*Turkestan and the Fate of the Russian Empire* Daniel Brower,2012-11-12 The central argument of this book is that the half century of Russian rule in Central Asia was shaped by traditions of authoritarian rule by Russian national interests and by a civic reform agenda that brought to Turkestan the principles that informed Alexander II s reform policies This civilizing mission sought to lay the foundations for a rejuvenated modern empire unified by imperial citizenship patriotism and a shared secular culture Evidence for Brower s thesis is drawn from major archives in Uzbekistan and Russia Use of these records permitted him to develop the first interpretation either in Russian or Western literature of Russian colonialism in Turkestan that draws on the extensive archival evidence of policy making imperial objectives and relations with subject peoples
