Commander* and *Lawrence of Arabia*. People: The western Sahara is a baking hot and desolate place, home only to nomads and their camels, and to locusts, snails, and thorny scrub, and its barren and ever-changing coastline has baffled sailors for centuries. In August 1815, the US brig *Commerce* was dashed against Cape Bojador and lost. Although, through bravery and quick thinking, the ship's captain James Riley managed to lead all of his crew to safety, what followed was an extraordinary and desperate battle for survival in the face of human hostility, starvation, dehydration, death, and despair. Captured, robbed, and enslaved, the sailors were dragged and driven through the desert by their new owners who neither spoke their language nor cared for their plight. Reduced to drinking urine, flayed by the sun, crippled by walking miles across burning stones and sand, and losing over half of their body weights, the sailors struggled to hold onto both their humanity and their sanity. To reach safety, they would have to overcome not only the desert but also the greed and anger of those who would keep them in captivity. From the cold waters of the Atlantic to the searing Saharan sands, from the heart of the desert to the heart of man, *Skeletons on the Zahara* is a spectacular odyssey through the extremes and a gripping account of courage, brotherhood, and survival. A little bit *H. Rider Haggard*, a little bit *Jon Krakauer*, a little bit *Nathaniel Philbrick*, and a whole lot of gruesome fun. Salon

[Hopes and Expectations](#) Barbara J. Beeching, 2016-12-29 Winner of the 2017 Homer D. Babbidge Jr. Award presented by the Association for the Study of Connecticut History. Based on a treasure trove of more than two hundred personal letters written in the 1860s, *Hopes and Expectations* tells the story of three young African Americans in the North. Living on Maryland's eastern shore, schoolteacher Rebecca Primus sent home weeklies to her parents in Hartford and also corresponded with friend Addie Brown, a domestic worker back home. Addie wrote voluminously to Rebecca, lamenting their separation and describing her struggle to achieve a semblance of security and stability. Around the same time, Rebecca's brother Nelson began writing home about his new life in Boston as he set out to make a name and a career for himself as an artist. The letters describe their daily lives and touch on race, class, gender, religion, and politics.

offering rare entry into individual black lives at that time Through extensive archival research Barbara J Beeching also shows how the story of the Primus family intersects with changes over time in Hartford s black community and the country Newspapers and census tracts as well as probate land court and vital records help her trace an arc of local black fortunes between 1830 and 1880 Seeking full equality blacks sought refinement and respectability through home ownership literacy and social gains One of the many paradoxes Beeching uncovers is that just as the Civil War was tearing the nation apart a recognizable black middle class was emerging in Hartford It is a story of individuals family and community of expectation and disappointment loss and endurance change and continuity Writings on New England History ,2003 **Connecticut History** ,2005 Chinese Export Art at Historic Deerfield Amanda Elizabeth Lange,2005 This illustrated full color catalogue represents the first survey of Historic Deerfields Chinese export art collection Written by Curator of Historic Interiors Amanda E Lange Chinese Export Art at Historic Deerfield presents new research on the involvement of rural New England in the China trade and features in depth object entries BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Connecticut River from the Air* Jerry Roberts,2018-08-15 The Connecticut River from the Air is a collection of extraordinary aerial images and an adventure chronicled by historian Jerry Roberts and photographed by Tom Walsh The book provides an intimate perspective exploring New England s greatest river from Long Island Sound where its waters mingle with the salty brine of the Atlantic Ocean to its source 410 miles to the north just yards from the Canadian border Amazing and wonderful sights appear along the River that can only be seen and appreciated from small low flying aircraft Beauty and wonder can be found in historic canals and bridges as well as twists and bends in the River ship wrecks rock formations and even sand patterns on the River bottom From naturally formed ox bows to cornfield mazes hidden valleys quaint villages industrial cities and sweeping vistas these Wonders of the River are the true treasures of this amazing waterway and its surrounding landscapes **American Book Publishing Record** ,2000-07 *Weißer Sklaven* Dean King,2005 1815 Kapit n James riley l uft mit seiner Brigg Commerce vor der Westk ste Afrikas auf ein Riff Riley kann sich mit seiner Mannschaft auf den strand retten nur um nomaden in die H nde zu fallen die ihn und seine M nner in die Sklaverei zwingen **America, History and Life** ,2003 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide Marine Review and Marine Record ,1905 Includes section Book Reviews Flood Control Omnibus Bill(Title II-H.R. 9859) ...
